Subject: Quarterly Report for Sept 1, 1987 through Jan
31, 1988

The quarterly report is finally ready. Although Dr. Wayne Glidden is no more amongst us, his memory and presence will always be felt. There will be capable men to replace him but they simply won't be Dr. Wayne Glidden. His willingness and dedication to his work and the promotion of education for Afghans were unparalleled. He would always say "This is what I have always wanted to do." All the staff members respected and loved him for his friendly and gracious nature which made this office a real team-office. We hope that we prove to be worthy of his cause and accomplish what he was working for successfully to the end.

6. An examination to select the best teachers from among the ranks of Mujahideen was administered at the ECA for 1,000 applicants. The ECA staff worked hard to tabulate test results and select those who met the standards and needs.
7. A short-bed pick-up provided by USAID as Grant-In-Aid arrived, and was given to the ECA Regional Office in Quetta. It will provide the personnel in Quetta a home-to-office transportation service and be used for movement in and around Quetta.

B. Literacy Program

1. The plan for establishing 598 literacy courses for Mujahideen residing in camps outside Peshawar is finalized.
2. Dr. Abdul Aziz Hamid, a short-term consultant, is working closely with ECA staff on the literacy program and has already completed a workshop for ECA staff to conduct literacy teacher training in camps. These training programs started on January 1, 1988 and continued through January 4, 1988. All 598 courses, with at least 20 students per class, began on January 5th, 1988.
3. A literacy program manual has been developed, see appendix (1) Manual for The Mujahideen Literacy Courses. The preparation of this manual was the result of joint efforts of the ECA staff and Dr. Hamid. The observations and findings of the 1987 literacy program have been reflected in the manual. Copies of the manual were sent to all the heads of the Education Departments of the political parties and those camp commanders who will be serving as literacy-program administrators in their camps.
4. A week-long examination of literacy teachers was administered for candidates from six political parties, one party per day.

The candidates were ranked and those who got the highest scores were selected to go through a teacher training program.
5. Ten, thousand copies of each Dari and Pashto literacy textbook were printed and distributed to the Mujahideen attending the courses.

E. Education Council for the Seven Party Alliance

1. The Education Council is meeting every Sunday morning instead of the usual afternoons to perform its policy and planning function for the ECA. The Council's trip to Quetta to take part in the inauguration of the ECA Regional Office was the high-light of the last quarter. Council members defined the purpose of the new office, what its function should be and held discussions with the individuals assigned by the political parties.
2. The Education Council has completed its process of identifying the second cycle of 660 schools in the summer-vacationing areas and nine south-western provinces of Afghanistan.
3. The members of the Education Council and their respected military representatives or camp commanders have jointly identified the Mujahideen who, after screening and orientation, are assigned as teachers. They have also identified those Mujahideen who will and are attending literacy courses and the number of courses in each camp.

F. Technical Assistance Team Office

1. Dr. Abdul Aziz Hamid arrived in Peshawar on November 20th, 1987 to assume his duties as short-term consultant for the literacy program. Dr. Hamid will continue to work in the area of literacy until March 20, 1988. It is anticipated that the major portion of the literacy training cycle will be completed by then. Dr. Hamid will provide the team a written report along with an evaluation and suggestions for improvement.
2. The second short-term consultant, Dr. Juma Gul Bandawal, is expected on Jan 15, 1988 and will work in the area of primary school teacher training. Dr. Bandawal is scheduled to be here for two months. Dr. Bandawal will plan the month-long training program to prepare educational leaders to support ECA primary schools in Afghanistan. The Education Departments of the political parties are given the task to identify Mujahideen teachers in each of the 20 provinces that are supported from Peshawar. The Mujahideen teachers who are in winter camps around Peshawar will come to the ECA for a month-long teacher training program which will prepare them to go back to Afghanistan to up-grade the quality of teaching and administration of the ECA schools.

6. The AMEG photographer was hired on different occasions to take pictures and make video films. The photographer made an hour-long video of the examination of the Mujahideen applying for teaching position in the literacy program.

G. The Afghan Scholarship Program

The Afghan Scholarship Program is a reality now. The contracts were signed on November 27, 1987, an office rented, furniture purchased and the staff hired. It is an active office with applicants coming through proper channels.

1. The Announcement Letter was sent out by the ECA on December 7, 1987, asking each Party to forward their list of candidates and the completed application forms to the ECA by December 17.
2. Several weeks were spent interviewing candidates, verifying their nominations forms and calling for replacements of candidates who proved not eligible for the program for various reasons. Six parties, excluding Hezb-e-Islami (Khalis) are participating, with a total of 41 candidates.
3. From January 9-13 all candidates attended a 5-day orientation program in preparation for the TOEFL test on January 20. The ASP office administered practice tests, and discussed the general system and structure of the TOEFL with the candidates. Mr. Thomas Gouttierre from the University of Nebraska at Omaha talked to the candidates about the program and answered questions.
4. All candidates were taken to Islamabad on January 19, where they were given further briefing. They took the TOEFL on January 20, administered by the TOEFL Testing Team of the USAID Human Resources Development project. The hand-corrected scores were given to the ASP office on January 21. The highest score was 527 and the lowest 333, (2 candidates fell in the 500 range; 21 in the 400; 18 in the 300.)
5. All candidates will be interviewed by a Screening Committee on January 30 and 31. The Screening Committee will announce their final decision on February 1.

