Special Report Prepared For The

HOUSE FOREIGN AFFAIRS COMMITTEE

F O R E W O R D

This report, the sixth to be issued under the current title, has been prepared at the request of the House Foreign Affairs Committee for their use during the hearings on the Foreign Assistance Act. All countries receiving any type of loans or grants since 1945 are included, regardless of whether or not the particular country received assistance under the Foreign Assistance Act and antecedent legislation.

The figures in the first section of the report include not only commitments under the Foreign Assistance Act, but also the other important types of transactions, such as loans and grants arising from shipments of surplus agricultural products under Public Law 480, Export-Import Bank long-term loans, and United States contributions to international organizations.

The individual country pages have been grouped and summarized as either "less developed" or "developed". Countries have been classified "less developed" on the basis of the standard list of less developed countries used by the Development Assistance Committee of the Organisation for Economic Co-operation and Development.

The data are on an obligation and loan authorization basis, rather than on an expenditure basis. The major exception to this procedure has been in the case of Military Assistance, where the annual data represent the value of goods and services delivered, although the cumulative military total represents amounts programmed rather than the sum of deliveries.

This report has been prepared by the Statistics and Reports Division in the Office of Program and Policy Coordination of the Agency for International Development. The data are from A.I.D. records; published reports of various agencies; and from special data obtained from the Office of Business Economics, Department of Commerce, and from the Office of the Assistant Secretary of Defense for International Security Affairs.

There is a supplement in the back of this report showing assistance received by each country <u>from</u> international organizations. These data should not be confused with U.S. contributions <u>to</u> multilateral organizations, which, as mentioned above, are included in the totals of U.S. loans and grants in the body of the report.

GENERAL NOTES

LESS DEVELOPED COUNTRIES

This report summarizes and groups the individual countries as either "less developed" or "developed". Countries have been classified "less developed" on the basis of the standard list of less developed countries used by the Development Assistance Committee of the Organisation for Economic Co-Operation and Development in compiling its statistics on the flow of financial resources. Using this list, data for "less developed countries" include all countries other than the following, which are considered "developed": Japan, Australia, New Zealand, Republic of South Africa, Canada, and all of Europe except Malta, Spain and Yugoslavia.

ECONOMIC

AGENCY FOR INTERNATIONAL DEVELOPMENT

The data cover commitments for economic and technical assistance made by A.I.D. and its predecessor agencies. Commitments may be defined as development loans authorized and obligations of other A.I.D. funds. All annual commitment data as well as the cumulative totals are on a "net" basis, that is, new obligations from funds appropriated for that fiscal year, plus or minus reobligations or deobligations of prior year funds. A minus figure indicates deobligations in excess of new obligations. Data for FY 1949 cover 15 months, from the start of the Marshall Plan, April 3, 1948 to June 30, 1949.

Commitments made by A.I.D. and its predecessor agencies are shown separately for loans and grants. The loan total covers development loans, Alliance for Progress loans, supporting assistance loans, and any other loans from A.I.D. or predecessor agency funds. The data include "capitalized interest"; this represents interest on prior-year loans which rather than being paid when due, is added for accounting purposes to the face amount of the loan, although it is not new assistance, and is thereafter treated as principal to be repaid with interest. Whenever such capitalized interest accounts for the only loan activity for the year in the particular country, it is suitably footnoted. The loans made from the Social Progress Trust Fund by the Inter-American Development Bank are not included here, but are shown separately, under "Other U.S. Economic Programs".

FOOD FOR FREEDOM: PL 480 - AGRICULTURAL TRADE DEVELOPMENT AND ASSISTANCE ACT OF 1954 AND AMENDMENTS THERETO

Recent revisions in PL 480 (now called "Food for Freedom") group the various programs under two titles instead of the former four. Old Titles I and IV now comprise the new Title I. and old Titles II and III become new Title II.

TITLE I - SALES AGREEMENTS

Title I of the current Act provides for the sale of agricultural commodities either for foreign currency or for U.S. dollars on credit terms. For sales payable in foreign currencies it also specifies the ways in which portions of the foreign currency proceeds may be used to benefit the purchasing country. These two types of sales agreements, both at export market value are handled in this report as follows:

Payable in U.S. Dollars. Sales on credit terms for U.S. dollars are shown in total as loans, repayable in up to twenty years. The data exclude any initial down payments in dollars which have been specified in some sales agreements. The data include any private trade agreements financed under the Act. Some agreements have covered more than one year's program and these have been prorated. Any shortfalls or cancellations are reflected in the year the agreement was originally signed.

