Note Based on U S *Overseas Loans and Grants* and Assistance from International Organizations
[a]Each country is counted only once if it receives funding from one or more appropriations

[b]Each Country is counted only once if it receives one or more kinds of assistance Included in the total count but not shown separately are such programs as Inter American Foundation International Narcotics Control

REPORTING CONCEPTS

The current issue of this report continues to summarize and group the individual countries by geographic region, without distinction between "developed" and "developing" countries

The U S programs included in "Economic Assistance" for all countries in this book are equivalent to those included in the U S reports to the Development Assistance Committee (DAC) of the Organization for Economic Cooperation and Development in compiling its statistics on "Official Development Assistance" (ODA)

On each page, following Section III, Total Economic and Military Assistance, there is a section that sets forth Other U S Government Loans This category includes Export-Import Bank loans and other loans principally short-term credits under the Commodity Credit Corporation Charter Act, Overseas Private Investment Corporation (OPIC) direct loans, and private trade agreements under Title I of PL 480

Prior to FY 1955 data represent net obligations From FY 1955 to the present, data represent gross obligations that is, total new obligations entered into during a given year Cumulative totals shown for FY 1962-1996 are gross The FY 1946-1996 cumulative totals however, are on a net basis reflecting total obligations for the entire period less all deobligations during that period

The country levels shown in this report include not only bilateral amounts but also other accounts that are attributed to a country such as foreign disaster assistances, regional programs, etc and may differ from the USAID Congressional Presentation Summary Tables data

I ECONOMIC ASSISTANCE

a U S Agency for International Development

Data cover commitments for economic assistance made by USAID and its predecessor agencies Commitments include loan authorizations and obligations and grant obligations Country-level data includes some regional funds where such funds were directly allocated to field missions (The data for commitments on the interregional page include State and Department of Energy contributions to international organizations and programs and miscellaneous State operating expenses financed by USAID under the Foreign Assistance Act of 1961, as amended) The data include obligations for grants and loans from the Development Assistance Funds the Economic Support Fund Peacekeeping Operations and Security Supporting Assistance appropriations (excluding funds used for Population Programs FY 1968-1973), as well as obligations in past years from appropriations for Contingency, Special Assistance, Defense Support, Direct Forces Support, Joint Control Area, International Organizations, Indochina Postwar Reconstruction, Middle East Special Requirements Fund, and Assistance to Portuguese Colonies in Africa The loan total also includes "capitalized interest", which represents interest on loans that rather than being paid when due, is added for accounting purposes to the face amount of the loan, and is thereafter treated as principal to be repaid with interest The loans made from the Social Progress Trust Fund by the Inter-American Development Bank are not included in the USAID figures, but are included under "Other Economic Assistance" A separate memorandum line item has been included for Security Supporting Assistance/Economic Support Fund obligations

Housing Credit Subsidy and Administration Loan levels represent program level only Under Title V of the Congressional Budget Act of 1974, known as the Crdit Reform Act, only the subsidy value of the loan is recorded as an obligation

b Food for Peace PL 480 - Agricultural Trade Development and Assistance Act of 1954 and Amendments Thereto

Title I - Sales Agreements

Repayable in U S Dollars Sales on credit terms repayable in U S dollars are shown in total as loans excluding any initial down payments in dollars which have been specified in some sales agreements The data exclude any private trade agreements financed under the Act Any shortfalls or cancellations through FY 1973 are reflected in the year the agreement was originally signed Beginning in FY 1974, such reductions are reflected only in the cumulative total with no adjustments in annual agreements

Payable in Foreign Currency The portion of each agreement which is "planned for country use" is included in the country totals in the year the sales agreement was signed A few agreements are more than a year's requirement Adjustments have been made for actual shortfall of deliveries from annual agreements Initial downpayments are excluded from the data Legislative authority for sales payable in foreign currency has expired

Title II - Food Aid Programs

Emergency and Private Assistance Program This part of

Title II authorizes funds for the transfer of agricultural commodities by the Commodity Credit Corporation (CCC) to help needy people to meet famine or other urgent or extraordinary relief requirements, or to promote economic development The data includes country by country levels of commodities authorized plus ocean freight through FY 1972 Beginning in FY 1973 through FY 1980, the data are shipment levels plus ocean freight Starting in FY 1980 annual data are final obligations From FY 1981 onward cost of ocean freight is not included in country levels, but is included in the interregional table on page 190 Commodity values through FY 1969 are at CCC cost, subsequent years are at export values

Voluntary Relief Agencies The data included under this part of Title II cover only the cost of agricultural commodities donated to voluntary relief agencies such as CARE National Catholic Welfare Conference Lutheran World Relief, etc for distribution to needy people abroad The figures represent authorizations for voluntary relief agency donations valued at CCC costs through FY 1969, with shipment levels for subsequent years at export values For years prior to FY 1955, the data represents transfers authorized under Section 416 of the Agricultural Act of 1949 (Public Law 81-439) Beginning in FY 1989 Section 416 Export Donations Program was added to this program Cost of ocean freight is not included by country but is included in the interregional activities table on page 190

Title III - Food For Development Program

Food for Development Program The Title III grant Food for Development Program authorizes funds for the transfer of agricultural commodities by the Commodity Credit Corporation (CCC) to eligible "least developed" countries under certain conditions and for either the commodities or local currency generated by their sale to be used for specific development purposes Originally part of Title I and administered by USDA Title III was changed by the FY 1990 Agricultural Development and Trade Act and is now a separate program administered by USAID

c Other Economic Assistance

Loans Included in this category are loans authorized by the Inter-American Development Bank from the Social Progress Trust Fund (SPTF), which the IDB administers for the United States and minor amounts of technical assistance grants from the Trust Fund Excluded are SPTF participations in IDB loans

