Institution: Farm Concern International and USAID/COMPETE  
Project: Commercial Village Stores Establishment  
Reporting period: Quarter 7 progress updates (April to June 2011)  
Project period: Pilot phase; 2009 - 2011  
Region: Jinja (Uganda) and Meru (Kenya)

Overview

Commercial Village Stores (CVS) project being implemented in Meru region, Eastern Kenya and Jinja-Eastern Uganda (Jinja) has continued to enhance the target communities on post harvest solutions at the village level. Quarter 7 activities were mainly geared towards strengthening the Meru and Jinja sites target farmers post harvest handling, storage, and marketing at the village level with an outreach to more than 10,000 farmers in Igoji, Tigania East, Tigania West, Tharaka Districts and Jinja district in Uganda.

Various Commercial Producer Groups / Commercial Villages bulked their produce and were able to sell collectively to pre-identified buyers. Collective action and storage enabled the farmers to sell their grain at an average of 20% higher farm gate prices. Dissemination of improved household storage technologies was enhanced with demonstrations and set-up of model metal silos for improved and efficient storage for farmers to reduce post harvest losses.

During this last quarter of the project phase, sustainability mechanisms have been enhanced to ensure that the farmers are able to seamlessly progress with activities. Strengthening of the commercial producer groups and commercial villages’ leadership is enabling the communities to conduct group activities with minimal intervention. Buyer-seller forums have been intensified to strengthen farmers negotiating skills and ability to source markets for their produce. Field days were also held to enable farmers interact with the various stake holders and understand the latest trends in the cereal marketing. Training of group leaders on record keeping, stock taking, maintenance of inventories and group management has equipped leaders with skills of managing the farmer groups. Recruitment and training of new COTEFs and refresher on the older ones has enhanced dissemination of information on post harvest
management and marketing of grains. This will ensure that farmers are supported technically at the community level.

Although there has been marked enhancement of the grains sector in the project sites, various challenges have been encountered especially in regard to erratic weather patterns which have limited the farmers’ capacity to benefit fully from the CVS interventions. A reduced yield due to poor rainfall has limited the amount of grains bulked and sold by farmers in the region. The situation was worse in Jinja where farmers are under relief support due to crop failure, Eastern Kenya has also experienced poor rainfall over the current season under review.
## Progress Table

<table>
<thead>
<tr>
<th>Activity</th>
<th>Deliverables</th>
<th>Achievements</th>
<th>Remarks</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Selection of commercial village stores</td>
<td>Stores established</td>
<td>Jinja 3 collective stores have been selected for collective bulking.</td>
<td>♦ Store branding and identification is going on and the strategy being used is the adoption of transitional stores which are helping farmers reduce costs.</td>
</tr>
<tr>
<td>♦ Stores identification and negotiation</td>
<td></td>
<td>♦ Buyengo; Nakagyo Balibona Society store</td>
<td></td>
</tr>
<tr>

<td></td>
</tr>
</tbody>
</table>
Nabukosi Commercial Village was formed
i. Training of farmers on saving and Credit scheme
ii. 7 COTEFs are providing support to the CV

iii. Busede;
   - 664 Farmers (349 Female, 315 Male), were recruited, registered and exposed to training
   - Walumbugu Commercial Village formed
   - 2 COTEFs and 1 TOT are offering technical support to the Commercial Village

• 15 COTEFs have been engaged and are offering technical support to the CVs
• Over 200 Pass books for savings recording have been distributed to farmers
• Over 500 farmers from various CPGs have been trained on storage and quality control.

Tigania West
• 37 Commercial Producer Groups have been trained on store management, record keeping, collective marketing skills, record keeping and documentation.

Imenti South
• Trained 86 (56 women & 30 men) farmers from Nkachie CV on quality management and Collective Marketing.
• A total of 52 farmers from Mwegeki CV were trained on Quality management
• Trained 62 farmers from Mworoga & Mujuuju commercial producer groups on quality management, Post harvest Management and Collective Marketing.

Tigania East
A total of 16 trainings were carried in the following Commercial Villages and CPGs
i. Marega Commercial Village
### Community technical farmers (COTEFs) capacity building

#### iv. Conduct training workshops

- Mutwiri farmers group with 35 farmers
- Bwana & Kathiri farmers group with 21 farmers

#### ii. Kaguata Commercial Village
- Makena Mwanika group with 40 farmers
- Riiru women group with 60 farmers
- 29 commercial group leaders were trained

#### iii. Mlango Commercial Village
- Community field day was held attended by 200 farmers.

#### iv. Amatu CV
- 2 TOTs trainings were conducted.
- 10 TOTs have been developed representing 5 CPGs
- CPG training were carried out in Ruuju Ntetheria Mwari na Kithomo with 63 farmers.

