		3. Project/Activity Title Mobile Development Unit	

I. Project Description and Explanation

This project agreement provides dollar and baht funding for the Mobile Development Unit (MDU) project. The major purpose of the MDU project is to win and/or hold the loyalty of villagers in remote, disaffected areas by bringing responsive government to the people. To contribute to this objective the Thai government (RTG) deploys MDUs - developmental task forces of RTG agencies structured around a National Security Command (NSC) military nucleus - to carry out construction activities, conduct programs in areas such as agriculture and health, and carry out other essential government services.

There are currently 23 MDUs in operation in twenty one border changwats plus Sakol Nakhon and Kalasin. USOM assistance, which commenced in FY 1964, consists primarily of providing a small village project spread to new units; the Thai government picks up other costs associated with Mobile Development Units.

The National Security Command plans to establish a total of 29 MDUs; USOM support to this activity will terminate in FY 1971 with the funding of unit 29.

II. Specific Actions and Responsibilities

A. RTG (Foyal Thai Government)

1. Establishment of New MDU's - In FY 1970, the National Security Command will establish three new MDU's (units 26, 27 and 28) to be located in three of the following changwats: Chiang Mai, Tak, Mae Hong Son, Petchburi, Prachub Khirikhan, Trang, Chanthaburi, and Songkhla.

2. The NSC will continue youth projects at MDUs in Satul, Kalasin, Udorn, Nakhon Phanom, Uttaradit, Narathiwat, Loei, Pattani, Surin, Si Sa Ket, Ratburi, and Kanchanaburi.

B. USOM (United States Operations Missior)

1. Advisory assistance - USOM will provide one technician to serve as Project Liaison Officer and a five-man engineering advisory unit, funds for which were obligated in the original of this project agreement.

 Original or Revision No. 2

A. As used herein, the term "AID" refers to the Agency for International Development, any component agency, or any successor agency. References to "this Project Agreement" shall mean the original Project Agreement as modified by any revisions which have entered into effect.

B. (1) AID will make available the amounts specified in Block 8 of this Project Agreement, as necessary for the project, for use for the designated purposes and as may be further described in Annex A, as required by Block 5 hereof. In addition, as may be further specified in Annex A, AID will, subject to the availability of funds and (where required by AID procedures) as provided for in Project Implementation Orders (PIOs) issued by AID in accordance with its procedures, make available funds (a) to pay costs of furnishing technical services to be performed by United States Government employees in connection with the project, (b) to pay a share of the costs of providing training outside the cooperating country in connection with the project for qualified persons from the cooperating country, and (c) to pay such additional costs as may be specified.

(2) The Cooperating Government Agency will make available the amounts specified in Block 9 of this Project Agreement, as necessary for the project, for use for the designated purposes and as may further be described in Annex A. The Cooperating Government Agency will also make, or arrange to have made, additional contributions of property, services, facilities and funds required for carrying out the project as may be specified in Annex A, or as may subsequently be agreed upon by the two parties.

C. AID and the Cooperating Agency may obtain the assistance of other public and private agencies in carrying out their respective obligations under this Project Agreement. The two parties may agree to accept contributions of property, services, facilities and funds for purposes of this Project Agreement from other public and private agencies, and may agree upon the participation of any such third party in carrying out activities under this Project Agreement.

D. AID shall not be required to make any contribution after the expiration of six months following the estimated final contribution date (Block 13 of the Project Agreement form AID 1330-1) or any amended final contribution date specified herein. Except as otherwise specified herein or subsequently agreed

by the parties, all contributions of the Cooperating Agency pursuant to this Project Agreement shall be made on or before said estimated termination date, or amended date. A contribution of goods or services shall be considered to have been made when the goods or services, provided or financed by the contributing party, are delivered in accordance with commercial practice.

E. The procurement of commodities and contract services to be financed in whole or in part by AID may (where so required by AID procedures) be undertaken only pursuant to PIOs issued by AID in accordance with its procedures.

F. Unless otherwise specified in the applicable PIO, the procurement of commodities financed with the AID contribution referred to in Block 8 of this Project Agreement shall be subject to the provisions of AID Regulation 1.

G. Unless otherwise specified in the applicable PIO, title to all property procured through financing by AID pursuant to Block 8(c) of this Project Agreement shall be in the Cooperating Agency, or such public or private agency as it may authorize. This provision is inapplicable to any property which may be used in connection with the project but is not financed pursuant to said Block 8(c).

