SANTIAGO SUBJECT - Training for Development Project - PROP Review

10

REFERENCE - 513-11-690-172

1. AID/W Evaluation Panel reviewed this PROP on July 17, 1970. As it is presently worded, it was not approved.
2. The PROP contains no reference to the recently signed Human Resources Loan which now will finance the bulk of all long-term university training. The PROP should be substantially revised to explain clearly the objectives to be served by a separate grant project and what type of participant would be funded under the grant project as opposed to the loan program.
3. The USAID may wish to discuss these issues in the forthcoming country review in which case the redrafting of the PROP could be postponed until after the review is completed.
4. If the project is continued, a PAR evaluating the usefulness of the training received during the last five years would be a useful supplement.
