Mr. David Watson
Acting Development Education Coordinator
A.I.D., FHA/PVC - Room 709
1515 Wilson Blvd.
Rosslyn, VA 22209

Dear David,

We are pleased to submit our quarterly report on the "Roots of Development" project, covering the period June 15 - September 14, 1992.

You might be interested to note the special role of A.I.D. in helping us to recruit the two highly qualified members of our advisory committee. Dr. Gabriel Manrique originally contacted us through your office and Belen Andrada was identified by another participant in last June's Biden-Pell conference in Atlanta.

We hope that you, Catherine, and Theresa will be able to join us for the October 31 workshop at George Washington University.

With best wishes,

Sincerely,

Josefina Samson-Atienza
Project Director
"Roots of Development"

encl.

"Roots of Development" Program
Cooperative Agreement No. PDC-0230-G-00-1060-00
Quarterly Report
June 15 - Sept. 14, 1992

SUMMARY

Activities during this quarter were guided by the revised workplan for the program, which was worked out subsequent to the June assessment meeting with the Acting Development Education Coordinator of AID and the July meeting with AID consultants. Under the new workplan, more emphasis is given to the production of study kit modules to enhance the capabilities of Filipino-Americans to carry out sustained development education.

Among the major accomplishments during this quarter are: the formation of an advisory committee for the production of the study kits; formulation and review of a draft outline for the study kit module; near completion of the preparations for the Washington, D.C. workshop in October; and the formation of an organizing committee for the workshop to be held in Los Angeles next year.

1. Materials Production

In accordance with the revised workplan, an advisory committee on the production of the study kit modules has been set up. Dr. Gabriel Manrique, a professor of economics at Winona State University, and Belen Andrada, a retired teacher in Minnesota, have agreed to serve in the committee (see Attachment A for copies of their letters). Both have a good background in development education. Dr. Manrique has helped prepare study kits for Panos Institute, while Belen Andrada has worked closely with the Upper Midwest Women's History Center, which has put out excellent educational materials on women.

A draft outline for the study kit module has been drawn up. The above-mentioned members of the advisory committee have received a copy of this draft and have commented on it. Representatives of local Filipino-American organizations in Washington, D.C. have also reviewed the draft. Data and relevant information on the topics selected for the study kit modules are in the process of being collected.

The preliminary study kit modules focusing on education and health issues will be presented at the October 31st development education workshop in Washington, D.C. where they will be reviewed in small group discussions. Production of the revised version of the study kit on education is scheduled for November '92 through January '93; that on health is scheduled for completion by June next year. These will be synthesized with

modules on other topics to produce the final kits.

Copies of two videos--"The Foodlot Module: A Farmer Perspective," which has been produced by IIRR's Communications Department, and the Lutheran World Relief's production of "The Filipino Dream"--have been furnished to the organizers of the workshops to be held in Washington, D.C., Los Angeles, and San Francisco, for their use as educational tools. In the draft outline for the study kit module, a study guide to accompany these videos is proposed. Videos on environmental issues will be completed by mid-1993.

2. Workshops

Most of the preparatory work for the Washington, D.C., workshop was completed during this quarter: identifying and contacting speakers; planning the program; arranging the venue and other logistical requirements; and sending out invitations (see Attachment B for a copy of the flyer and letter of invitation). The local groups in Washington, D.C., particularly the Philippine Heritage Federation, the Philippine American Women in Development (PAWID), and the Washington Forum, have undertaken much of the preparatory work--an indication of their interest in and support for the workshop.

Initial groundwork has also begun for the workshops to be held next year in Los Angeles (tentatively scheduled for March) and in San Francisco (tentatively scheduled for October). Contacts have been made with local Filipino-American organizations as well as Philippine consul officials in both cities during the project director's visit to the area in July. Local coordinators for the workshops have been identified. In Los Angeles, an organizing committee has been established (see announcement in the STAC-LA newsletter in Attachment C) and includes representatives from the following local groups:

- Science and Technology Advisory Council-LA (STAC-LA)
- Alliance for Philippine Concerns (APC)
- Tulong sa Bayan ("Helping the Nation")
- Filipino-American Women's Network (FAWN)
- Search to Involve Pilipino-Americans (SIPA)

The organizing committee has already met twice. The second meeting was actually a pre-workshop study session on the concept of "development."

