INTERPRETATION OF LANGUAGE REQUIREMENTS

The "LANGUAGE" columns for each line in the Staffing Pattern provides for two sets of four digit codes headed RQMT #1 and RQMT #2. The first three digits of the codes indicate the language requirement for the position. The fourth digit of the codes indicates the required level of proficiency in the language required for the position. To the right of each one of the four digit codes is a one digit code headed "P" that indicates the language speaking proficiency of the person currently occupying the position. In most cases a position will show the appropriate codes for only one language. Refer to the tables below for interpretation of the language codes and speaking proficiency codes. For further information regarding language and proficiency codes, see A.I.D. SKILLS INVENTORY CODE BOOK, Attachment to M.O. 414.7, dated June 1965.
