

EC-LEDS Supports the Low-Carbon Transition

EC-LEDS

ENHANCING CAPACITY FOR LOW EMISSION DEVELOPMENT STRATEGIES

MISSION

EC-LEDS is a flagship U.S. government-led effort that helps countries create and implement low emission development strategies, or LEDS—development frameworks that promote sustainable social and economic development while reducing greenhouse gas emissions over the medium to long term.

RESULTS (2010-2015)

Empowering Stakeholders

227,000
Men and women trained

4,217
Institutions with strengthened capacity

1,527
Laws or policies

83
Mitigation tools in use

Spurring National Action

2.7 BILLION
USD Invested to mobilize LEDS action

2 MILLION
Hectares under sustainable management

1.8 MILLION
Megawatt-hours of energy saved

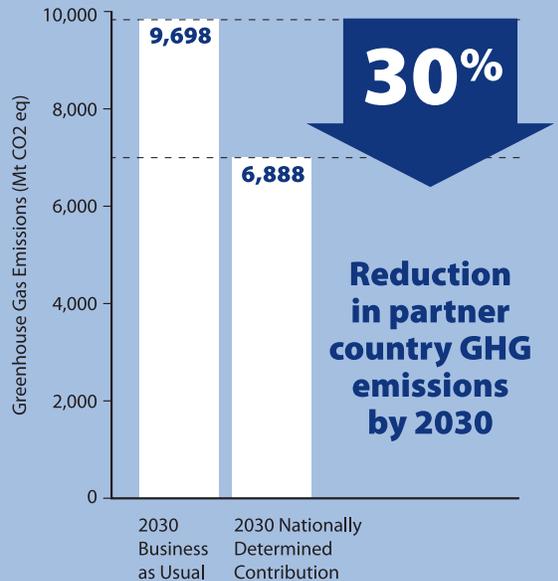

1,520
Megawatts of renewable energy installed

12
Partner countries assisted in developing INDCs

Realizing Global Impact

HIGHLIGHTS

MACEDONIA

>5,000

Number of public buildings contributing to national energy efficiency goals.

COLOMBIA

20%-30%

NDC 2030 greenhouse gas emissions reduction commitment supported by agriculture, transport, and housing sector mitigation action plans.

EC-LEDS PARTNER COUNTRIES

MALAWI

455,000

Hectares of forest protected from deforestation and degradation.

PHILIPPINES

>76 GW

Wind generation potential identified using geospatial resource assessment tools.
