ACTION MEMORANDUM FOR THE AGENCY DIRECTOR FOR FOOD AND AGRICULTURE, BUREAU FOR SCIENCE AND TECHNOLOGY

FROM: S&T/AGR, David D. Bathrick *[Signature]*

SUBJECT: Extension of Final Year of Obligation for the Agriculture Technology Research and Development Project (936-4109) Doc. # 000100

Problem: Your approval is required to extend the authorized final year of obligation from FY 1987 to FY 1988 for the subject project. No other changes are proposed at this time.

Discussion: This project supports the RSSAs with USDA/OICD which furnish technical expertise to S&T/AGR in numerous specialities and funds a variety of project design and evaluation activities and special studies, analyses, workshops, and small research grants. It has been our plan to convert this project to a Project Design and Support project (PD&S), but we are not able to finalize that conversion at present. We are working with S&T/PO, however, and will have a PD&S project in place later this year.

In the meantime, it is necessary to extend the authorized final year of obligation in order to support these activities in FY 1988. The ten year life of project limit is not an issue because this project was initially authorized in FY 1981.

Recommendation: That you approve the extension of the final year of obligation for project 936-4109 to FY 1988 by signing the attached PAF and project data sheet.
