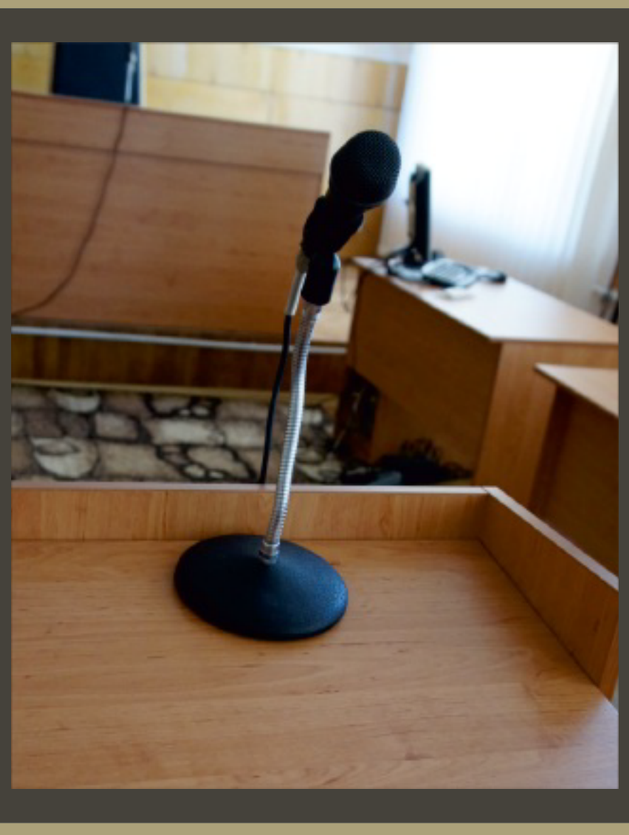
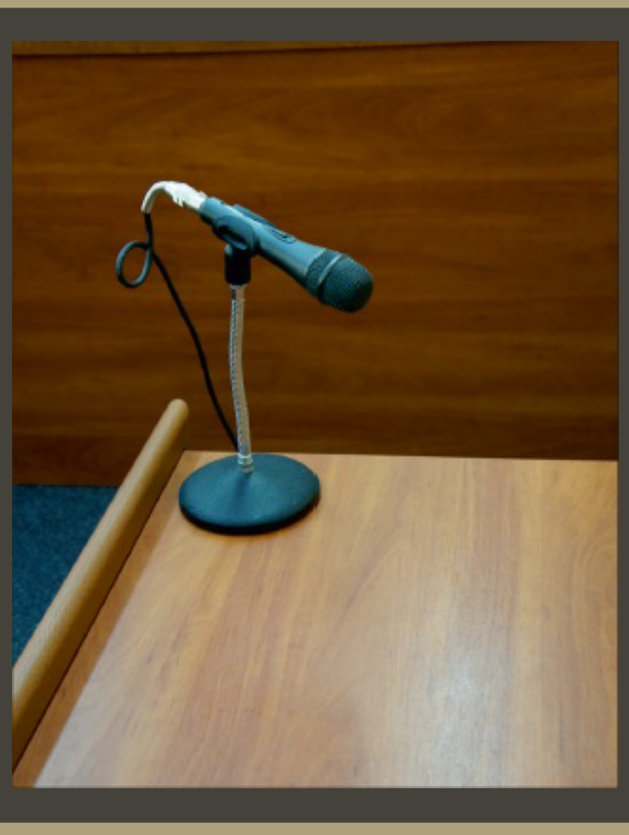
According to the legislation of the Republic of Moldova all case hearings are recorded in audio format.

All courtrooms are fitted out with audio recording systems Femida and voice recorders.





The parties involved in a case examination may request a copy of the audio recording of all case hearings. The copy of the audio recording is issued on written request for a fee of 20 leis.

In case of secret case hearings, the court does not issue copies of audio recordings. The parties may, however, listen to the playback in the court premises.