In San Francisco, members of the following organizations expressed an interest in organizing a development education workshop:

STAC-San Francisco
Philippine Environmental Support Network
Southeast Asia Educational Resources Clearing House
Youth for Philippine Awareness
Tumandok ("From the same place")

3. IIRR Personnel Changes

In light of his appointment as Secretary of Health under the new Philippine administration, Dr. Juan Flavier has resigned his position as President of IIRR as of July 1992. At present, a search is underway for his replacement.

IIRR's executive vice president and chief operating officer, Conrado Navarro, has taken an active role in the "Roots of Development" project. He will be a key resource in the October 31 workshop in Washington, D.C. and is also meeting with Filipino-American leaders in the New York and Los Angeles areas. Mr. Navarro has more than 20 years' experience in Philippine development and was recently elected chairman of the Council of International Voluntary Agencies in the Philippines (see attachment D for his biodata).

A new Deputy Communications Director, Paul Mundy, has come on board IIRR (see Attachment E for his biodata). He will be assisting the IIRR U.S. office in the implementation of the "Roots of Development" program, particularly in the preparation and production of educational materials.

4. Networking

Aside from networking with local groups in the cities where the workshops are scheduled to be held, we are continuing to establish links with Philippine-based nongovernmental organizations (NGOs). During this quarter, contacts were established with visiting representatives from the Citizen's Disaster Relief Center (CDRC), the Philippine Environmental Action Network (PEAN), and with Service Foundation, an NGO working with street children in Manila. At the request of the Philippine Environmental Network (PEN), a Filipino-American group based in New York, IIRR helped provide a venue for the talk last July 16 by Luz Rio, Executive Director of PEAN.

5. Financial Report

The financial report for the quarter is presented in Attachment F.

6. Conclusion

The greater focus and more realistic time frame provided by the revised workplan enhances the likelihood of succeeding in the the program's goal "to educate Filipino-Americans about critical development issues in the Philippines" through development education workshops and the production of culturally appropriate study kit modules.

Josefina Samson-Atienza
Project Director
"Roots of Development"
IIRR
475 Riverside Drive, Room 1270
New York, NY 10115

Dear Ms. Samson-Atienza:

I am writing in regard to your letter regarding the "Roots of Development" project that you are undertaking. As you may be aware from David Watson, Elise Storck and even Bill Savitt whose office in the same building as yours (InterFaith Hunger Appeal), I am very much interested in participating in development education projects. Your project holds special appeal because it is related to the Philippines.

My quick answer to your questions are:

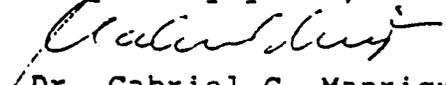

1. Yes, I would love to attend your workshop on October 31. Unfortunately for academics such as myself, getting the funds for the plane fare is always a problem. Having a place to stay in either New York or DC is not a problem with me. If I can arrange for the plane fare to get me to your workshop, or if you can help with the plane fare, I will be there. If there is any way I can assist in the preparation and execution of the workshop, please let me know.
2. Yes, I am willing to serve on an advisory committee concerning the preparation of study kits on the Philippines. I have done the same for Panos and for the the UN's World Food Day. I have even used my classes as field test sites. While I am willing to put in the work and to help you out in the same way I tried to assist Elise Storck, I know I will run into the same problem again with respect to meetings of the advisory committee. As long as I do not have to make special trips to NY or as long as you can provide me with the airfare to NY, yes I can be of service to you.

3. I do not have economic development papers specific to the Philippines. That does not mean I cannot come up with some material that you can use for your bibliography. However, it may interest you that my wife (who is also from the Philippines) and I, are embarking on a national survey on immigrants of color in university faculties. When the preliminary results start to come in, you may find the information useful since I understand that this is precisely the kind of audience you are targeting - Filipino-American immigrants. We have seed funding to do this project and we are continuing to work on it.
4. Are there others who would be interested in your participating in your project? I am sure there are. This coming March, the University of Wisconsin-La Crosse where my wife is a professor of political science, is hosting a national conference on Asian-Americans. We can tap into the Filipino-American colleagues who will be attending this conference or better yet, you might consider holding a panel or workshop on the things you have been doing. We will be glad to help you organize a panel on "Roots of Development."

