Project Authorization and Request for Allotment of Funds

PART II

ENTITY : DS/AGR
PROJECT : Sterility Method of Tsetse Fly Control
PROJECT NUMBER: 931-0030

I hereby authorize \$35,000 for a one year extension of the U.S. Department of Agriculture (USDA) PASA RA(AI) 1-00 to cover a cooperative agreement with the International Atomic Energy Agency in Vienna and FAO for the services of Mr. Harold Baumgartner to maintain the tsetse fly colony in Tanga through July 31, 1980. The estimated budget is attached.

Tony Babb
Deputy Assistant Administrator
for Food and Nutrition
Bureau for Development Support

Date: 7-17-79

ACTION MEMORANDUM FOR THE DEPUTY ASSISTANT ADMINISTRATOR FOR FOOD AND NUTRITION, BUREAU FOR DEVELOPMENT SUPPORT

July 6, 1979

THRU: DS/PO, Mr. Robert Simpson

FROM: DS/AGR, Dean F. Peterson

DFP
by DFP

SUBJECT: Sterility Method for Tsetse Fly Control - 931-0030

Problem: Your approval is required to extend the services of Mr. Harold Baumgartner (technician and fly rearing specialists) for one year or through July 31, 1980.

Discussion: The Sterility Method for Tsetse Fly Control project is scheduled for an external team review during the month of July 1979. The team report is due by mid-August and will be used as the basis for determining whether the project in Tanzania will be terminated as scheduled on September 30, 1979, or extended beyond that period.

This project is implemented under a PASA agreement with the U. S. Department Agriculture (USDA) ^{which} ~~who~~ has a cooperative agreement with FAO and the International Atomic Energy Agency (IAEA) to provide the services of Mr. Harold Baumgartner, a technician and fly rearing specialist who maintains the tsetse fly colony in Tanga. Mr. Baumgartner's contract will expire on July 31, 1979, unless it is extended. Until the future of this project is determined, it is important to keep the tsetse fly colony alive.

The USDA has informed us that it is necessary at this time to extend the cooperative agreement with the FAO and IAEA for one year at a cost of \$35,000. If after the evaluation report is received and the decision is made not to extend the project beyond September 30, 1979, the USDA will be notified and the PASA agreement will be terminated. The unexpended funds will be deobligated at that time. The estimated budget for the one year extension is attached to the PAF, Part II.

Recommendation: It is hereby recommended that you indicate your approval to proceed with an extension of the USDA PASA agreement to cover the cooperative agreement with FAO and IAEA for one year at a cost of \$35,000 by signing the attached PAF, Part II. The \$35,000 will cover the services of Mr. Harold Baumgartner to maintain the tsetse fly colony in Tanga. It is understood that if the decision is made not to continue the Sterility Method for Tsetse Fly Control project after September 30, 1979, the unexpended funds will be deobligated.