H. Any property furnished to either party through financing by the other party pursuant to this Project Agreement shall, unless otherwise agreed by the party which financed the procurement, be devoted to the project until completion of the project, and thereafter shall be used so as to further the objectives sought in carrying out the project. Either party shall offer to return to the other, or to reimburse the other for, any property which it obtains through financing by the other party pursuant to this Project Agreement which is not used in accordance with the preceding sentence.

I. (1) If AID and any public or private organization furnishing commodities through AID financing for operations hereunder in the cooperating country, is, under the laws, regulations or administrative procedures of the cooperating country, liable for customs duties and import taxes on commodities imported into the cooperating country for purposes of carrying out this Project Agreement, the Cooperating Agency will pay such duties and taxes unless exemption is otherwise provided by any applicable international agreement.

(2) If any personnel (other than citizens and residents of the cooperating country), whether United

States Government employees, or employees of public or private organizations under contract with, or individuals under contract with, AID, the Cooperating Agency or any agency authorized by the Cooperating Agency, who are present in the cooperating country to provide services which AID has agreed to furnish or finance under this Project Agreement, are, under the laws, regulations or administrative procedures of the cooperating country, liable for income and social security taxes with respect to income upon which they are obligated to pay income or social security taxes to the Government of the United States of America, for property taxes on personal property intended for their own use, or for the payment of any tariff or duty upon personal or household goods brought into the cooperating country for the personal use of themselves and members of their families (not including such personal or household goods as may be sold by any such personnel in the cooperating country), the Cooperating Agency will pay such taxes, tariff, or duty unless exemption is otherwise provided by any applicable international agreement.

J. Any personnel (other than citizens and residents of the cooperating country), whether United States Government employees, or employees of public or private organizations under contract with, or individuals under contract with, AID, the Cooperating Agency or any agency authorized by the Cooperating Agency, who are present in the cooperating country to provide services which AID has agreed to furnish or finance under this Project Agreement shall be subject to the approval of the Cooperating Agency and AID, and shall be under the general direction of the Director of the Mission to the cooperating country.

K. If any commodity is furnished to the Cooperating Agency, or any public or private agency authorized by the Cooperating Agency, on a grant basis through financing by AID pursuant to this Project Agreement under arrangements which will result in the accrual of proceeds to the Cooperating Agency or any authorized agency and if the applicable agreement between the two governments referred to on the first page of this Project Agreement does not provide for the establishment of a Special Account and the deposit therein of currency of the cooperating country, the Cooperating Agency will make such arrangements as may be necessary to establish a Special Account and to deposit therein currency of the cooperating country in amounts equal to such proceeds, in accordance with such terms and conditions as may be agreed upon. Funds in the Special Account may be used only as agreed upon by AID and the Cooperating Agency; provided, that such portion of the funds in the Special Account as may be designated by AID shall be made available to AID to meet the requirements of the United States.

L. The Cooperating Agency will make such arrangements as may be necessary so that funds intro-

duced into the cooperating country by AID or any public or private agency for purposes of carrying out obligations of AID hereunder shall be convertible into currency of the cooperating country at the highest rate which, at the time the conversion is made, is not unlawful in the cooperating country.

M. AID shall expend funds and carry on operations pursuant to this Project Agreement only in accordance with the applicable laws and regulations of the United States Government.

N. The two parties shall have the right at any time to observe operations carried out under this Project Agreement. Either party during the term of the Project and three years after the completion of the project, shall further have the right (1) to examine any property procured through financing by that party under this Project Agreement, wherever such property is located, and (2) to inspect and audit any records and accounts with respect to funds provided by, or any properties and contract services procured through financing by, that party under this Project Agreement, wherever such records may be located and maintained. Each party, in arranging for any disposition of any property procured through financing by the other party under this Project Agreement, shall assure that the rights of examination, inspection and audit described in the preceding sentence are reserved to the party which did the financing.

O. Upon completion of the project, a Completion Report shall be drawn up, signed by appropriate representatives of AID and the Cooperating Agency, and submitted to AID and the Cooperating Agency. The Completion Report shall include a summary of the actual contributions by both AID and the Cooperating Agency to the project, and shall provide a record of the activities carried out, the objectives achieved, and related basic data. AID and the Cooperating Agency shall each furnish the other with such information as may be needed to determine the nature and scope of operations under this Agreement and to evaluate the effectiveness of such operations.

P. The present Agreement shall enter into force when signed. Either party may terminate this Project Agreement by giving the other party 30 days written notice of intention to terminate it. Termination of this Project Agreement shall terminate any obligations of the two parties to make contributions pursuant to Blocks 8 and 9 of this Project Agreement, except for payments which they are committed to make pursuant to non-cancellable commitments entered into with third parties prior to the termination of the Project Agreement. It is expressly understood that the obligations under paragraph H relating to the use of property shall remain in force after such termination.

