

## **Management Sciences for Health LMG Ethiopia; Trip Report – Anupa Deshpande (June 9-13, 2014)**

---

Anupa Deshpande, M&E Advisor

June 9-13, 2014

The Leadership, Management and Governance Project (LMG) is a United States Agency for International Development (USAID) five-year Cooperative Agreement, designed to strengthen and expand the people-centered capacity building strategy pioneered under the Leadership, Management and Sustainability (LMS) Project, LMG's successor project. The LMG Project's objective is to support health systems strengthening by addressing the gap in leadership, management and governance capacity of policy makers, health care providers and program managers to implement quality health services at all levels of the health system. Governance functions – distinct from leadership and management functions – are an important focus of LMG because they provide the ultimate commitment to improving service delivery, and foster sustainability through accountability, engagement, transparency and stewardship.

Leadership, Management, Governance, Health Systems Strengthening, Ethiopia, Africa

This report was made possible through support provided by the US Agency for International Development and Management Sciences for Health under the terms of AID-OAA-11-00015 and Petros Faltamo . The opinions expressed herein are those of the author(s) and do not necessarily reflect the views of the US Agency for International Development.
