

ACTION MEMORANDUM TO THE AGENCY DIRECTOR FOR FOOD AND AGRICULTURE
BUREAU FOR SCIENCE AND TECHNOLOGY

FROM: S&T/AGR, David D. Bathrick

SUBJECT: Reproductive Studies on Milkfish
Project 936-4161, Authorization Amendment
DOC # 416104

PROBLEM: Your approval is requested to amend the authorization for the subject project to provide for the use of funds from missions, regional bureaus, and other AID/W offices in support of project activities.

DISCUSSION: This project was authorized on June 15, 1984 for two years at a level of \$1,250,000, and amended on August 1, 1986 to increase the cooperative agreement funding by \$3,600,000 to a new level of \$4,850,000. We propose to amend the project to permit missions, regional bureaus, and other AID/W offices to procure services from the Oceanic Institute which are related to the research and development activities on the reproductive studies of milkfish and other marine fish developed under the Cooperative Agreement. A companion basic ordering agreement (BOA) will be established as the mechanism by which these services can be accessed. The Reproductive Studies on Milkfish project will benefit also from the information and experience gained by providing services to missions, regional bureaus, and other AID/W offices.

We estimate that there will be up to \$500,000 in buy-in requests for services. These additional funds will be separately authorized under various mission, regional bureau, or other AID/W centrally funded projects, but will also require your approval to be used under the project. Once you have approved the use of buy-in funds under the project, we will process a waiver pursuant to Federal Acquisition Regulation Subpart 6.302-3(a)(2) - the research capability exception - to exempt these buy-in requests from full and open competition. These services will be provided by delivery orders issued under the BOA.

SER/OP has reviewed a draft of the proposed waiver request and has advised us informally that such waiver and establishment of the BOA is appropriate and will be approved.

RECOMMENDATION: That you sign the attached Project Data Sheet and the Project Authorization Form to provide for up to \$500,000 to be contributed by missions, regional bureaus, and AID/W offices for additional country activities within the overall scope of this project.

PROJECT AUTHORIZATION

Entity: Bureau for Science and Technology
Project Title: Reproductive Studies on Milkfish
Project Number: 936-4161 DOC # 416104

- A. Pursuant to Section 103 of the Foreign Assistance Act of 1961, as amended, the centrally funded Reproductive Studies of Milkfish project was authorized on June 15, 1984 at a level of \$1,250,000 over a two-year period from FY 1984 through FY 1986 subject to availability of funds in accordance with the A.I.D./OYB allotment process. It was amended on August 1, 1986 to increase the level by \$3,600,000 to \$4,850,000 and extend the termination date for three years through July 14, 1989. A no-cost extension to January 14, 1990 has also been approved. The project is hereby further amended as follows:
1. Up to \$500,000 from missions, regional bureaus, and A.I.D./W offices may be provided in support of this project.
- B. The authorization cited above remains in force except as herein amended.
