3. Origin. The origin of a commodity is the country or area in which a commodity is mined, grown, or produced. A commodity is produced when through manufacturing, processing, or substantial and major assembling of components, a commercially recognized new commodity results that is substantially different in basic characteristics, or in purpose or utility, from its components.

4. Componentry. Components are the goods that go directly into the production of a produced commodity. AID componentry rules are as follows:

(b) Unless otherwise specified herein, components from the United States, the Cooperating Country, and any other countries included in AID Geographic Code 941 may always be utilized in unlimited amounts, regardless of the authorized geographic code set forth above.

(1) The corporation or partnership is more than 50% beneficially owned by individuals who are citizens of a country or area included in the authorized geographic code. In the case of corporations, "more than 50% beneficially owned" means that more than 50% of each class of stock is owned by such individuals; in the case of partnerships, "more than 50% beneficially owned" means that more than 50% of each category of partnership interest (e.g., general, limited) is owned by such individuals. With respect to stock or interest held by companies, funds, or institutions, the ultimate beneficial ownership of individuals is controlling; or

A corporation or partnership is an integral part of the local economy provided:

(1) It has done business in the Cooperating Country on a continuing basis for not less than three years prior to the issuance date for the solicitation (i.e., invitation for bids, request for proposals);

(d) Commodities are ineligible for AID financing hereunder if shipped under an ocean or air charter that has not received prior approval of AID/Washington, regardless of whether such transportation costs are financed hereunder.

7. AID Geographic Codes

AID Geographic Codes are defined in Appendix D of AID Handbook 18, which, as from time to time amended, is incorporated herein as a part of this Cooperative Agreement by reference.

8. Approvals

In accordance with paragraph 13 of Attachment B of OMB Circular A-122, which requires prior AID approval of certain equipment and other capital expenditures, the Grant Officer does hereby provide approval for such expenditures; PROVIDED, however, that such purchases must be within the terms and conditions of this Grant, and shall serve to promote the specified purposes and objectives of this Grant.

9. Automation Equipment

Notwithstanding paragraph 8 above, the Recipient must obtain the approval of the AID Project Office specified in the Cover Letter of this Grant for any purchases of automation equipment (e.g. computers, word processors, etc.), software, or related services made hereunder, if the total cost of such purchases will exceed \$100,000. The AID Project Office must, in turn, have the concurrence of AID/W, M/SER/IRM, before providing any such approvals.

H. SPECIAL PROVISIONS

1. For the purposes of this Grant, references herein to the cost principles of OMB Circular A-122 shall include the AID implementation of such cost principles, as set forth in subpart 731.7 of the AID Acquisition Regulations (48 CFR Chapter 7).

2. With reference to paragraph (a)(3)(iii) of the Standard Provision of this Grant entitled "Procurement of Goods and Services", the requirement to notify the AID Office of Small and Disadvantaged Business Utilization (OSDBU) at least 45 days prior to placing an order or contract in excess of \$25,000 is hereby waived, when time does not reasonably permit such prior notification. Prior notification continues to apply when time permits. This does not relieve the Grantee from prudent advance procurement planning, nor does it relieve the Grantee from the requirement of said Standard Provision to make positive efforts to utilize small business and minority-owned business sources of supply.

PROGRAM DESCRIPTION

A. BACKGROUND

The RRC Children's Shelter in Gondar was opened in 1984 to care for parentless drought victims who were left in Relief Camps. The shelter was set up in former grain warehouses constructed with corrugated iron sheets. There were few beds, poor facilities, and no budget for running the institution which was home to 305 children, roughly divided between boys and girls ranging in age from 6 months to 16 years. Staff were paid on food-for-work basis and the RRC provided food and school materials. There is currently a Family Reunification Project developed in connection with the Gondar Shelter Children funded by USAID and implemented first by AICF and the RRC Task Force for Child and Family Reunification and operated now by Save the Children/USA and the Task Force. In the three month period September 23 to December 21, 1987, all the children were interviewed, 74 families traced and 28 children reunited. The Reunification process was designed, implemented and refined during this period and the RRC Family Reunification Task Force was formed, gained experience, and was strengthened. Two hundred and seventy seven children remain to be traced and either reunited or have another permanent living situation established. Both the Gondar RRC Commissioner and the National Children's Commission in Addis have declared that the Gondar Shelter will remain open for several years while the remaining children are reunited or placed, and also accommodate the predicated influx of children from the current war and famine in the North. Monies were requested and funds granted for continuation of the Reunification Project.

B. IMPLEMENTATION

The first phase of this project, funded at \$312,000, consists of a continuation and completion of the reunification process begun in the Fall of 1987 through AICF. Increasing insecurity and levels of conflict in Eritrea, Tigre and Welo Provinces have had a serious effect on the prospect of the tracing and transport of children to their place of origin in the North. The possible migratory movements of people to perceived food distribution points, the inaccessibility to some areas by social work teams and the subsequent thwarted opportunity to do follow up assessment of children and program monitoring led to a decision to concentrate on the reunification of children who are presently living in shelters in the South (Gojam, Illubabor, Welega) with relatives who reside in Northern Shewa and Welo. As SCF is operational in Northern Shewa, the reunification of children in this area can be well-monitored by the grantee. The restructuring of the Reunification Program operation will assign one team of Social Worker and Assistant and one vehicle to Gondar, one team and vehicle to Gambela (Illubabor) and one team and vehicle to Kembata Hadya (Shewa). The progress of the program will be monitored on a consistent basis by grantee site visitations and monthly AID/SCF/Task Force meetings in Addis.

The second phase of the Reunification Project, possibly extending for several years, entails the establishment and start up of different shelter, schooling and nurturing solutions for the children who cannot be reunited. Equally important will be the follow-up of reunited children and ongoing assessment of program success, and further strengthening of the Task Force for Child and Family Reunification. The Task Force is the only coordinating body of this kind and as the RRC is one of only two agencies through which PVO's can implement their activities for children in Ethiopia, it is imperative that the Task Force be sustained and strengthened. It is likely that with the current war and drought, there will be many more orphaned and displaced children in need of assistance. There is an urgent need to have an organizational structure and policy in place to deal with preventative measures, shelters and most important, long term solutions for the children. Funds for phase two of the Reunification Project have been awarded and will be held until the appropriate time for implementation.
