GENERAL NOTES

The projects listed herein include all A.I.D. projects with funds committed to them during fiscal year 1965.

For each project we have shown the amount of funds obligated during FY 1965, regardless of whether the allotment was from FY 1965 funds or from reallocations of prior years' funds. Decreases in prior years' commitments are not shown as activity in FY 1965.

The project list includes Development Loans (Alliance for Progress Loans in Latin America) authorized for projects. The project number for loan authorizations includes, as the second component, a three-digit code denoting field of activity; as do all other projects. The functional fields of activity in which these projects are classified are those to which the projects are *principally* directed; it is recognized that, in some cases, a project (such as a farm-to-market road) classified in one field may also provide substantial benefits in another. Excluded from this report are all nonproject programs, including program assistance Development Loans, contributions to the U.N., administrative expenses, etc.

The appendices list FY 1965 projects for which U.S.-owned local currencies were obligated. These currencies were generated by the sale of surplus agricultural commodities under Section 402 and Title I of PL 480. The value of the A.I.D. contribution is shown in dollar equivalents of the local currencies. Dollar equivalents are figured at U.S. Disbursing Officers' rates of exchange for June 30, 1965, as established by the Treasury Department.

DL, SA, DG, PSP, CF: These capital letters following the dollar value entries indicate the appropriation category of funds used for the project, as follows: DL, Development Loan (including Alliance for Progress Loans in Latin America); SA, Supporting Assistance; DG, Development Grants and Technical Cooperation (including Alliance for Progress grants in Latin America); PSP, Program for Social Progress (for Latin America); and CF, Contingency Fund.
