[a]Each country is counted only once if it receives funding from one or more appropriations

[b]Each Country is counted only once if it receives one or more kinds of assistance Included in the total count but not shown separately are such programs as Inter American Foundation International Narcotics Control

REPORTING CONCEPTS

The current issue of this report continues to summarize and group the individual countries by geographic region, without distinction between developed and 'developing" countries

The U S programs included in Economic Assistance for all countries in this book are equivalent to those included in the U S reports to the Development Assistance Committee (DAC) of the Organization for Economic Cooperation and Development in compiling its statistics on Official Development Assistance (ODA)

On each page following Section III, Total Economic and Military Assistance, there is a section that sets forth Other U S Government Loans This category includes Export-Import Bank loans and other loans principally short-term credits under the Commodity Credit Corporation Charter Act Overseas Private Investment Corporation (OPIC) direct loans, and private trade agreements under Title I of PL 480

Prior to FY 1955 data represent net obligations From FY 1955 to the present data represent gross obligations that is total new obligations entered into during a given year Cumulative totals shown for FY 1962-1997 are gross The FY 1946-1997 cumulative totals however, are on a net basis reflecting total obligations for the entire period less all deobligations during that period

The country levels shown in this report include not only bilateral amounts but also other accounts that are attributed to a country such as foreign disaster assistances, regional programs etc and may differ from the USAID Congressional Presentation Summary Tables data

c Other Economic Assistance

II MILITARY ASSISTANCE

Annual data for both grants and credits beginning with FY 1964 onward are on a program basis as are the cumulative totals

a Military Assistance Program (MAP) Grants

The data represent primarily grants of military equipment supplies and services purchased with funds appropriated under the Military Assistance Program (MAP) Such grants under the MAP program, under the authority of the Foreign Assistance Act of 1961 (FAA), were provided through FY 1989 after which military assistance grants were provided under the Foreign Military Financing (FMF) program authorized by the Arms Export Control Act (AECA) Also included in this category are transfers of material under P L 91-652 P L 95-384 and P L 96 92

b Foreign Military Credit Financing

The Credit data through FY 1968 represent credit financing under the MAP program, including loans guaranteed by the Department of Defense but provided through the Export-Import Bank Data exclude any direct cash sales of military equipment Credit data for FY 1969 1993 represent U S government credits provided under the Foreign Military Sales Credit program and the Foreign Military Financing program authorized by the Arms Export Control Act Totals include all such Credits under the FAA and AECA

c International Military Education and Training (IMET) Program

Grant aid training of foreign military personnel which was formerly provided under MAP and Military Assistance Service Funded (MASF) Grants, was separated out and incorporated in an independent International Military Education and Training (IMET) Program The data represent grants of instruction and training services to military and related civilian personnel of friendly countries

d Transfers of Excess Defense Articles (EDA)

This data reflects the original acquisition value of equipment and supplies transferred to foreign governments that are excess to the requirements of the U S military departments and are granted to the foreign government at no cost to appropriated U S funds Until FY74, the amount used was the legislated value of excess defense articles, representing 33 1/3 percent of the original acquisition value

e Other Grants

Data primarily represent aid provided under the authorities of the Arms Export Control Act grants provided to foreign countries under the Foreign Military Financing (FMF) program and forgiven credits provided under the Foreign Military Sales Credit program for the purchase of defense articles and services Also included herein are transfers of vessels, generally requiring the return of the vessels, but on an indeterminate basis For these Vessel Loans,' the data represent the estimated value of the vessels

OTHER U S GOVERNMENT LOANS

a Export Import Bank Loans

The Export-Import Bank facilitates U S exports primarily capital equipment, with loans to foreign buyers as well as with credit insurance and guarantees against certain commercial and political risks of loans extended by others While some of these Eximbank-assisted exports may have a developmental effect in the country of the buyer (most transactions are with foreign private sector entities) terms and conditions preclude classification as Official Development Assistance

Data reflect credits authorized in favor of foreign buyers, data for years prior to FY 1969 include only those having maturities of five years or more Because this document reports only loans, data reflecting Eximbank authorizations of export credit insurance and guarantees are not included, such information is contained in Eximbank s Annual Report to the Congress

Cancellations and terminations are deducted from loans authorized Until FY 1973 fiscal year data have been constructed so that if a loan made in one year is increased in a later year the increase is included in the year it occurred but if the loan is cancelled, decreased or sold to a non U S government purchaser in a later year, the loan has been decreased in the year originally authorized Starting in FY 1973 however such reductions are reflected in the cumulative total with no adjustment in the annual data Starting in FY 1980 such increases are reflected in cumulative totals only with no adjustment in the annual data

b All Other

These include short term credits by the U S Department of Agriculture under the Commodity Credit Corporation Charter Act Overseas Private Investment Corporation (OPIC) direct loans and Private Trade agreements under PL 480 Title I

TIME PERIODS

The commitments data for all economic and military programs are shown by U S fiscal years arranged in four broad groupings, Post War Relief Period (1946 1948) Marshall Plan Period (1949-1952), Mutual Security Act Period (1953 1961), and Foreign Assistance Act Period (1962 1997) The U S Agency for International Development has been in existence only during this last period

PRINCIPAL REPAYMENTS

The Principal Repayments column shows the cumulative principal repaid on loans made during the period 1946 1997 and payments on capitalized interest for that period It includes repayments in dollars and in foreign currencies the latter of course, are expressed in dollar equivalents

OUTSTANDING LOAN BALANCES

The Outstanding Loan Balances column shows the cumulative amount of loan principal yet to be repaid on loans made during the period 1946 1997 and on capitalized interest for that period