- d. There are schools supported by ECA which are functioning, but at the time of the team's visit had not received the school kits. The computer print-out will, therefore, report these schools as not supported by ECA.
- e. There are still other schools that are receiving assistance from other sources. Not knowing this in advance has caused duplication.
- f. The monitoring teams visiting schools in the nine south-western provinces and the summer vacationing areas of Afghanistan in the spring of this year, will verify the total primary schools supported by ECA in Afghanistan.

3. Analysis of the Findings:

- a. Of the 638 schools kits sent to Afghanistan in July and August, 1987, over 55% have been put into use for the education of children who were deprived of their right to an education and training by the invading forces. As mentioned earlier the team from the province of Kapisa is not back to report on the 31 schools there. The 27 schools in the provinces of Badghees and Ghor will be visited in the spring.
- b. The remaining 45% of the school kits that have not been delivered yet are of concern to the project. However, the second and third phases of monitoring are bringing in additional information, which is useful for the verification of those schools not visited by the previous teams. As additional information becomes available, the payment of school personnel salaries will be processed.
- c. Hezb-e-Islami and Jamiat-e-Islami Afghanistan have sponsored a total of 27 school, 14 and 13 each respectively in Ghor and Badghees provinces from Peshawar. Because of the location of these schools monitoring teams have not been sent there yet, and as a result are not reported in the computer print-outs. The schools in the south-western parts of Afghanistan will be visited this spring. The findings then will give us the total number of schools supported by ECA in operation.
- d. The schools were more or less equally distributed among the six political parties. The appendix (5) "Cross-Border Schools Controlled By Seven Party Alliance", represents the number of schools that

school supplies out of Quetta is a major success for the ECA. Second, sending 597 school kits to Afghanistan to the areas where the first set had not reached. Third, the completed the Monitoring of the schools in 19 provinces of Afghanistan is completed. Fourth, the arrival of Dr. Aziz Hamid, ESSP short-term consultant in the area of literacy, and Dr. Juma Gul Bandawal, consultant in the area of primary school teacher training, has produced favorable results. Five hundred and ninety eight literacy courses in six winter camps for Mujahideen have given over 12,000 adults the opportunity to learn to read and write and become effective fighters. Monitoring the teams' reports provides the project its first comprehensive information on existing schools as well as its first visual documentary of the schools.

APPENDIX (1)

Manual for The Mujahideen Literacy Courses

B. Teaching and Learning

I. Duration of courses and the number of students in each class

1. Courses are held for four months (from 1st of Jadi to the end of Hamal).
2. The minimum number of the class enrollment will be 20 and the maximum 25.

Note: If there are not enough students to meet the minimum of a class, the remaining students will be enrolled in other classes.

3. Literacy classes will be established in only one of the central camps of each party.
4. The courses will be supervised by the Education Center for Afghanistan.

Note: If the staff members of a camp did not facilitate the ECA staff in their respective camps, ECA will avoid the establishment of the literacy courses in that particular camp.

5. Whenever possible and if local conditions permits the literacy courses will be extended inside Afghanistan.
6. If, after establishment a dropout takes place in a class its students will be divided among other classes.
7. Classes will be organized on the basis of the students understanding level.
8. Those persons who can regularly attend the classes and have no other jobs will be enrolled as students in the literacy classes.

ISLAMIC UNITY OF AFGHANISTAN

MUJAHIDEEN

EDUCATION CENTER FOR AFGHANISTAN

IN THE NAME OF GOD, THE MOST BENEFICENT
THE MOST MERCIFUL

Your excellency
Ambassador Woods and honorable guests,

The members of the Education Council of the Islamic Unity of Afghanistan Mujahideen welcome you to Peshawar, the ECA sector of the headquarters of the Alliance.

Let me first of all, on behalf of myself, and the Education Council of the Islamic Unity of Afghanistan Mujahideen, express our sincere gratitude and thanks for the humanitarian assistance extended to us especially in the education sector. Secondly, while we all appreciate very much the assistance, we would like to respectfully attract your attention to the following:

The current struggle of the Afghans the holy Jihad against the Russian aggressors and infidels for the regaining of our rights and freedom is a must. This is the precious jihad by which we can achieve our freedom and reach an honourable peace. This struggle of the muslim Afghan nation routed from a strong faith and belief in Islam, peace and freedom is a fierce blow to the Russian Communism which is the enemy of freedom-loving people everywhere. We should not forget the importance of education for the successful continuation of our struggle. We will need educated manpower for the reconstruction of Afghanistan in near future. Therefore, we will certainly be able to neutralize the Russian colonial propaganda with the help of educated mentality and manpower. So, I would like to bring to your attention one other very important fact. The Russians have sent thousands of Afghan children to Russia to be indoctrinated and educated under Marxist mentors in communist ideologies. With the humanitarian assistance received, very effective and important steps have been taken toward the promotion of educational activities in order to educate the Afghan children inside Afghanistan. Until now, over 1000 primary schools for about 90000 students inside Afghanistan have been approved and established by the education center for Afghanistan in Peshawar and Quetta. Also, we have been able to open nearly 600 adult literacy courses for almost 12,000 adults
