ACTION MEMORANDUM FOR THE AGENCY DIRECTOR FOR FOOD AND AGRICULTURE,
BUREAU FOR SCIENCE AND TECHNOLOGY

FROM: S&T/N, Martin J. Forman

SUBJECT: Final Year of Obligation - Functional Implications of
Malnutrition CRSP

Problem: Your approval is requested for a two-year extension of the authorized final year of obligation for the Functional Implications of Malnutrition CRSP project (931-1309).

Discussion: This project was authorized as a five-year activity on December 30, 1980 and five funding increments were scheduled between FY 81 and 85. In the original PAF, FY 85 is the authorized final year of obligation. An additional two years of obligation authority are required however, to:

1. fund the fifth year of the current grant
2. fully fund the grant at \$11,800,000 due to the 18% pipeline reduction imposed on all CRSPs this year.

The funding level of the grant is \$11,800,000 and remains unchanged; \$10,285,000 has been obligated thru FY 85. A two-year extension of the authorized final year of obligation is required to fully fund the grant.

The current FY 86 OYB level is \$1,242,000. The balance of \$273,000 will be obligated in FY 87, subject to the availability of funds.

Recommendation: It is recommended that you sign the attached Project Data Sheet and PAF, Part II to approve a two-year extension of the project's authorized final year of obligation, in order to allow continued funding of the current grant.
