

STATE INDUSTRIAL DESIGN & CONSULTATION COMPANY (SIDCCO)

I. STRATEGIC PARTNERS SOUGHT

SIDCCO is the leading engineering company in Iraq. It specializes in basic and detailed engineering and the commissioning of plants in a variety of sectors.

SIDCCO is interested in meeting with international firms with engineering, consulting, and project management expertise, in any of the following domains:

- Petrochemical Plants
- Refineries
- Chemical Plants
- Power plants
- Water Treatment
- Pipeline system infrastructures
- Large-scale complex construction projects (industrial construction)

SC would like to explore with these firms different types of strategic partnerships ranging from consultant/client to prime contractor/subcontractor relationships to the formation of joint-ventures to bid on, or execute large-scale projects.

The company is willing and open to discuss all forms of partnering arrangement with companies that have proven, reliable, cost-effective technologies and practices together with international experience and references.
