

SUAAHARA | MATERNAL, INFANT AND YOUNG CHILD NUTRITION (MIYCN)

Suaahara is a USAID-funded five year (2011-2016) program that addresses the causes of undernutrition in 41 districts of Nepal by uniquely integrating nutrition with agriculture, water, sanitation and hygiene (WASH), and health care interventions.

Improving trends in key MIYCN outcomes that contributes to reductions in stunting

MATERNAL NUTRITION

BREASTFEEDING PRACTICES

COMPLEMENTARY FEEDING

What did we Do?

* The period from the conception (or start of pregnancy) to 2 years after birth.