In summary, there are many avenues that you can utilize in academe for your project. We would be most happy to assist you subject of course to our own constraints. Do send me information as they become available. Please do not hesitate to call me if you feel it necessary. My office phone is (507) 457-5014. We start school in a few weeks. My fax is (507) 457-5697.

Best of luck on your efforts.

Very truly yours,

Dr. Gabriel G. Manrique
Professor of Economics

Dear Dr. Atienza,

I would be happy to serve on your advisory committee. Please advise on what the next step is.

Also, thank you for sending the literature. I will plan on attending the October 31st conference and share the literature you sent with interested parties.

Warm regards.

Sincerely,

Belen S. Andrada

September 1992

Dear Friend and Community Leader:

We are pleased to invite you to a forum -- Bayanihan 2000 which will be held on Saturday, October 31 at the Marvin Center of the George Washington University. The forum is the first of a series of workshops which the International Institute of Rural Reconstruction (IIRR) is undertaking as part of its "Roots for Development" education program to promote discussion of critical development issues among Filipino Americans and to tap into their wisdom, experience, and political potential to improve social and economic conditions in the Philippines.

Many of us are already, or have a desire to be involved in voluntary projects that assist individuals, families, or communities in the Philippines. Can you picture your own projects as part of the total development picture? Are you aware of the real needs of our kababayans? Would you like to explore solutions to meet those needs in a way that will be sustained on a long-term basis and also be related to other segments of development?

The Bayanihan 2000 forum hopes to explore answers to those questions with you, learn from our discussions, strengthen existing projects or arrive at new ones. Sound exciting?

So, please come and join us. The forum is free. A light lunch will be served. You need only to call any of those listed on the attached flyer to reserve a space for you or a representative of your organization.

Sincerely,

Maurese Oteyza Owens
President

Technology Award...continued from page 1

ceremony on September 26, 1992. The decision by Adamson University's Executive Committee was arrived at after the committee members went through the records and made thorough research about the several nominees. The letter to *Dr. Gasendo* had also mentioned the University's offer to exhibit *Dr. Gasendo's* windmill in their facilities. STAC-LA is promoting this invention as a possible solution to rural electrification by efficiently utilizing wind power and curtailing the energy shortage still present in the country. The Adamson University award and the future display of the *Gasendo Windmill* will bring honors not only to *Dr. Gasendo* but also to our STAC chapter as well.

LA Workshop Organizing Committee Formed

An important step in the preparation for the Los Angeles Workshop touching on issues of Philippine development was realized by the formation of an organizing committee on September 2. The committee was formed at the request of IIRR project director *Josie Atenza* who also asked STAC-LA chairman *Greg Santillan* to be the overall coordinator in Los Angeles. The role of the organizing committee is to oversee this workshop and involve leaders from various organizations in the LA Filipino community, which are expected to officially co-sponsor the workshop along with STAC-LA. The workshop is tentatively scheduled to be held on March next year. Proposed themes for the workshop as well as the formation of the working committees, and the choice of topics of discussion will be presented and discussed in the next STAC meeting. In initiating the organizing committee, STAC-LA will play an important role in bringing together other important community organizations. As the preparations develop, various working committees will be constituted which will necessitate the broader participation of active members from the various organizations. Members of the STAC-LA rural development com-

mittee will certainly play a key role in the upcoming event. The Organizing Committee are as follows:

<i>Greg Santillan</i>	STAC-LA
<i>Jimmy Cruz</i>	STAC-LA
<i>Art Domingo</i>	STAC-LA
<i>Cynthia Jopanda</i>	STAC-LA
<i>Enrique de la Cruz</i>	APC
<i>Joe Penano</i>	APC
<i>Fernando Fernando</i>	TSB
<i>Carole Kimbrough</i>	TSB
<i>Rose Ibanez</i>	FWN
<i>Fe Koons</i>	FWN
<i>Cecile Ochoa</i>	FWN
<i>Sylvester Mendoza</i>	SIPA
<i>Joel Jacinto</i>	SIPA

Information System Group Proposes Computer Conference

■ By Larry Espiritu

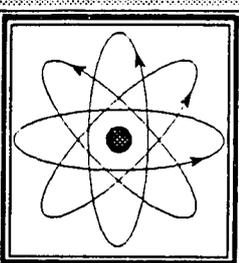

In line with the computer literacy drive that we will promote in one of the provincial Science and Technology centers we will adopt, the information system group has come up with a proposal to host a national computer conference in the Philippines. The scope includes but not limited to the following, with special emphasis on personal computers (microcomputers) due to its rapidly closing in to the power of a mainframe:

- Mainframes i.e. IBM/PCM(370), DEC VAX 9000 etc.
- Midrange i.e. IBM AS 400, DEC VAX 6XXX/8XXX etc.
- Workstations i.e. IBM RS/6000, Next, Sun, Apollo etc.
- Microcomputers
 - 8088/8086, 286, 386SX/DX, 486SX/DX/DX2, P5,
 - Macintosh, Laptops, Notebooks, Palmtops etc.

STAC-LA Newsletter is the official publication of Science and Technology Advisory Council based in Los Angeles, California USA. We invite the readers to contribute articles, news, announcements, wanted etc., either in writing or disk file saved as ASCII.

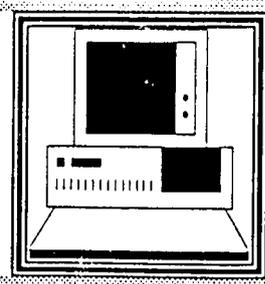

The Editor reserves the right to limit the words for space and clarity. Please send all materials to:

Volume 3, Number 1

September 11, 1992

STAC-LA to Adopt Charter

STAC-LA's structure is beginning to take shape. Official publication is already in place and a charter committee has been created. One major focus of the committee is to draft the bylaws and articles of incorporation to be formally adopted in time for the much awaited election of officers.

To expedite the development of STAC-LA, a charter committee composed of *Cynthia Jopanda, Virgil Maravilas, Ben Alas, Art Domingo, Tania Azores, Greg Santillan and Consul Bael*, has come up with a draft to be presented for discussion and adoption by the general membership. The draft certainly warrants every member's perusal so everyone is encouraged to attend the next several meetings. Just a reminder: the next meeting is on September 16, Wednesday at the Philippine Consulate. Orientation starts at 6:30 and the regular agenda at 7:00 p.m.

Some highlights of the articles of incorporation include the nature of the organization as nonprofit (with an *educational and scientific* purpose) and the structure, that will include a board which will be elected every two years by the members. Upon approval, the articles of incorporation will be submitted to start the process of incorporating as a nonprofit organization with 501(c)(3) IRS status.

Membership Drive Update

Our last meeting on August 10, 1992 was attended by a record of more than 40 people. Although it is our intention to accommodate every newcomer's question, it was observed that a major portion of the meeting was spent on answering questions about STAC-LA and lesser time for the regular business. In view of the above, *Greg Santillan* has implemented two immediate policies to help streamline the meeting: a) *All members, inviting new people to STAC-LA's meeting, should brief them about the goals, projects and the general approach of STAC-LA before coming to the meeting.* b) *The first 30 minutes of the general meetings (6:30 to 7:00 p.m.), will be set aside for orienting the newcomers.* This will allow us and the membership committee to answer and satisfy the lingering and legitimate questions about STAC-LA. After that is the main bulk of the agenda from 7:00 to 8:00 p.m. (we hope!).

Dr. Gasendo Receives Technology Award

STAC-LA's longtime member and award winning inventor *Dr. Leo Gasendo*, was recently chosen by Adamson University (Phil) to receive the award as its *Most Outstanding Alumnus* in the *Field of Technology* at the award... please see page 2

Reminder

I. Summary of Experience and Expertise

Over twenty (20) years of experience in various aspects of development work, including: formal and non-formal education, community organization, cooperatives development, development of local institutions, rural savings and credit, student welfare, out-of-school youth development, youth leadership in development, sports and physical fitness, women in development, livelihood development, primary health care, environmental protection, and local government administration. Work experience covers service in both government agencies (at national and local levels) and non-government development organizations (NGOs).

Expertise in the fields of organizational and program/project development and management, marketing of professional services, and resource development (project proposal preparation and fundraising).

