<i>Nonregional:</i> OFFICE OF POPULATION Goal 1: Development of Adequate Demographic and Social Data												
Development of Methodology for Estimating Birth and Death Rates and Population Changes from Interview Data. Research PASA ¹ with National Center for Health Statistics, U.S. Public Health Service. Project 931-17-570-450; RA-1-66.	64 Com- pleted Aug. 1967											
Demographic Studies. PASA ¹ with U.S. Bureau of the Census to prepare a report on the population of Pakistan. Project 946-11-590-735; TCR-3-65.	27 Com- pleted Jan. 1965											
Demographic Methods Handbook. PASA ¹ with U.S. Bureau of the Census to prepare a book on statistical methods which will fill demand by demographers and statisticians and serve as a basic text for training foreign demographers. Project 931-11-570-802; WOH(CA)-7-67.	28	58		8	8	(²)						
Demographic Services. PASA ¹ with International Demographic Statistical Center, U.S. Bureau of the Census, to store, retrieve, tabulate, analyze, and project data, so that analyses of the socioeconomic implications of alternative demographic policies will be based on more accurate projections of available data. Project 931-11-570-810; WOH(CA)-10-68.		17	393	557	766	(²)						
New Florencia Workshop. PASA ¹ with U.S. Bureau of the Census to improve censuses and surveys in less-developed countries (LDC) for the 1970's. Procedural models have been devised for developing countries. These models are used in a worldwide workshop training program to facilitate their incorporation in national programs. Project 931-11-570-808; WOH(CA)-9-68.		15	158	129	204	(²)						
Correspondence Training in Household Sample Surveys. PASA ¹ with U.S. Bureau of the Census to develop and implement correspondence training courses in specialized fields of statistical operations. Project 931-11-570-831; PASA TA(CA)-6-70.				21	134	(²)						

¹Participating Agency Service Agreement.

²Consolidated into Population Data Systems project for fiscal 1972.

OFFICE OF POPULATION--Goal 1--Cont'd.												
Laboratories for Population Studies--Phase I. Contract with University of North Carolina to prepare detailed proposals for establishing two or more population studies laboratories overseas to test population measurement instruments and obtain information under controlled population conditions. Project 931-11-570-825; csd-2161.		61 Phase I Completed										
Laboratories for Population Studies--Phase II. Project 932-11-570-861.												
(a) Task order with University of North Carolina to establish laboratories for population studies in collaboration with academic and research institutions overseas to be administered by local nationals. The laboratories will collect population data and experiment with data collection techniques. Contract csd-2495.			353	208	424	366	58	658				
(b) Grant to establish the Moroccan Demographic Research Center (CERED) in Rabat. PROAG, 608-70-10.				200								
Laboratories for Population Statistics--Phase III. Project 932-11-570-861.												
(a) Contract with University of North Carolina to develop in selected LDC's the institutional capabilities and manpower resources for the application of improved demographic methodology in the collection and analysis of fertility statistics and other demographic data. Contract pha-C-1114.									600	640		802
(b) Grant to the Government of Turkey for supporting local costs of continuing the national Turkish Demographic Survey. PROAG, 4.									159	10	100	
Population Data Systems. Project 932-11-570-966.												
(a) PASA ¹ and RSSA ³ with U.S. Bureau of the Census to support development of adequate demographic and social data by training and advisory services to build LDC data infrastructure; also to provide adequate demographic services to AID's population program. PASA TA(CA)-8-72; RSSA COM/BUCEN 4-75.						2,001	2,456	2,864	2,635	2,372	467	2,057
(b) Contract with National Academy of Sciences to assess the reliability and validity of demographic data of LDCs. Contract pha-C-1161.												200

³Resource Support Service Agreement.

OFFICE OF POPULATION—Goal 1—Cont'd.												
World Fertility Survey. Research grant to International Statistical Institute at the Hague, Netherlands, in support of a program of comparative research to be conducted in conjunction with the 1974 World Population Year. Project 932-17-570-547; csd-3606.						1,043		1,000	1,800	2,098	2,374	
Disease and Demography Survey. PASA ¹ with U.S. Center for Disease Control to develop and test a survey methodology to combine collection of both vital events and incidence of disease in rural areas of countries where health and demographic data collection methods are inadequate. Project 932-11-570-601; PHA(HA)-5-73.							300	352	455	147		
African Data for Decision Making. Contract with National Data Use and Access Laboratories to demonstrate through application of user-oriented computer software the uses of demographic data for decision making and development planning in African countries. Project 932-11-570-606; CM-pha-C-73-18.							798		165			
Population Dynamics in Asia and the Pacific. Grant to East-West Population Institute, University of Hawaii, to establish capabilities within priority Asia and Pacific Basin countries to plan and develop policies and programs to cope with population problems and to reduce fertility. Project 932-11-570-200; pha-G-1058 (prior year funding in East Asia Regional projects, contract ea-32).								926	800	527	200	390
Evaluation of Family Planning Effectiveness. Contract with Community and Family Study Center of the University of Chicago to insure the availability of demographic and program data to relevant LDC organizations and to AID for evaluating the effectiveness of family planning programs. Project 932-11-570-619; pha-C-1108.									140	180		235
Measurement of Demographic Changes. Project 932-11-570-621.												
(a) RSSA ³ with National Center for Health Statistics, Department of Health, Education and Welfare, to improve systems for recording vital events, implement sample registration systems; and utilize data from these systems to measure demographic impact of family planning programs. RSSA HEW/NCHS 4-76.										50	74	297

