INTERNATIONAL COOPERATION ADMINISTATION FY 1961 ISSUE NO. 4 | E NO. 4

PREFACE

This *Operations Report* was prepared by the Office of Statistics and Reports of the International Cooperation Administration, Washington, D.C.

The charts and statistical tables appearing in this report cover the obligations and expenditures against the various programs administered by ICA, with detail by category of funds, type of assistance, region, country, and commodity.

FISCAL YEAR 1961 PROGRAM vs. TREND DATA

In those sections of the report dealing with "FY 1961 program" data exclusively, with no other year shown, it may be noted that the data on obligations vary slightly for some countries from data for FY 1961 reported in statements showing a trend over successive years. This is because the trend data each year is calculated on a *net* basis, with the deobligations which occurred during any year subtracted from the increases during the year, and any reobligations added back in — which is the only way to avoid double-counting when the aid figures are added up over a period or on a cumulative basis.

GENERAL NOTE: This statement shows loan obligations by fiscal year activity, irrespective of fiscal year in which the loan agreements were signed.

a/ Two lines of credit totalling $35 million were extended to Burma. $31.5 million was obligated by the end of fiscal year 1959, but deobligations of $3.8 million during FY 1960 reduced the cumulative total under these lines of credit to $27.7 million, the level at which it now stands.

b/ A $15 million line of credit was extended to Indonesia in fiscal year 1957. All of this was obligated in 1957 and 1958, but deobligations of $3.3 million in FY 1960 and a reobligation of $0.5 million in FY 1961 brings the total obligations to $12.2 million.

c/ Defense Department loan to Peru from Mutual Security Program Military Assistance funds in fiscal year 1955, and increased by $0.7 million in fiscal year 1958.

[a] Loan of Danish kroner, obtained by the U.S. from sales of surplus agricultural commodities to Denmark in fiscal year 1955; Denmark actually reloaned the kroner to Iceland for a cement plant — the loan to be repaid in dollars. In 1955 the ultimate aid recipient was unknown; the "aid" was credited to "Other Europe".

[b] Includes the equivalent of $0.6 million in local currencies obtained by the U.S. from sales of surplus agricultural commodities to Denmark and Netherlands. This was credited as "aid" to "Other Europe" ($0.3 million in 1955) and to Netherlands ($0.4 million in 1954).

[c] Non-interest bearing loan signed by the People-to-People Health Foundation, Inc.

[a] Negative figures denote U.S. dollar expenditures financing surplus commodity sales where the equivalent local currency sales proceeds will be used to finance commodity exports to a third country. Corresponding positive amounts reflect local currency aid credits to third country beneficiaries of triangular sales agreements.

[b] Shown in total only, without regional detail.

[c] Represents reduction of $-25,667 thousand against dollar advances made in FY 1960 for various procurement authorizations and an additional advance of $12,800 thousand in FY 1961 for procurement of commodities.

[d] Not distributed by region and country. [e] Special program for Tropical Africa.

NOTE: Data represent net expenditures; negative figures are due to occassional refunds or adjustments to prior year records.

† In order to insure that most ICA funds would be spent in the United States, the Secretary of State, on December 5, 1960 instructed ICA "to effect an orderly cessation of commodity procurement financed with ICA program funds" in 19 specified countries, primarily the West European countries and Japan. These countries, accounted for approximately half of ICA commodity expenditures in fiscal year 1960. The expenditures recorded here by [June 30] for these countries were the result of firm obligations and contracts entered into prior to this new procurement policy.

a/ The December 5 order covered Hong Kong only. The ICA country code system at that time included British North Borneo, Brunei, Hong Kong, Sarawak, and Singapore in one number, with the data for Hong Kong alone not separable in the statistics at this time.

a/ In order to insure that most ICA funds would be spent in the United States, the Secretary of State, on December 5, 1960 instructed ICA "to effect an orderly cessation of commodity procurement financed with ICA program funds" in 19 specified countries, primarily the West European countries and Japan. These countries, accounted for approximately half of ICA commodity expenditures in fiscal year 1960. The expenditures recorded here by June 30 for these countries were the result of firm obligations and contracts entered into prior to this new procurement policy.

b/ The December 5 order covered Hong Kong only. The ICA country code system at that time included British North Borneo, Brunei, Hong Kong, Sarawak, and Singapore in one number, with the data for Hong Kong alone not separable in the statistics at this time.