I. PROJECT DESCRIPTION AND EXPLANATION

A. Background

The purpose of the National Security Command's (NSC) MDU program is to provide a government presence in remote rural areas and to conduct and coordinate high impact activities in the fields of construction, health, and agriculture to improve the local standard of living. MDU's also conduct activities in education, youth affairs, vocational training, and information programs. All these activities are channelled through the MDU which is essentially a task force of regular line Ministries' technicians structured around a nucleus of NSC military personnel.

The Royal Thai Government (RTG) considers the MDU program to be an integral part of its overall counterinsurgency rural development effort; supporting MDU with large amounts of money and some of its most qualified people. NSC has expanded MDU activities in recent years to meet the needs of villagers in remote areas. Two such activities have developed because the regular Ministries were unable to support MDUs to the extent required. These two activities are the water resources development project (well-drilling) and the Protein Expansion Project (PEP).

Protein Expansion Project (PEP) Activity

In 1967, the NSC began the PEP activity through the MDUs, to improve livestock quality and quantity by artificial insemination and to increase the technical capability of RTG personnel and villagers in management and production of livestock. USOM has provided excess property to this activity since that time. While the total review process has not been completed, a U.S. participant training element can be funded at this time. Additional support by the USG may follow the review process and joint RTG-USOM approval of the project proposal by NSC.

The Protein Expansion Project, part of the MDU Program can improve economic conditions of Thai villagers, provide knowledge through research, training, and operating experience on improved systems of livestock production, and assist in establishing a livestock industry in Thailand.

The purposes will be accomplished through development of a technologically advanced and integrated system of crossbred cattle production, feeding and marketing.

National Level Significance

- A demonstrated increase of 75% in average calf crop over the national average.
- Increasing acceptance of the concept of using frozen semen as a more rapid and less expensive means of upgrading livestock.
- Development of an institutional facility that can have national and regional significance for livestock research, training, and increased production.

B. The purpose of this agreement is to further the objectives of the project by increasing the technical expertise of selected PEP personnel through training in the United States, as follows:

1. Observation training: Five PEP unit managers will be provided training which is designed to yield a working knowledge and understanding of the fundamentals of the livestock industry. They will travel to ranches, feedlots, and marketing and slaughter facilities to observe operations in breeding, feeding, pasture development, farm machinery utilization, grain storage and handling, marketing, slaughtering, research at experimental stations, and artificial insemination.
2. On-The-Job Training: Six foremen instructors from operational sections will engage in one of following operations -- artificial insemination, performance testing and records systems, feedlot (dry) and hog production, pasture production and management, and commercial cow/calf production. This training is designed to provide each participant with actual experience with a successful U.S. commercial operation, prior to the time he assumes his full project duties in Thailand.

II. UNITED STATES GOVERNMENT CONTRIBUTIONS

USOM will provide \$35,500 to fund the cost of the training.

(1) If AID and any public or private organization furnishing commodities through AID financing for operations hereunder in the cooperating country, is, under the laws, regulations or administrative procedures of the cooperating country, liable for customs duties and import taxes on commodities imported into the cooperating country for purposes of carrying out this Project Agreement, the Cooperating Agency will pay such duties and taxes unless exemption is otherwise provided by any applicable international agreement.

(2) If any personnel (other than citizens and residents of the cooperating country), whether United

States Government employees, or employees of public or private organizations under contract with, or individuals under contract with, AID, the Cooperating Agency or any agency authorized by the Cooperating Agency, who are present in the cooperating country to provide services which AID has agreed to furnish or finance under this Project Agreement, are, under the laws, regulations or administrative procedures of the cooperating country, liable for income and social security taxes with respect to income upon which they are obligated to pay income or social security taxes to the Government of the United States of America, for property taxes on personal property intended for their own use, or for the payment of any tariff or duty upon personal or household goods brought into the cooperating country for the personal use of themselves and members of their families (not including such personal or household goods as may be sold by any such personnel in the cooperating country), the Cooperating Agency will pay such taxes, tariff, or duty unless exemption is otherwise provided by any applicable international agreement.

J. Any personnel (other than citizens and residents of the cooperating country), whether United States Government employees, or employees of public or private organizations under contract with, or individuals under contract with, AID, the Cooperating Agency or any agency authorized by the Cooperating Agency, who are present in the cooperating country to provide services which AID has agreed to furnish or finance under this Project Agreement shall be subject to the approval of the Cooperating Agency and AID, and shall be under the general direction of the Director of the Mission to the cooperating country.