(b) Contract with University of San Carlos, Philippines, to provide demographic research to the Philippine population program to measure fertility and contraceptive prevalence. Contract 492-1208.												4
(c) Contract with University of the Philippines to provide demographic research to the Philippine population program to measure fertility and contraceptive prevalence. Contract 492-1207.												40
Contraceptive Prevalence Studies. Contract with Westinghouse Electric Corporation to carryout repetitive sample surveys of contraceptive prevalence in selected LDCs with active public and/or private sector family planning programs. Project 932-0624; pha-C-1194.												150
Goal 2: Development of Adequate Population Policy and Understanding of Population Dynamics.												
Study of the Effect of Population Growth on AID Goals. Contract with University of Pittsburgh to prepare a report on the impact of alternative foreseeable population trends upon economic development prospects and assistance needs of less developed countries, utilizing data for Pakistan. Project 946-11-590-735; csd-751.	11 Completed Jan. 1965											
Conference on Population Dynamics. Contract with Johns Hopkins University to orient selected AID personnel in population dynamics. Project 946-11-590-735; csd-833.	13 Completed June 1965											
Multivariate Factors Influencing Fertility. Contract with Harvard University to develop and pretest a questionnaire schedule designed to evaluate the interrelationships of the level of living, fertility behavior, and mortality for use in research project. Project 931-13-570-818; csd-2153.		61		Completed March 1970								
Rationale for Population Policies. Contract with National Academy of Sciences to conduct symposia to explore and define interactions between population change and economic and social development as a basis for developing a comprehensive rationale for appropriate population policies applicable to individual country situations. Project 931-11-570-817; csd-1925.		72	40		Completed July 1971

Development Center Population Project. Grant to Organization for Economic Cooperation and Development (OECD) to help support the operation of the Population Center at the OECD Development Center. Project 932-11-570-827; csd-2166; csd-2782.		109		100			100	50				
Population/Economic Growth Analysis. Contract with General Electric Co. to formulate suitable analytical models to assist AID Missions and host country organizations to analyze consequences of birthrates and other demographic rates. Project 932-11-570-016, and -516; csd-1936; csd-2611; pha-C-1081; pha-C-1173.		110	24					215	757	597	197	569
To provide revision and extension of the basic models and analytical materials. (Task Order No. 1.)				147	Completed Dec. 1971							
To assist Mission in Chile in the application of analytical materials. (Task Order No. 2.)				60	Completed Nov. 1970							
To assist five LDC expert teams in country applications. (Task Order No. 3.)					239	404	195	Completed Oct. 1974				
To carry out in-depth studies on issues raised by model applications. (Task Order No. 4.)					155	Completed Oct. 1972						
To carry out detailed studies to demonstrate the advantages of lower fertility rates. (Task Order No. 5.)						265	Completed Aug. 1973					
To assist six LDC country teams in the application of the model, and to carry out in-depth studies of related issues. (Task Order No. 6.)							429	Completed Nov. 1974

OFFICE OF POPULATION—Goal 2—Cont'd.												
Human Fertility Patterns—Determinants and Consequences. Research contract with Rand Corporation to analyze determinants and consequences of human fertility patterns, for use in formation of AID policy. Project 932-17-570-824; csd-2151.		143										
Improvement of Population Program and Policy Design. Contract with University of North Carolina to analyze and evaluate current systems of delivering family planning services and to test alternative approaches in order to more effectively reach rural populations not yet receiving conventional services. Project 932-11-570-856; csd-2507.			435	1,174			Completed Dec. 1973					
Situation Reports on Population Problems, Policies, and Programs. Contract with California Institute of Technology to establish regional observers and compare the economic and social context of population policies and family planning programs as a sequel to the Rationale for Population Policies contract with National Academy of Sciences. Project 932-11-570-858; csd-2515.			405	398	411		582		225	Completed Nov. 1975		
International Union for Scientific Study of Population. Grant in support of the general conference of the International Union for Scientific Study of Population held at the School of Economics, London, in September 1969. Project 931-11-570-839; csd-2258.			10	Completed May 1970								
The Epidemiology of Outcome of Pregnancy in Diverse Cultures in Selected Countries. Research contract with Johns Hopkins University to conduct epidemiological studies in several countries to ascertain the epidemiology of induced abortions and its relationship to health, fertility levels, fertility control measures, demographic and socioeconomic variables. Project 932-17-570-496; csd-2246.			194			31	Completed Dec. 1973					
Determinants of Family Planning Attitudes and Practices. Research contract with Harvard University to conduct studies of the determinants of fertility patterns and family planning practices as a basis for the formulation and evaluation of policy and program planning. Project 932-17-570-497; csd-2478.			106			15	Completed Sept. 1973

