GENERAL NOTES

The dollar-financed projects listed herein include all projects obligated from FY 1961 allotments as of June 30, 1961. The obligations shown are gross amounts for FY 1961 for the various projects, as decreases in prior years' obligations are not reflected in this listing.

The principal list, covering the first 116 pages of the report, shows ICA dollar obligations of FY 1961 funds for each project. The projects are arranged by region and country; and within each country by field of activity and type of funds.

The Appendices list each project for which U.S.-owned local currencies were obligated in FY 1961. These currencies were generated by the sale of surplus agricultural commodities under Section 402 and Title I of PL 480. The value of the ICA contribution is shown in dollar equivalents of the local currencies. Dollar equivalents are figured at U.S. Disbursing Officers' rates of exchange for June 30, 1961, as established by the Treasury Department.

Summaries of the funds, by region, function, and country are shown on pages II - VII.

An asterisk (*) preceding the project title indicates that both ICA dollars and U.S.-owned local currency have been obligated in FY 1961 for the particular project. Projects so indicated appear both in the principal list and the appendices.

A capital letter in parentheses following the project number means that the project as obligated consists only of the single element indicated, as follows: (P) for Participants, (T) for U.S.-employed Technicians, (CS) for Contract Services, (C) for Commodities, and (OC) for Other Costs.

Capital letters following the dollar value entries indicate the "function" of the obligation, as follows: TC, Technical Cooperation; DS, Defense Support; and SA, Special Assistance.