Payable in Foreign Currency. The portion of each agreement which is "planned for country use" is included in the country totals in the year the sales agreement was signed. A few agreements are more than a year's requirement. These have been prorated. Adjustments have been made for actual shortfall of deliveries from annual agreements. The various kinds of planned country use are shown separately — loans or grants for economic development, common defense grants, "Cooley Amendment" loans to private industry and "Other" grants (principally for maternal welfare and family planning). In some cases, countries have also received on a loan or grant basis foreign currency generated by a sales agreement between the United States and another foreign country. Such programs are shown on the line "Assistance From Other Country Agreements".

In addition, as parenthetical items, not added into country totals, the sales agreement values are show, including the portion of the sales proceeds planned for U.S. uses. As in the case of the dollar sales, initial downpayments are excluded.

TITLE II - DONATIONS

Emergency Relief and Economic Development. This part of Title II authorizes funds for the transfer of commodities held in stock by the Commodity Credit Corporation to help friendly foreign people to meet famine or other urgent or extraordinary relief requirements or to promote economic development. Transfers to the World Food Program are included in this part of the PL 480 figures. The data represent commodities authorized at CCC cost, plus ocean freight distributed by country.

Voluntary Relief Agencies. The data included under this part of Title II cover only the donations of commodities to voluntary relief agencies such as CARE, National Catholic Welfare Conference, Lutheran World Relief, etc., for distribution to needy people abroad. Barter transactions are not included. The figures represent authorizations for voluntary relief agency donations, valued at CCC cost. For years prior to Fiscal Year 1955, the data represent transfers authorized under Section 416 of the Agricultural Act of 1949 (Public Law 81-439). Ocean freight is not distributed by country but is included in the Non-Regional table.

EXPORT-IMPORT BANK LONG-TERM LOANS

These data were compiled from the reports of the Export-Import Bank. They represent authorizations for loans of five years or more maturity by the Export-Import Bank. They exclude credits of less than five years maturity, and those loans bought by private banks and other institutions. The data also exclude all export guarantees and insurance authorized by the Bank. Direct military loans by the Export-Import Bank are now shown as a separate entry under "Military Assistance".

Cancellations and terminations are deducted from loans authorized. Repayments have not been taken into account. The fiscal year data have been constructed so that if a loan made in one year is increased in a later year, the increase is included at the time it occured; but if the loan is decreased or cancelled in a later year, the loan has been decreased in the year originally authorized.

OTHER U. S. ECONOMIC PROGRAMS

In general, the programs included here predated the Mutual Security Program. The major programs included are "UNRRA", "Civilian Supplies (including Government and Relief in Occupied Areas)", "Surplus Property Credits", "Civilian Relief in Korea", "Greek-Turkish Aid", and "Philippines Rehabilitation". Currently, the principal programs in this category are capital subscriptions and contributions to international lending organizations (such as the Inter-American Development Bank and the International Development Association) and the Peace Corps. These are shown separately for the first time in this year's report.

Also included here are the loans authorized by the Inter-American Development Bank from the $525 million Social Progress Trust Fund which the Bank administers for the United States. The data also include minor amounts of technical assistance grants from the Trust Fund.

MILITARY

FOREIGN ASSISTANCE ACT MILITARY PROGRAM

The data represent primarily grants of military equipment, supplies and services purchased with appropriated funds. They also include the cost of repair and rehabilitation of excess stocks furnished without cost to the Military Assistance Program, and the cost of packing, crating, handling and transportation of equipment and supplies. The loan portion represents sales to recipient countries of military equipment and supplies initially credit-financed with MAP funds, including any credits sold to the Export-Import Bank with a Department of Defense guarantee. Data exclude direct cash sales of military equipment.

The annual data represent deliveries. The cumulative total represents the total amount programmed for each country for the period 1950-1968 and, therefore, the difference between the sum of the fiscal years and the cumulative total is the value of goods and services programmed but not yet delivered.

The line "From Excess Stocks" represents the acquisition value of equipment and supplies excess to the requirements of the U.S. Military departments granted to countries without charge to MAP-appropriated funds. These amounts are shown for information only, and are not included in the total. Negative amounts represent redistributions to other countries or areas.