II. Past Positions

1. DIRECTOR, FIELD OPERATIONAL RESEARCH DIVISION, INTERNATIONAL INSTITUTE OF RURAL RECONSTRUCTION (IIRR).

Responsibilities: Provides overall direction and management to IIRR's Field Operational Research (FOR) Program which consists of both action research and development research projects in the fields of non-formal education, community organizing, cooperatives development, community-based primary health care services, livelihood development, appropriate technology for sustainable agriculture and micro-enterprise development, rural savings and credit, women in development, and youth

development. Projects are implemented both in IIRR's "social laboratories" in three (3) Philippine provinces, and in other countries in collaboration with IIRR's affiliated national rural reconstruction movements (NRRMs). These NRRMs operate in the Philippines, Thailand, India, Guatemala, Colombia and Ghana. Staff supervised (total of 47, or almost one-third of IIRR's entire personnel force) include several with advanced (doctoral or masteral) degrees in education, development communication, community development, sociology, anthropology, agriculture, agribusiness, medicine and public health, and/or long years of experience as rural development practitioners (some for as long as three decades).

2. ASSISTANT TO THE PRESIDENT, IIRR.

Responsibilities: Assists the IIRR President in fundraising, specifically by identifying and studying prospective funding sources, preparing project proposals, undertaking actual negotiations with donor representatives, and developing and maintaining donors' interest in IIRR. Also assists the President and the Executive Vice-President in the overall management of the Institute by way of reviewing, formulating/re-formulating and recommending general management policies, systems and procedures.

3. MEMBER, MANAGEMENT COMMITTEE (MANCOM), IIRR.

Responsibilities: Participates in collective decision-making on Institute-wide policies, plans and programs. Shares responsibility with other MANCOM members for projecting favorable image of IIRR externally, and maintaining high employee morale internally.

4. MEMBER, INTERNATIONAL TRAINING FACULTY, IIRR

Responsibilities: Coordinates the development of curricula and materials for, and the actual conduct of, the modules on Rural Reconstruction and Program Management. Facilitates/lectures on specific topics, including project management, credit and savings, project proposal preparation, and fundraising.

11

III. Other Current Professional Involvements

1. CHAIRMAN OF THE BOARD OF TRUSTEES, "KOOPERASYON UNLAD BATA" (Cooperative for Children's Development). This is a not-for-profit community association engaged in pre-school and parent education programs in Tondo, the most depressed district of the City of Manila, capital city of the Philippines. Responsibilities as Board Chairman consist principally of representing the association in negotiations with government authorities and funding agencies, and in providing guidance to the association's staff on organizational, financial and program management matters.
2. MEMBER, BOARD OF TRUSTEES, PHILIPPINE-GERMAN DEVELOPMENT FOUNDATION, Inc. (PHILGERFUND). This is also a not-for-profit development organization engaged in supporting livelihood and income-generating projects of small non-governmental organizations (NGOs) and people's organizations (POs) in various parts of the Philippines. Responsibilities as Board Member consist of participating in the formulation of foundation policies, programs and procedures, and in the review and decision-making on applications for project grants, as well as in the monitoring and evaluation of supported projects.
3. MEMBER, PROJECT ADVISORY GROUP ON NON-FORMAL EDUCATION, PHILIPPINE DEPARTMENT OF EDUCATION, CULTURE AND SPORTS (DECS). This Group, which is chaired by the Undersecretary of the DECS, and has for its members distinguished Philippine educators and managers of non-formal education programs, advises the Secretary of Education on what action to take on various program proposals in the field of non-formal education, particularly those for which foreign funding is being sought.
4. MEMBER, NATIONAL DEVELOPMENT COMMITTEE, YMCA OF THE PHILIPPINES. This Committee is responsible for formulating, implementing, monitoring and evaluating the national community development program of the Federation of YMCAs of the Philippines, as well as for providing advise and assistance in the field of community development programming to its thirty-one (31) member associations (local YMCAs) throughout the country.

B.

