PROJECT AUTHORIZATION AMENDMENT NO. 1

Name of Country: Interregional

Project Title: Applied Diarrheal Disease Research

Project Number: 936-5952

1. Pursuant to Section 104 of the Foreign Assistance Act of 1961, as amended, the centrally-funded project, Applied Diarrheal Disease Research was authorized on April 26, 1985. That authorization is hereby amended as follows:

(a) Authorize the use of \$1,950,000 of grant funds available under Section 104 (c)(2)(B) (Child Survival), thereby increasing the life of project funding from \$12,500,000 to \$14,450,000.

2. The authorization cited above remains in effect except as modified herein.

AGENCY FOR INTERNATIONAL DEVELOPMENT
WASHINGTON DC 20523

MAR 21 1986

ACTION MEMORANDUM FOR THE AGENCY DIRECTOR FOR HEALTH

FROM: S&T/H, Ann Van Dusen *Ann Van Dusen*
SUBJECT: Increased Authority for Use of Child Survival Funds in an Expanded Child Survival Program

Problem: Your approval is needed to authorize use of Child Survival (CS) funds and to increase the Life of Project funding amounts accordingly for those projects designated to receive Child Survival funds under a separate budget line item.

Discussion: The Child Survival Fund was established in 1985. A.I.D.'s child survival activities are assisted broadly by projects funded under the regular Health (HE) account. A.I.D. will use this special budget line item to accelerate a number of health activities of direct importance to child survival. Through a separate budget line item, the Child Survival Fund will provide significant support to the Agency's child survival field programs through the provision of technical support, training and research. The project purposes have not changed, but the additional funds will permit the Agency to concentrate additional efforts in countries where infant and child mortality is high and host governments are committed to improving child survival prospects. Because additional funds made available under this expanded program are additive to current project LOPs, project authorizations are being amended accordingly. A listing of projects requiring your approval follow.

<u>Project Title & Number</u>	<u>Current LOP</u>	<u>Amount of increase</u>	<u>New LOP</u>
Communication for Child Survival (931-1018)	\$15,000,000	4,500,000	19,500,000
Diarrheal Disease Research (936-5928)	14,025,000	4,000,000	18,025,000
Diagnostic Technology Devel. (936-5935)	10,000,000	1,875,000	11,875,000
Vaccine Development & Health Research (936-5947)	6,000,000	1,500,000	7,500,000
Applied Diarrheal Disease Research (936-5952)	12,500,000	1,950,000	14,450,000

An Advice of Program Change for each project is in the clearance process.

Recommendation: That you approve the use of Child Survival Funds for expanded program activities and an increase to the life of project funding by signing the amended project authorizations attached.
