The schedules appearing in this volume reflect cumulative expenditure of U.S. dollars for capital assistance projects which have been reported as being financially completed. These schedules are identified as follows

Capital Assistance Projects - Country - by Project

Capital Assistance Projects - Bureau Summary - by Major Field of Activity

Capital Assistance Projects - World-Wide Summary - by Major Field of Activity

The following factors should be considered when using this volume:

1. This volume is one of four comprising the report. For additional project information, refer to other parts of the report entitled: "Capital Assistance Projects;" "Technical Assistance Projects and Activities;" and "Technical Assistance - Completed Projects and Activities."

2. This volume includes all projects completed during the current and prior fiscal years.

3. Projects are considered financially completed when all obligations for the project have been liquidated either by cancellation or payment, e.g., obligations equal expenditures.

4. The amounts shown represent only U.S. dollars attributed directly to projects.

5. The first segment of the project number, the geographic code, is not applicable to projects that are unilateral or inter-regional in character.
