### Background

District 12 is one of the recently established districts in Kabul City; Ahmadsha Baba mina is a planned residential and commercial area where more than 13000 households and commercial markets are planned, as this area is a planned area therefore all required facilities are considered in the planning process, parks are a part of these facilities, Ahmadsha Baba mina is a huge residential area where spaces for many parks are allocated. The park in Block 5 is located in the central part of the block where most of the citizens can easily access it therefore KM decided to concenter this park in the high priority list. This is funded by the Embassy of the United States.

### Project Objective

Clean environment and safe place for the citizens to entertain is one of biggest needs of the citizens, therefore Kabul Municipality is planning to offer the citizens with such facilities. Implementation of this park project will reach the municipality to its objective mentioned above.

### Current Condition

There was a free land available for park construction the infrastructure is in a poor condition.

**Project Justifications**

Parks are one of the most important facilities which contribute to the safe and clean environment and provide the citizens with a safe place for entertainment. Land Mafia in Kabul city is very powerful, they look for the unused land to use it for their commercial and residential building purposes, however most of the parks which are not constructed are under a huge threat of land mafia to be misused by them for other purposes rather than use if for construction of a park, Kabul Municipality consider this issue of the highest priority that those lands should be used for Park construction. Due to budget constraints KM is not able to construct and rehabilitate all those park therefore all interested parties and donors are welcomed to participate is this very important process.

**Comments:**

This park project is underway the funder of this park is the US Embassy in Afghanistan.