K. If any commodity is furnished to the Cooperating Agency, or any public or private agency authorized by the Cooperating Agency, on a grant basis through financing by AID pursuant to this Project Agreement under arrangements which will result in the accrual of proceeds to the Cooperating Agency or any authorized agency and if the applicable agreement between the two governments referred to on the first page of this Project Agreement does not provide for the establishment of a Special Account and the deposit therein of currency of the cooperating country, the Cooperating Agency will make such arrangements as may be necessary to establish a Special Account and to deposit therein currency of the cooperating country in amounts equal to such proceeds, in accordance with such terms and conditions as may be agreed upon. Funds in the Special Account may be used only as agreed upon by AID and the Cooperating Agency; provided, that such portion of the funds in the Special Account as may be designated by AID shall be made available to AID to meet the requirements of the United States.

L. The Cooperating Agency will make such arrangements as may be necessary so that funds intro-

duced into the cooperating country by AID or any public or private agency for purposes of carrying out obligations of AID hereunder shall be convertible into currency of the cooperating country at the highest rate which, at the time the conversion is made, is not unlawful in the cooperating country.

M. AID shall expend funds and carry on operations pursuant to this Project Agreement only in accordance with the applicable laws and regulations of the United States Government.

N. The two parties shall have the right at any time to observe operations carried out under this Project Agreement. Either party during the term of the Project and three years after the completion of the project, shall further have the right (1) to examine any property procured through financing by that party under this Project Agreement, wherever such property is located, and (2) to inspect and audit any records and accounts with respect to funds provided by, or any properties and contract services procured through financing by, that party under this Project Agreement, wherever such records may be located and maintained. Each party, in arranging for any disposition of any property procured through financing by the other party under this Project Agreement, shall assure that the rights of examination, inspection and audit described in the preceding sentence are reserved to the party which did the financing.

O. Upon completion of the project, a Completion Report shall be drawn up, signed by appropriate representatives of AID and the Cooperating Agency, and submitted to AID and the Cooperating Agency. The Completion Report shall include a summary of the actual contributions by both AID and the Cooperating Agency to the project, and shall provide a record of the activities carried out, the objectives achieved, and related basic data. AID and the Cooperating Agency shall each furnish the other with such information as may be needed to determine the nature and scope of operations under this Agreement and to evaluate the effectiveness of such operations.

P. The present Agreement shall enter into force when signed. Either party may terminate this Project Agreement by giving the other party 30 days written notice of intention to terminate it. Termination of this Project Agreement shall terminate any obligations of the two parties to make contributions pursuant to Blocks 8 and 9 of this Project Agreement, except for payments which they are committed to make pursuant to non-cancellable commitments entered into with third parties prior to the termination of the Project Agreement. It is expressly understood that the obligations under paragraph H relating to the use of property shall remain in force after such termination.

I. Project Description and Explanation

A. Background

The Royal Thai Government (RTG) developed the Mobile Development Unit (MDU) program in 1962 in response to the mounting insurgency in the Kingdom. The goal of the MDU program is to counter the insurgent threat, especially along the borders. MDUs are deployed into target areas to establish a face-to-face relationship with the people, to promote an improved image of and support for the RTG and to function as a catalyst, initiating development activities and services involving local governments and regular RTG agencies. The nucleus of the MDU is, typically, fifty to seventy-five military personnel augmented by civilian ministry representatives, specializing in road construction, community organization, psy-ops, health, education, agriculture, etc. MDUs also draw assistance from local RTG officials and technicians, encouraging and supporting their operation in the MDU target areas.

Initially, the MDU program focused on the Northeastern Region, but has since expanded to all regions. Deployment has been primarily to border provinces and border districts of the Kingdom. There are currently twenty-four MDUs deployed and all but five are in border provinces. There are ten MDUs in the Northeastern Region, four in the North, four in the Central Region and six in the South.

B. This Agreement provides for third-country training for selected MDU personnel and for technical advisory services to assist the MDU supply and maintenance system.

1. Third Country Training: The MDU program, within the National Security Command (NSC), draws all of its regular personnel from the Military Services and civilian ministries. Training broadens the capabilities of key personnel on loan from other agencies. Pursuant to this Agreement the USG will provide four weeks of training in Korea for twenty-four MDU Commanders and staff representatives in subjects relevant to MDU work in rural areas. The Training will include organization, management and operation of (1) rural cooperatives, (2) rural development activities including village projects, (3) home industry, (4) youth programs, and (5) programs to disseminate information to people in rural areas.