III. Other Past Professional Involvements

1. DIRECTOR OF INTERNATIONAL TRAINING, IIRR. Responsible for directing and coordinating curriculum development, participant recruitment, training management, and alumni follow-up of IIRR's international training programs.
2. DIRECTOR OF INTERNATIONAL EXTENSION, IIRR. Responsible for directing and coordinating IIRR's international outreach activities, including the provision of training and consultancy services to its affiliated national rural reconstruction movements (NRRMs) and the publication of its field experiences for international sharing.
3. DIRECTOR OF FIELD OPERATIONS, IIRR. Responsible for directing and coordinating the Philippine-based field operations projects of IIRR. (At this time, the research aspects of IIRR's Field Operational Research Program was being undertaken by a separate Research Division. The two divisions -- Field Operations and Research -- were merged into the Field Operational Research Division only in early 1988.)
4. VICE-PRESIDENT, DEVELOPMENT ACADEMY OF THE PHILIPPINES. (DAP). DAP is a quasi-government institution engaged in providing training, consultancy, and technical assistance services to national and local government agencies in the Philippines in various aspects of development work, from agriculture and fisheries development, to environmental protection and conservation of natural resources, women and youth development, human settlements planning, small and medium industries development, etc. Responsibilities as vice-president included identifying opportunities for DAP to provide aforementioned services to a cluster of government agencies (including the Departments of Local Government and Community Development, Education, Youth and Sports Development, Human Settlements); packaging and marketing training and/or consultancy proposals to these agencies; organizing and coordinating the multi-disciplinary teams that undertook the training and consultancy services; and following-up the results of the services provided.

5. MARKETING DIRECTOR, DAP. Responsible for the formulation, implementation and review of the overall marketing program of the institution.
6. DIRECTOR, OPERATIONS MONITORING AND CONTROL CENTER, DAP. Responsible for monitoring all projects of the institution.
7. EXECUTIVE DIRECTOR, TASK FORCE ON YOUTH AND SPORTS DEVELOPMENT, OFFICE OF THE PRESIDENT OF THE PHILIPPINES. This Task Force formulated the Philippine National Youth and Sports Development Program which became the basis for the organization of the Ministry of Youth and Sports Development (MYSD) which then President Ferdinand E. Marcos personally headed in a concurrent capacity.
8. EXECUTIVE DIRECTOR, RESPONSIBLE PARENTHOOD COUNCIL (RPC). This was a not-for-profit organization that was engaged in the promotion of family planning and rural development in thirteen (13) provinces throughout the Philippines. At a time when family planning was practically taboo in the Philippines (late sixties to early seventies) due to the objections of the Catholic Church (Catholics comprise almost 80% of the Philippine population), this organization was able to gain the support of the Catholic Bishops Conference of the Philippines (its president sat in the Council's board of trustees) by promoting natural family planning methods. As a result, overall acceptance rates (all methods) dramatically increased during this period (1970-74). The Council closed shop in 1975 after the Philippine Government took over most of the external funding available for family planning programs.
9. RESEARCH COORDINATOR, PRESIDENTIAL COMMISSION TO SURVEY PHILIPPINE EDUCATION (PCSFE). This Commission was charged with undertaking a comprehensive review of all levels of the Philippine educational system in order to revise outdated programs and establish more relevant ones. Responsibilities included coordinating the work of education experts and senior researchers who were looking into the area of higher education.

10. SPECIAL ASSISTANT TO THE EXECUTIVE SECRETARY, REPUBLIC OF THE PHILIPPINES (the late Rafael M. Salas, who later became Undersecretary-General of the United Nations and Executive Director of the U.N. Fund for Population Activities). Responsible for undertaking special programs for youth and students (e.g., summer volunteer reforestation projects, physical fitness competitions, etc.), and for keeping the Executive Secretary updated on the concerns of national youth and student groups.

11. SPECIAL ASSISTANT TO THE SECRETARY OF EDUCATION, REPUBLIC OF THE PHILIPPINES. Provided staff assistance to the Secretary of Education in various aspects of his work, but particularly in matters pertaining to the management of the Department of Education, which is the largest national government agency in the Philippines.

12. MANAGING DIRECTOR, CARDONA DEVELOPMENT FOUNDATION. This was a not-for-profit organization engaged in the provision of technical and financial assistance to the livelihood projects of the disadvantaged sectors (small farmers and fisherfolk) of the Municipality of Cardona in the Province of Rizal, the Philippines. Responsibilities included fundraising and tapping volunteer professionals to provide the technical assistance required by the foundation's target population.

13. PROJECT ADVISOR, UNITED NATIONS ECONOMIC AND SOCIAL COMMISSION FOR ASIA AND THE PACIFIC (UN/ESCAP). Provided consultancy services to an all-women group, initially in organizing themselves into a foundation, and subsequently, in the preparation and implementation of a collective livelihood project that was supported by the UN/ESCAP financially.