#### COTEFs attendance

- 120 COTEFs were capacity built in Meru site.

### 8. Grain traders workshops on grain standards, specification and handling

#### v. Organize and conduct workshops

- Several buyer - seller forums have been organized with farmers and traders in the commercial villages, this has enabled farmers and the traders to discuss various issues regarding the marketing of grain.

- At least 10 grain traders have been introduced to CVS commercial villages. They agreed to form a trader’s association to enhance structuring of grade trading and source their products from commercial village farmers groups collectively. The traders have further agreed to attend to buyer-seller forums as needed.

- More traders’ workshops are earmarked for the following quarter just before harvest to ensure linkages are established and strengthened.

- The COTEFs have been instrumental in carrying out community mobilization and awareness and also offering technical support to CV farmers in the project sites.
9. Linking producers with buyers;  
Buyer seller forums  
vi. Organize and hold buyer seller business forums to  
vii. Negotiation on trade parameters between commercial village farmers and key identified buyers

<table>

</tbody>
</table>

- The traders are in contact with the farmers and there is continued communication on purchase of grains, although the current crop failure has greatly affected the anticipated sales by farmers and traders.

- Farmers are working closely with the input suppliers to acquire farm inputs in bulk and cost.
**Inputs**

- Osho Chemicals.
- Mburugu Farmers Centre
- Meru farmers centre.
- National Cereals and Produce Board
- Farmchem Company has held demonstrations organized by FCI for farmers.
- Sygenta
- Bayer chemicals
- Organic Afric

Farmers from two Commercial Villages (Maraa & Mitunguu) were organized to buy subsidised fertilizer from the government stores. Collective action has enabled commercial villages farmers get quantity discount upto 20% on purchase of post harvest chemicals

**Jinja**

- Input suppliers have been linked to commercial village farmers including Modern farmers agro-dealer with farmers buying collectively at discounted prices

<table>

</tr>
<tr>
<td>Transactional documents (invoices, receipts, delivery notes)</td>
</tr>
</tbody>
</table>

- Farmer group leaders have been trained on record keeping i.e. use of passbooks, keeping ledger books, Stock cards issued to farmers. Use of transactional documents has been demonstrated to farmers in the CVs which in preparation for bulking.

Tigania West
- 37.8 MT of maize were stored in a transitional store
- 45COTEFs have been trained on storage and quality control
- Demonstrations on using sampling spear, weighing machine scales, chemical application and moisture meter have been done to these farmers.
- Approximately 39MT of maize were sold collectively accruing revenues of Kshs 243,000 to the CV farmers.
- The current harvest season is underway and 20 bags of assorted Cereals (beans, green grams & cow peas) has been delivered into the transitional store with Baulking is still ongoing.

Imenti South
- Collection and bulking of 3,240Kgs of Maize from Kithunguri & Muguru CPG Farmers.
- Sorting of grain was conducted and the moisture content taken before storage was done.
- 23 farmer groups from 4 CVs have been trained on record keeping i.e. use of Savings and Credits passbooks & Grain Saving passbooks.
- Trained 86 farmers from Nkachie CV on village stores management and improvement on house hold storage.
- Trained 52 farmers from Mwegeki CV on record keeping.
- Stock cards have been issued to farmers in 3 commercial villages.
- Linked Muguru and Kithunguri farmer groups to a wholesalers trader where they closed the deal on sale of the 3,240 Kgs of Maize they had bulked.

- Communities are adopting the household storage and the transitional stores strategy.
- Mworoga & Mujuuju CPGs in Mwegeki CV have started bulking

**Tigania East**
- Trainings on bulking and collective marketing as done.
- In Marega CV, 421 bags of maize ware bulked and sold
- Farmers’ capacity building on quality maintenance, use of dusting chemicals & Aflatoxin control was done in 5 commercial villages.
  - Kaguata commercial village
  - Marega commercial village
  - Kiriene commercial village
  - Amatu commercial village
  - Mlango commercial village
- Farmers’ capacity building on supply management.
- House hold storage was enhanced in the following areas
  - Igarii commercial village
  - Kaguata commercial village
  - Mlango commercial village
- Capacity building on marketing subcommittee on negotiation skills in Marega commercial village was conducted.
- Collectively bulked maize was sold @ ksh 3000/90 kg bag while the farm gate price was at ksh 2700/bag.
- All CVs have been capacity built on savings and internal credit schemes.

| 12. Build M&E capacity xvii. Training on M&E | M&E Tools List of attendants | All CVS project staff have been trained on the M&E tools and are using them to capture various data from the project intervention. | This has made data collection and compilation better and improved data quality. |