The regional totals for military assistance chargeable to the FAA appropriation include all non-country programs which can be identified with a particular region, hence they may vary from regional totals currently used in Congressional presentations by the Department of Defense.

OTHER MILITARY ASSISTANCE

Included here are the military portion of "Greek-Turkish Aid", "China Naval Aid", "P.L. 454 Philippines Aid" and "Vessel Loans". Since the latter are essentially transfers on an indeterminate basis, generally requiring only the return of the vessel, if available, they are treated here as grants. For these "Vessel Loans", the data represent the estimated value of the vessels; the activation cost is included in MAP data.

Direct military loans by the Export-Import Bank are shown as a separate entry under "Military Assistance". The Export-Import Bank data exclude their purchased military credits guaranteed by the Department of Defense. Assistance under these credits is shown as part of the Foreign Assistance Act military credits.

NOTE: Details may not add to totals due to rounding.

TIME PERIODS

The commitment data for all economic and military programs are shown by U.S. fiscal years arranged in four broad groupings: Post-War Relief Period (1946-1948); Marshall Plan Period (1949-1952); Mutual Security Act Period (1953-1961); and Foreign Assistance Act Period (1962-1968). The Agency for International Development has been in existence only during the latter period.

REPAYMENTS AND INTEREST

The "Repayments and Interest" column shows the cumulative principal repaid and interest collected for the period 1946-1968 against loans made during that period. It excludes any repayments or interest collections against loans made prior to July 1, 1945. These data include repayments and interest collections in dollars and in foreign currencies; the latter are, of course, expressed in dollar equivalents.

For loans fully or largely repaid on which interest has been collected for a number of years, the total repayment and interest figure will frequently be in excess of the original loan.

*Less than $50,000.

† See General Notes for coverage and qualifications, particularly for A.I.D. and for military programs.

a/ Excludes $43 million in FY 1967 and $35 million in FY 1968 in reimbursements by the Department of Defense for grants to Vietnam.

b/ Annual data represent deliveries; total through 1968 is the cumulative program. The difference between the sum of the fiscal years and the cumulative total is the value of goods programmed but not yet delivered.

c/ Excludes $773 million in loans purchased by the Export-Import Bank and guaranteed by the Department of Defense: $237 million in FY 1966, $344 million in FY 1967, and $192 million in FY 1968.

*Less than $50,000.

† See the General Notes for coverage and qualifications, particularly for A.I.D. and for military programs.

a/ Countries have been classified "less developed" on the basis of the standard list of less developed countries used by the Development Assistance Committee of the OECD. See the General Notes for futher details.

b/ Excludes $43 million FY 1967 and $35 million in FY 1968 in reimbursements by the Department of Defense for grants to Vietnam.

c/ Annual data represent deliveries; total through 1968 is the cumulative program. The difference between the sum of the fiscal years and the cumulative total is the value of goods programmed but not yet delivered. d/ Excludes loans purchased by the Export-Import Bank and guaranteed by the Department of Defense.

e/ Includes cumulative Voluntary Relief Agency programs to British Oceania not shown separately, as follows, in millions of dollars: British Solomon Islands, $0.6; Fiji Islands, $0.1; and Tonga Islands, $0.7.

a/ Excludes $20.0 million loan in FY 1958 financed by Asian Economic Development Fund. This loan is included in NESA Regional data.

b/ Includes the utilization during FY 1946 of $29.2 million of lend-lease silver credits. During FY 1940-1946, a total of $160.7 million of such credits were extended to British India. After partition, Pakistan agreed to repay $38.0 million, but is not possible to distribute the FY 1946 portion between the two countries. Also includes Emergency Food Aid of $189.7 million in FY 1951; and Surplus Property Credits, $11.2 million.

c/ Included with Near East and South Asia Regional.

*Less than $50,000.

a/ These data are included in the totals for Non-Regional benefitting Less Developed Countries; this table provides detail for lines 1 and 20 on the table on page 129.

b/ Data exclude callable subscriptions. They also exclude capital subscriptions to the International Monetary Fund of $2,750 million in FY 1946; $1,375 million in FY 1959 and $258.8 million in FY 1965. Subscriptions to the IDB are in the Latin American Regional figures, on page 41.

c/ There is in addition a contingent liability of $5,715 million. The figure shown is a proration of the original capital subscription of $635 million; the balance is considered as support for the Developed Countries.

