ACTION MEMORANDUM FOR THE AGENCY DIRECTOR FOR FOOD AND AGRICULTURE, BUREAU FOR SCIENCE AND TECHNOLOGY

FROM : S&T/AGR, Anson R. Bertrand

SUBJECT: Final Year of Obligation for the CRSP - Soil Management Project

Problem: Your approval is required for a one-year extension of the authorized final year of obligation of the CRSP-Soil Management project (931-1311).

Discussion: This project was authorized as a five-year activity in September 15, 1981 and five funding increments were scheduled between FY 1981 and 1985. In the original PAF, FY 1985 is the authorized final year of obligation. An additional year of obligation authority is required, however, in order to fund the fifth year of the current grant. The funding level of the grant is \$12,750,000; \$10,450,000 was obligated through FY 1985. In order to obligate funds for the remaining one year of the grant, (grant expires 9/24/86) it is necessary to extend the authorized final year of obligation to FY 1986. The authorized life of the project funding at a total of \$12,850,000 remains unchanged.

The FY 1986 OYB and the CP contains \$2,950,000 for this project. Of this amount, S&T/AGR proposes to obligate \$2,300,000 to complete the 5th year of the current grant. Subject to availability of funds, the remainder will be used to start a new three-year grant to continue on-going activities.

Recommendation: It is recommended that you sign the attached Project Data Sheet to approve a one-year extension of the project's authorized final year of obligation, in order to allow continued funding of the current grant.
