General Notes: The dollar-financed projects listed herein include all projects obligated from FY 1958 allotments as of June 30, 1958. The principal list, covering the first 103 pages of the report, shows for each FY 1958 project by country, field of activity, and function the obligated ICA dollar contribution to the project. Cooperative Service Proposals and Approvals (CSPA's) for FY 1958 are listed with the various FFA's, at the dollar value of obligated ICA contributions to Joint Funds. CSPA's may be identified by the third segment of their project number, which is within the range of 900-905.

The Appendices list FY 1958 projects for which the use of U.S.-owned local currencies was approved. These currencies were generated by the sale of surplus agricultural commodities under Section 402 and Title I of PL 480. The value of the ICA contribution is shown in dollar equivalents of the local currencies. It should be particularly noted that these lists are approved projects and do not necessarily reflect the extent of actual obligations.

Summaries of the funds, by region, function, and country are shown on pages II - V.

An asterisk (*) preceding the project title indicates that both ICA dollars and U.S.-owned local currency have been authorized in FY 1958 for the particular project. Projects so indicated appear both in the principal list and the appendices.

A capital letter in parentheses following the project number means that the project as obligated or approved consists only of the single element indicated, as follows: (P) for Participants, (T) for U.S.-employed Technicians, (CS) for Contract Services, (C) for Commodities, and (OC) for Other Costs.
