Type of Health Facility: PHC/HP/SHP: _____	
Visited by:	
(a) Name _____	
Designation _____	Institution: _____
(b) Name _____ Designation _____ Institution: _____	
(c) Name _____ Designation _____ Institution: _____	

200. Maternal Health Services:

S.No.	Service Type	Y	N
201	Were you able to observe antenatal services provided?	1	0
202	<i>If yes, were the following services provided correctly?</i>		
	1. BP examination?	1	0
	2. Urine testing for protein using dipstick?	1	0
	3. Abdominal Examination?	1	0
	4. Observation of swelling/odema?	1	0
	5. Iron tablets distributed?	1	0
	6. Calcium tablets distributed?	1	0
	7. Counseling on dangers signs of pregnancy, delivery and post		
	8. Advised for assistance of skilled birth attendant /HF for delivery?	1	0
203	Are delivery services available in this HF?	1	0
204	Are postpartum services available in this HF?	1	0

S.No.	Data Review	Y	N
205	Have there been any cases of PE/E diagnosed in the past month?	1	0
	If yes, how many (Specify)		

Approved: August 16, 2012 IRB No.: 4332

<i>If yes, discuss the last 2 cases:</i>			
<i>CASE 1</i>			
206	Was the pregnant woman diagnosed through routine screening (BP, dipstick) at this health facility?	1	0
207	Were they given MgSO4 according to protocol at this health facility?	1	0
208	Were they referred to another health facility?	1	0
	If yes, where (Specify)		
209	What is the outcome of the mother?		
	Healthy	1	0
	Suffered some morbidity	1	0
	Did not survive (died)	1	0
210	What is the outcome of the fetus?		
	Healthy	1	0
	Suffered some morbidity	1	0
	Did not survive (died)	1	0
<i>CASE 2</i>			
206	Was the pregnant woman diagnosed through routine screening (BP, dipstick) at this health facility?	1	0
207	Were they given MgSO4 according to protocol at this health facility?	1	0
208	Were they referred to another health facility?	1	0
	If yes, where (Specify)		
209	What is the outcome of the mother?		
	Healthy	1	0
	Suffered some morbidity	1	0
	Did not survive (died)	1	0
210	What is the outcome of the fetus?		
	Healthy	1	0
	Suffered some morbidity	1	0
	Did not survive (died)	1	0

300. Logistics

301. Is storeroom managed according to FEFO system? (Record observation)

Y/N ____

302. Stock balance of essential commodities in the storeroom on the day of visit:
(Record observation)

	Iron	Calcium	MgSO ₄
Quantity			
EoP			
Month of Stock on Hand ¹			

400. Availability of BCC Materials and Other Supplies/Equipment

401. Do you have following supplies, equipment and materials available in this health facility?

Description	Y	N
In waiting room/area:		
● Pregnancy, delivery and post-natal related poster	1	0
● Calcium flex poster		
In checking room:		
● Calcium flyer	1	0
● Magnesium sulfate for severe PE/E management flex/poster	1	0
● BP set	1	0
● Urine sample bottles	1	0
● Dipstick tests for proteinuria	1	0

500. Knowledge on Calcium Counseling

Questions		
501. Why should pregnant women take calcium?		
Prevent complications (pre-eclampsia/eclampsia)	1	0
Improve her health	1	0
Improve her baby's health	1	0
