PROJECT AUTHORIZATION AMENDMENT No. 1

Name of Country: Worldwide  
Project Title: Malaria Immunology - CDC  
Project Number: 931-0453..23

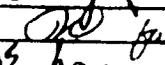

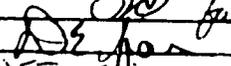

1. Pursuant to Section 104 (Health) of the Foreign Assistance Act of 1961, as amended, this centrally funded project was authorized on June 11, 1985. That authorization was amended on June 20, 1988. The authorization is hereby further amended as follows:

Extend the Project Assistance Completion Date to June 30, 1989.

2. The authorization cited above remains in force except as hereby amended.

WASHINGTON, D. C. 20523

APR 7 1989

ACTION MEMORANDUM FOR THE AGENCY DIRECTOR FOR HEALTH

FROM: S&T/H, Ann Van Dusen *Ann Van Dusen*

SUBJECT: Extend the Project Assistance Completion Date of the Malaria Immunity and Vaccine Research Project (931-0453.24)

Problem: Your authorization is needed to extend the Project Assistance Completion Date (PACD) to June 30, 1989.

Discussion: The Office of Health has drawn extensively on the expertise available at the Center for Disease Control through the Participating Agency Services Agreement (PASA) with CDC, which has been financed under this and a predecessor project for the past seven years. The CDC PASA provides services on conducting primate trials of candidate vaccines, assays for human malaria and guidelines for clinical trials for the Malaria Immunology and Vaccine Research (MIVR) project. The current PACD is March 31, 1989; the expiration date for the PASA is also March 31, 1989. We want to continue the assistance to CDC for an additional three months to allow them to complete current non-human primate vaccine trials. Therefore, we request an extension of the PACD.

Prior to this time, we plan to develop a follow-on PASA with CDC which will provide for cooperative research and evaluation of immunity to malaria in monkeys and humans.

Recommendation: That you sign the attached PAF amendment to extend the PACD to June 30, 1989.
