10. Scope of Technical Service -

A. Objective: To assist the Directorate General of Food Crops in developing a work plan and scope of work for their program to form and strengthen local irrigation organizations.

B. Description

The contractor shall work with the Directorate General for Food Crops in the design of a program of assistance to local irrigation organizations. This program shall address the initial formation and the strengthening of the local social infrastructure needed for the water management, operation, and maintenance of tertiary and quaternary irrigation and drainage systems. The proposed program shall clearly show the relationship of the local, social infrastructure with the management, operation, and maintenance of the major works, i.e. diversion, intake, and primary and secondary canals. The contractor shall review and summarize the work on water users association by the Sederhana Consultants, International Engineering Company, Inc., Sinotech Engineering Consultants, Inc., and Sangkuriang Ltd. The contractor shall clearly show the
