GRANT ACTIVITY DATA

TABLE III

TITLE	FUNDS	PROPOSED OBLIGATION ($000)	
Technical Services and Feasibility Studies	Security Supporting Assistance	FY 76 1,000	
NUMBER	PRIOR REFERENCE --	INITIAL OBLIGATION FY: 1976	SCHEDULED FINAL OBLIGATION FY: 1976

Project Target and Course of Action: The Government of Jordan requires assistance in the formulation, design and development of programs and projects in various sectors of its economy. Most of these programs and projects will require outside financial assistance. To obtain such assistance, the Government of Jordan must be in a position to provide potential donors with sufficient technical, economic and financial information to permit an assessment of the programs and projects for which financing is being sought. Outside expertise is in many cases required to collect relevant data, carry out feasibility studies, advise management, or to supplement expertise available in the country.

FY 1976 Program: For FY 1976, we request an amount of $1,000,000 to finance the costs of feasibility and preinvestment studies, market surveys, engineering studies, and project management assistance. The scope of the technical services to be provided will be broad. Sectors which will require such services include mineral and water resources development, agriculture and agribusiness, transportation, rural development particularly in the Jordan Valley, tourism, telecommunications, and social infrastructure.
