Europe	126 - 127

GENERAL NOTES

The projects listed herein include all A.I.D. projects committed during fiscal year 1964.

For each project we have shown the amount of funds obligated during FY 1964, regardless of whether the allotment was from FY 1964 funds or from real-otments of prior years' funds. Decreases in prior years' commitments are not shown as activity in FY 1964. Exceptionally, however, FY 1964 project activity in Latin America if funded from the Program for Social Progress (PSP), is shown on a net basis. Thus, there are some negative figures shown for some projects in FY 1964.

The project list includes Development Loans (Alliance for Progress Loans in Latin America) authorized for projects. The project number for loan authorizations includes, as the second component, a three-digit code denoting field of activity; as do all other projects. Excluded are all non-project programs, including program assistance Development Loans, contributions to the U.N., administrative expenses, etc.

The appendices list FY 1964 projects for which U.S.-owned local currencies were obligated. These currencies were generated by the sale of surplus agricultural commodities under Section 402 and Title I of PL 480. The value of the A.I.D. contribution is shown in dollar equivalents of the local currencies. Dollar equivalents are figured at U.S. Disbursing Officers' rates of exchange for June 30, 1964 as established by the Treasury Department.

DL, SA, DG, PSP: These capital letters following the dollar value entries indicate the appropriation category of funds used for the project, as follows: DL, Development Loan (including Alliance for Progress Loans in Latin America); SA, Supporting Assistance; DG, Development Grants and Technical Cooperation (including Alliance for Progress grants in Latin America); and PSP, Program for Social Progress (for Latin America).
