MEMORANDUM

TO : AA/ASIA, Mr. Arthur Z. Gardiner, Jr.
DAA/ASIA, Mr. Michael H. B. Adler

FROM : ASIA/RD, Leonard M. Durso

SUBJECT: East Asia Regional Economic Development Program

Attached are two reports summarizing the decisions relating to the phasedown of the Office of Regional Economic Development in Bangkok (TAB A) and to the disposition of RED program responsibilities (TAB B). These reports reflect the general agreement reached between RED and other selected field posts and State/AID. The cable references involved are cited at the end of TAB B.

The "General Note" at the end of the report on the Phasedown of RED, TAB A, is drawn from the State/AID response to the Congress on the GAO report: "U.S. Policy for the East Asia Regional Economic Development Program -- What Should Be Done". As you recall, the response to Congress took the form of identical letters from the State Department's Assistant Secretary for Administration to the chairmen of the Senate Appropriations Committee, House Committee on Appropriations, Senate Committee on Government Operations and the House Committee on Government Operations. Attached at TAB C is a copy of the letter to the Chairman of the Senate Appropriations Committee, dated December 29, 1975.

DEPARTMENT OF STATE

Washington, D.C. 20520

29 DEC 1975

Honorable John L. McClellan
Chairman, Committee on Appropriations
United States Senate
Washington, D.C. 20510

Dear Mr. Chairman:

The State Department and the Agency for International Development have reviewed the report of the Comptroller General of the United States on "U.S. Policy for the East Asia Regional Economic Development Program -- What Should It Be?" In compliance with Section 236 of the Legislative Reorganization Act of 1970 I hereby submit the following comments.

We fully appreciate the efforts of the GAO in studying the East Asia Regional Development Program and their useful suggestions. It is gratifying to know that the report points out that U. S. assistance to this program has "(1) encouraged countries to plan and coordinate programs of regional significance, (2) promoted the development and growth of regional coordinating committees and organizations, and (3) strengthened projects contributing to regional economic and social development."

On two points the report can be up dated. On page 6 the report states that there is an outstanding $5 million loan to Laos for the Nam Ngum Phase II project sponsored by the Mekong Committee and administered by the Asian Development Bank and on the same page the report states that the Department of State and AID are reviewing the question of further support for the Mekong Committee. Since then the loan for the Nam Ngum Dam has been withdrawn. The review of further

We fully accept the report's major recommendation, i.e. that the Secretary of State and the Administrator of AID develop and implement an orderly plan to phase out the East Asia Regional Economic Development program. We regret that the GAO felt that "State and AID... appear unwilling to initiate and implement plans to phase out the program."

In our comments to the draft report we have clearly pointed out that there are no plans at the present time to support new regional organizations and institutions. However, we have existing commitments to certain East Asia regional programs and institutions which will continue to decline until they are completed. We do not believe that the Asian Development Bank or other international financial institutions or organizations can suitably assume these commitments. We have also noted that with the phasing out of U.S. support of the Mekong Development Program, owing to recent events in Indochina, the East Asia Regional Development Program as it has been pursued in the past is in its final stage.

We have also stated that AID was undertaking an in-depth review of the overseas manpower requirements associated with all current and planned regionally funded activities including support for private and voluntary organizations and participant training and that in this review AID will give due consideration to the GAO recommendations. The review was to be completed by the end of this year. We are pleased to report that an analysis of staffing requirements for the responsible management of the residual activities under the Regional Economic Development program has been completed. We have concluded that by June 30, 1976 the Regional Economic Development Office in Bangkok can be substantially reduced from fifteen to four positions (three officers and one secretary). Of course, as requirements for administration of existing commitments decrease

target will depend, in some cases, upon completion of the U.S. field responsibilities involved and in others upon transfer of residual responsibilities to other field posts or the Agency for International Development in Washington, D.C. These matters will have to be worked out over the next several months. Our proposed staffing is the minimum necessary to monitor residual on-going programs and expenditures in accordance with sound management procedures called for by the Congress. The situation of course will be subject to continual review to reflect possible changes in our overall assistance policies in Asia.

We believe that with the development and implementation of this plan we are in full conformity with the letter and spirit of the GAO recommendations.

Sincerely,

(s)
John M. Thomas

EXPLANATORY NOTES

(A) Figures shown in Column 4 indicate the terms of each loan in years, including the years of grace which are shown within the brackets. In respect of loans to national development banks and similar institutions (marked*), repayments to ADB are to be in conformity with repayments by sub-borrowers; the periods indicated against these loans represent maximum period specified in the respective Loan Agreements.

(B) Figures in Column 9 represent the value of procurement contracts entered into by the borrower. That portion of the contract which had been disbursed as of 30 June 1975 has been valued, in terms of U.S. Dollars, on the basis of the Bank's currency translation rates prevailing on the date of the respective disbursements. The undisbursed portion as of 30 June 1975 of contracts has been valued at the rates of exchange adopted by the Bank on 30 June 1975 for the purpose of currency translation. All new contracts since 1 July 1975 have been converted into U.S. Dollar equivalents using the Bank's translation rates prevailing at the time such contracts were first included in the statistics. The U.S. Dollar equivalents thus determined are no longer subject to any adjustment on account of subsequent changes in the Bank's translation rates.

These figures do not include those portions of individual contracts which are not financed by the bank; they also do not include (in case marked**B) the excess of contracts awarded over the loan amount available for financing, i.e., the approved loan amounts less the provision (if any) for capitalization of interest and other charges.

(C) Total value of contracts awarded less the amount for capitalization of interest and other charges which have been charged to the loan account.

(D) Principal repayments shown in this statement represent repayments (including those in advance of the due dates) actually received by the Bank.

(E) In respect of some loans, "interest" in Column 5 of the Statement of Loans from Special Funds Resources includes "service fee". In respect of others, it refers to "service charge".
