4. Services to Natural Parents

TAISSA will arrange for counselling to American fathers of Vietnamese children, in consultation with the child's mother, to determine the best plan for the child, including plans for its future in either Vietnam or the United States. Counselling and assistance will be given to mothers of Vietnamese children fathered by Americans, including exploration of local resources available in Vietnam if it is not possible for the child to remain with its mother. Where possible, service will also be provided to determine whether an American father in the United States is willing and able to participate in planning for his natural child.

5. Program Development

ISS/VN, in cooperation with the Ministry of Social Welfare will continue a program geared toward strengthening the network of family and child welfare services within the context of community life. The aim will be to prevent child abandonment and to help the community to become self sufficient in coping with its basic needs.

In providing service in the United States, TAISSA will work with a network of some six hundred cooperating agencies throughout the country, including HEW and the various State Departments of Public Welfare. ISS will expand its program of consultation and direct relationships with these agencies vis-a-vis intercountry adoption from Vietnam, both to provide up-to-date information as to the availability of children and procedures to be followed, as well as to facilitate individual adoptive placements.

5. Sub-grant

TAISSA will provide a sub-grant to the Interagency Vietnam Adoption Committee (IVAC) to stimulate U.S. adoption agencies to increase the supply of adoptive homes in the U.S. which will permit placement of Vietnamese children with families of comparable ethnic background. IVAC will direct its efforts toward facilitating institutional contracts and working relationships between intercountry adoption agencies working in Vietnam and U.S. adoption agencies, or other institutions, which can assist in the placement of Vietnamese children in homes of appropriate ethnic background where this is necessary for the best interest of the children available for adoption.

**SCOPE OF WORK**

**19. Scope of Technical Services**

**A. Objective for which the Technical Services are to be Used**

The purpose of this Grant is to provide funds to the World Relief Commission for the operation of a 15-bed intensive care pediatric unit at the Hoa Khanh Children's Hospital in Da Nang. This unit will provide diagnostic and therapeutic care to children disadvantaged by hostilities in Vietnam or conditions related to these hostilities with particular emphasis on such children selected by agencies processing inter-country adoptions in agreement with the Government of Vietnam, and other severely ill children from Vietnamese orphanages and other child-care institutions.

**I. Scope of Responsibility** - Using funds provided in June 1974 by a subcontract with the International Rescue Committee (Contract AID 730-3643), WRC expanded their existing hospital facilities to include a 15-bed pediatric unit. This subcontract terminated on 15 Dec 1974. It is the desire of USAID to continue support to WRC on a direct, grant basis for an additional 12 months. The program supported herein will be closely coordinated with the Ministry of Health, the Ministry of Social Welfare and USAID.
