

ACTION MEMORANDUM TO THE AGENCY DIRECTOR FOR FOOD AND AGRICULTURE
BUREAU OF SCIENCE AND TECHNOLOGY

FROM: S&T/AGR,  David D. Bathrick

JUN 27 1988

SUBJECT: Stock Assessment - CRSP, Project 936-4146,
Authorization Amendment DOC # 414604

PROBLEM: Your approval is requested to amend the authorization for the subject project to provide for the use of funds from missions, regional bureaus, and other AID/W offices in support of project activities.

DISCUSSION: This project was authorized for five years on May 30, 1985 at a level of \$5,000,000 for S&T/AGR funding. No provision was made, however, to allow missions, regional bureaus and other AID/W offices to access the expertise developed under this program. The CRSP program will benefit also from the information and experience gained by providing services to LICs related to the research undertaken by the participating universities. Accordingly, we propose to amend the project to permit the procurement of services from the participating universities related to their stock assessment research. A companion basic ordering agreement (BOA) will be established as the mechanism by which these services can be accessed.

We estimate that there will be up to \$4,000,000 in buy-in requests for services. These additional funds will be separately authorized under various mission, regional bureau, or other AID/W central projects, but will also require your approval to be used under the project. Once you have approved the use of buy-in funds under the project, we will process a waiver pursuant to Federal Acquisition Regulation (FAR) Subpart 6.302-3(a)(2) - the research capability exception - to exempt these buy-in requests from full and open competition. These services will be provided by delivery orders issued under the BOA.

SER/OP has reviewed a draft of the proposed BOA and on May 20, 1988 issued a sources-sought synopsis of the proposed action in the Commerce Business Daily (CBS) even though FAR 5.202(a)(10) states that CBD synopsis is not required under these conditions described in FAR 6.302-3. To date no source has expressed in writing, an interest in this acquisition. In addition, SER/OP has advised us informally that such waiver and establishment of the BOA are appropriate and foresees no problem in approval.

RECOMMENDATION: That you sign the attached Project Data Sheet and the Project Authorization Form to provide for up to \$4,000,000 to be contributed by missions, regional bureaus, and AID/W offices for additional country activities within the overall scope of this project.

PROJECT AUTHORIZATION

Entity: Bureau for Science and Technology
Project Title: CRSP - Stock Assessment
Project Number: 936-4146 DOC # 414604

A. Pursuant to Section 103 of the Foreign Assistance Act of 1961, as amended, the centrally funded Stock Assessment Collaborative Research Support Program (CRSP) was authorized on May 30, 1985. The project is hereby further amended as follows:

1. Up to \$4,000,000 from missions, regional bureaus, and A.I.D./W offices may be provided in support of this project.

B. The authorization cited above remains in force except as herein amended.