*Less than $50,000.

† See the General Notes for coverage and qualifications, particularly for A.I.D. and for military programs.

a/ See the General Notes for the basis of classifying countries "developed" or "less developed."

b/ Annual data represent deliveries; total through 1968 is the cumulative program. The difference between the sum of the fiscal years and the cumulative total is the value of goods programmed but not yet delivered.

c/ Excludes loans purchased by the Export-Import Bank and guaranteed by the Department of Defense.

a/ Represents Civilian Supplies, $2,205.7 million; Surplus Property Credits, $216.9 million; and UNRRA and Post-UNRRA, $5.7 million.
b/ On February 27, 1953, it was agreed that $1 billion of the grants of Civilian Supplies and of the FY 1949 Marshall Plan aid would be converted to a loan. This $1 billion loan has been distributed proportionately over the fiscal years 1946-1950 rather than being entered in FY 1953, and grants have been reduced accordingly.
c/ Annual data represent deliveries; total through 1968 is the cumulative program.

*Less than $50,000.

a/ Berlin received substantial assistance under a variety of programs--GARIOA, the Blockade and Stockpile Programs, and various counterpart and U.S.-owned foreign currency programs. These programs are not identified in this report as benefitting Berlin because of the "double-counting" problem. Total assistance to Berlin in the post-war period including all the various programs, was $1,094 million.

† See General Notes for coverage and qualifications, particularly for A.I.D. and for military programs.
a/ Excludes subscriptions to International Monetary Fund of $2,750 million in FY 1946; $1,375 million in FY 1959; and $258.8 million in FY 1955.
b/ Annual data represent deliveries; total through 1968 is the cumulative program.

ASSISTANCE FROM INTERNATIONAL ORGANIZATIONS

PREVIOUS PAGE BLANK

Assistance from Major International Organizations

GENERAL NOTES

The following tables show assistance given by major international organizations to all countries which have benefited from such assistance. The data represent assistance from all sources available to the various organizations, including contributions, subscriptions, bond issues, etc. The data do *NOT* represent the United States contributions *TO* these organizations; such contributions are included in the first portion of this report.

Data are all for United States fiscal years except for "UNDP-TA" and "Other UN" programs. These are calendar year figures, shown in the fiscal year in which the calendar year ends.

INTERNATIONAL BANK FOR RECONSTRUCTION AND DEVELOPMENT (IBRD)

Data cover loan authorizations of the IBRD made either to governments, government enterprises or to private firms with government guarantee. No adjustments are made for subsequent sales of loans. Cancellations are deducted from loans authorized in the year originally authorized.

INTERNATIONAL DEVELOPMENT ASSOCIATION (IDA)

Data cover value of agreements with governments for development credits. Cancellations are deducted from credits authorized in the year originally authorized.

INTERNATIONAL FINANCE CORPORATION (IFC)

Data cover the commitments made by the IFC to invest in private enterprises in the various countries. Cancellations are deducted from commitments in the year originally committed.

ASIAN DEVELOPMENT BANK (ADB)

Data cover loan authorizations of the recently organized ADB which made its first loan in 1968.

INTER-AMERICAN DEVELOPMENT BANK (IDB)

Data cover loan authorizations of the IDB made either to governments, government enterprises or to private firms from Ordinary Capital and from the Fund for Special Operations. Cancellations are deducted from authorizations in the year originally authorized. Data exclude The Social Progress Trust Fund.

UNITED NATIONS DEVELOPMENT PROGRAM

Data are shown in two parts—the Special Fund (UNDP-SF) and Technical Assistance (UNDP-TA). Each was previously a separate program—the Special Fund and the Expanded Program of Technical Assistance (EPTA), respectively. These were combined to form the United Nations Development Programme (UNDP). The Special Fund data cover allocations primarily for costs of pre-investment surveys.

OTHER UNITED NATIONS PROGRAMS

Data cover allocations for approved projects and for administrative and operational services financed from government contributions and other sources by the United Nations Children's Fund (UNICEF) for the last eight years. The data also include the Regular and other programs of technical assistance by UN specialized agencies (UNTA). Data for the specialized agencies for the last two years shown were not available.

EUROPEAN ECONOMIC COMMUNITY (EEC)

Data include grant aid obligated under the first and second European Development Funds and loans made by The European Investment Bank (EIB) for developing countries.
