

A. I. D.

GENERAL NOTES

The dollar-financed projects listed herein include all projects obligated from FY 1960 allotments, as of June 30, 1960. Amounts obligated from new FY 1960 funds and from reallocations of deobligated prior years' funds are shown separately for each project. Projects with both types of obligations are counted just once in the "Number of Projects" figures. Total obligations shown are gross amounts for FY 1960, as decreases in prior years' obligations are not reflected in this listing. Country totals are in agreement with amounts shown in the Controller's "Country Functional Report" as obligated against FY 1960 allotments.

The principal list, covering the first 120 pages of the report, shows for each FY 1960 project by country, field of activity, and function the obligated ICA dollar contribution to the project. Cooperative Service Contributions for FY 1960 are listed with the various regular projects, at the dollar value of ICA obligations for Joint Funds. These may be identified by the third segment of their project number, which is within the range of 900-905.

The Appendices list FY 1960 projects for which the use of U.S.-owned local currencies was obligated. These currencies were generated by the sale of surplus agricultural commodities under Section 402 and Title I of PL 480. The value of the ICA contribution is shown in dollar equivalents of the local currencies. The obligations shown are in agreement with foreign currency obligations reported by the various missions and represent net obligations for FY 1960 for the projects listed. Dollar equivalents are figured at current rates of exchange. Projects having a net decrease for the year have been omitted.

Summaries of the funds, by region, function, and country are shown on pages II - VII.

An asterisk (*) preceding the project title indicates that both ICA dollars and U.S.-owned local currency have been obligated in FY 1960 for the particular project. Projects so indicated appear both in the principal list and the appendices.

A capital letter in parentheses following the project number means that the project as obligated consists only of the single element indicated, as follows: (P) for Participants, (T) for U.S.-employed Technicians, (CS) for Contract Services, (C) for Commodities, and (OC) for Other Costs.

Capital letters following the dollar value entries indicate the "function" of the obligation, as follows: TC, Technical Cooperation; DS, Defense Support; and SA, Special Assistance.