Contributions to IFI The FY 1993 data includes $12 0 billion for International Monetary Fund contribution

Peace Corps Data include obligations incurred for the operation of the overseas volunteer program of Action

Narcotics Data include grants for International Narcotics Control

Other Most of the other programs included here were prior to FY 1953 The major programs included are "UNRRA", "Civilian Supplies (including Government and Relief to Occupied Areas)," "Surplus Property Credits" "Civilian Relief in Korea" "Greek Turkish Aid" "British Loans", and "Philippines Rehabilitation" Currently, the principal programs in this category are paid-in capital subscriptions and contributions to international lending organizations (such as the Inter-American Development Bank and the International Development Association) and grants by the Inter-American Foundation Beginning in FY 1985 Trade and Development and FY 1989 African Development Foundation grants are included in this category

II MILITARY ASSISTANCE

Annual data for both grants and credits beginning with FY 1964 onward are on a "program" basis as are the cumulative totals

a Military Assistance Program (MAP) Grants

The data represent primarily grants of military equipment supplies and services purchased with funds appropriated under the Military Assistance Program (MAP) Such grants under the MAP program under the authority of the Foreign Assistance Act of 1961 (FAA), were provided through FY 1989 after which military assistance grants were provided under the Foreign Military Financing (FMF) program authorized by the Arms Export Control Act (AECA) Also included in this category are transfers of material under P L 91-652, P L 95 384, and P L 96-92

b Foreign Military Credit Financing

The "Credit" data through FY 1968 represent credit financing under the MAP program, including loans guaranteed by the Department of Defense, but provided through the Export-Import Bank Data exclude any direct cash sales of military equipment "Credit" data for FY 1969-1993 represent U S government credits provided under the Foreign Military Sales Credit program and the Foreign Military Financing program authorized by the Arms Export Control Act Totals include all such Credits under the FAA and AECA

c International Military Education and Training (IMET) Program

Grant aid training of foreign military personnel, which was formerly provided under MAP and Military Assistance Service Funded (MASF) Grants, was separated out and incorporated in an independent International Military Education and Training (IMET) Program The data represent grants of instruction and training services to military and related civilian personnel of friendly countries

d Transfers of Excess Defense Articles (EDA)

This data reflects the original acquisition value of equipment and supplies transferred to foreign governments that are excess to the requirements of the U S military departments and are granted to the foreign government at no cost to appropriated U S funds Until FY74, the amount used was the legislated value of excess defense articles representing 33 1/3 percent of the original acquisition value

e Other Grants

Data primarily represent aid provided under the authorities of the Arms Export Control Act grants provided to foreign countries under the Foreign Military Financing (FMF) program and forgiven credits provided under the Foreign Military Sales Credit program for the purchase of defense articles and services Also included herein are transfers of vessels generally requiring the return of the vessels, but on an indeterminate basis For these "Vessel Loans," the data represent the estimated value of the vessels

OTHER U S GOVERNMENT LOANS

a Export-Import Bank Loans

The Export Import Bank facilitates U S exports primarily capital equipment, with loans to foreign buyers as well as with credit insurance and guarantees against certain commercial and political risks of loans extended by others While some of these Eximbank-assisted exports may have a developmental effect in the country of the buyer (most transactions are with foreign private sector entities), terms and conditions preclude classification as Official Development Assistance

Data reflect credits authorized in favor of foreign buyers, data for years prior to FY 1969 include only those having maturities of five years or more Because this document reports only loans, data reflecting Eximbank authorizations of export credit insurance and guarantees are not included, such information is contained in Eximbank's Annual Report to the Congress

Cancellations and terminations are deducted from loans authorized Until FY 1973 fiscal year data have been constructed so that if a loan made in one year is increased in a later year, the increase is included in the year it occurred, but if the loan is cancelled decreased or sold to a non-U S government purchaser in a later year, the loan has been decreased in the year originally authorized Starting in FY 1973 however, such reductions are reflected in the cumulative total, with no adjustment in the annual data Starting in FY 1980 such increases are reflected in cumulative totals only with no adjustment in the annual data

b All Other

These include short term credits by the U S Department of Agriculture under the Commodity Credit Corporation Charter Act, Overseas Private Investment Corporation (OPIC) direct loans and Private Trade agreements under PL 480 Title I

TIME PERIODS

The commitments data for all economic and military programs are shown by U S fiscal years arranged in four broad groupings Post-War Relief Period (1946-1948) Marshall Plan Period (1949-1952) Mutual Security Act Period (1953-1961), and Foreign Assistance Act Period (1962-1996) The U S Agency for International Development has been in existence only during this last period

PRINCIPAL REPAYMENTS

The "Principal Repayments" column shows the cumulative principal repaid on loans made during the period 1946-1996 and payments on capitalized interest for that period It includes repayments in dollars and in foreign currencies the latter, of course, are expressed in dollar equivalents

OUTSTANDING LOAN BALANCES

The "Outstanding Loan Balances" column shows the cumulative amount of loan principal yet to be repaid on loans made during the period 1946-1996 and on capitalized interest for that period

NOTE Details may not add to totals due to rounding
*Denotes less than $50 000 where applicable
