ACTION MEMORANDUM FOR THE AGENCY DIRECTOR FOR FOOD AND AGRICULTURE, BUREAU FOR SCIENCE AND TECHNOLOGY

FROM : S&T/AGR, David Bathrick

SUBJECT: Extension of Final Year of Obligation for Storage and Processing of Fruits and Vegetables project (931-1323) (Doc #132301)

Action : Your approval is required for a one year (from FY 1989 to FY 1990) extension of the authorized final year of obligation for the subject project. No other changes are proposed at this time.

Discussion: This project was authorized on June 14, 1979 and was implemented in FY 1980 under a cooperative agreement with the University of Idaho. The project was amended on January 11, 1984 and again on July 25, 1985. The current agreement for this project ends September 30, 1990 and the project assistance completion date is also September 30, 1990, but the authorized final year of obligation is FY 1989. The project is now funded through December 28, 1989. We are requesting a one year extension of the authorized final year of obligation so that the current agreement can be funded through its completion date with FY 90 funds.

An external evaluation of this project is scheduled for February 1990. We will decide the future of this activity based upon the findings of the evaluation. If we decide to continue this activity, the necessary documentation for an extension of this project or a new one will be prepared.

The FY 1990 CP has \$340,000 for this project. A Congressional Notification is not required.

Recommendation: That you approve the extension of the authorized final year of obligation from FY 1989 to FY 1990 for the subject project by signing the attached Project Authorization Amendment #3.
