<u>Regional Lists of Dollar-Financed Projects</u>	
Far East.....	1 - 20
Near East, Africa, and South Asia.....	21 - 45
Europe.....	47 - 55
Latin America.....	57 - 86
Interregional.....	87
Asian Economic Development.....	88
<u>Appendix - U.S.-Owned Local Currency Projects</u>	
Far East.....	89 - 91
Near East, Africa, and South Asia.....	91
Europe.....	92 - 93
Latin America.....	93

General Notes: The projects listed herein include all documents issued as of June 30, 1956, and received by the Office of Statistics and Reports by September 15, 1956. The principal list, covering the first 88 pages of the report shows for each FY 1956 project by country, field of activity, and function the approved ICA dollar contribution to the project. Cooperative Service Proposals and Approvals (CSPA's) for FY 1956 are listed with the various PPA's, at the dollar value of approved ICA contributions to Joint Funds. CSPA's may be identified by the third segment of their project number, which is within the range of 900-905.

The Appendix lists FY 1956 projects for which the use of U.S.-owned local currencies was approved. These currencies were generated by the sale of surplus agricultural commodities under Section 402 and Title I, of P.L. 480. The value of the ICA contribution is shown in dollar equivalents of the local currencies, and the source of the local currency is indicated.

It should be particularly noted that these lists are approved projects and do not necessarily reflect the extent of actual obligations. Summaries of the funds approved, by region and function, are shown on page ii. These totals may differ slightly from the published June 30 "Blueprint" statements, as the former reflect documentation received by M/S&R through September 15, 1956.

An asterisk (*) preceding the project title indicates that both ICA dollars and U.S.-owned local currency have been approved in FY 1956 for the particular project. Projects so indicated appear both in the principal list and the Appendix.

A capital letter in parentheses following the project number means that the project as approved consists only of the single element indicated, as follows: (P) for Participants, (T) for U.S.-employed Technicians, (CS) for Contract Services, (C) for Commodities, and (OC) for Other Costs.