OFFICE OF POPULATION—Goal 2—Cont'd.												
Utilization of Family Planning Services. Research contract with Bowman Gray School of Medicine, Wake Forest University, to ascertain and evaluate factors contributing significantly towards participation in fertility limitation, and those contributing to indifference and to strong resistance to family planning; and to experiment with nonclinical health-oriented models for family planning programs. Project 932-17-586-510; csd-2512.			262		101		1	Completed Sept. 1974				
Law and Population Program. Contract with Fletcher School, Tufts University, to establish a reporting network on legal data, for subsequent publication and distribution, and to undertake studies and seminars that will provide a better understanding of the living law and legal changes as related to several countries. Project 932-11-570-880; csd-2810; pha-C-1095.				640		326			150	300		276
Determinants of Fertility. Research contract with Rand Corporation to develop a general theoretical statement of knowledge of the determinants of fertility, and a set of associated papers that explore elements of the theory from various conceptual, empirical, and policy points of view. Project 932-17-570-517; csd-2533.				326			Completed Dec. 1973					
A Study of Fertility Rates and Earning Capacity of Rural Migrants in Latin America. Research contract with Land Tenure Center, University of Wisconsin, to determine differential fertility rates and earning capacities before and after migration, and between migrants and nonmigrants. The study to be conducted in two Latin American countries. Project 932-17-570-528; csd-2863.					223		77	38	Completed Sept. 1975			
Cross-Cultural Research in Fertility Behavior. Research contract with American Institutes for Research to establish an International Reference Center to collect data on pregnancy termination and to conduct studies into behavioral factors associated with acceptance of new fertility control methods. Project 932-17-580-539; csd-3155.					842	Completed June 1972						
International Seminars on Population Policy Analysis. Task Order issued to National Academy of Sciences, under a Basic Ordering Agreement, to organize approximately six international conferences and produce a book on the subject of population policy analysis. Project 932-11-570-976; csd-3600.						317		Completed March 1974

OFFICE OF POPULATION—Goal 2—Cont'd.												
Analysis and Evaluation of Population Policies and Dynamics. Contract with Smithsonian Institution to administer grants to individual analysts in United States and LDC's for nonbiomedical, noncontraceptive analyses and evaluation. Project 932-11-570-979; csd-3598.						3,930				226		Completed Jan. 1977
Statistical Research on Population Policies. Research contract with Rand Corporation to develop specific and well designed research plans and budgets for country survey research studies. Project 932-17-570-554; csd-3690.						88			Completed March 1975			
Cultural Factors in Population Programs. Contract with American Association for the Advancement of Science to organize working groups of U.S. and LDC anthropologists and other experts to (a) provide LDC policy makers with continuous policy-relevant information concerning the consequences of rapid population growth; and (b) assist family planning program administrators in identifying and modifying cultural factors associated with expansion and improvement of f/p delivery systems. Project 932-11-580-608; CM-pha-C-73-25.							828		126	414		48
Survey of Economic and Demographic Family Behavior. Research contract with Rand Corporation to determine the relationship of fertility with biomedical, institutional, and socioeconomic factors in Malaysia. Project 932-17-570-615; pha-C-1057.								250	221		98	
Research on Fertility Determinants and Consequences. (formerly titled Research on Fertility Determinants). Project 932-17-570-616.									⁴ 253			⁴ 1,218
(a) Contract with Smithsonian Institution to develop stronger empirical basis for the formulation of national population policies in family planning and other action programs. Contract pha-C-1127.									(253)			
(b) Grant to University of Michigan for a research program on female employment and fertility in Peninsular Malaysia. Grant pha-G-1179.												(116)
(c) Grant to University of Texas at Austin for a research program on female status and fertility in Colombia. Grant pha-G-1180.												(75)

⁴Project total. Subprojects are shown in parentheses.

(d) Grant to University of North Carolina for a research program on female status and fertility through analysis of Latin American fertility survey data. Grant pha-G-1181.												(111)
(e) Grant to University of Chicago for a research program on female status and fertility in Southeast Asian countries. Grant pha-G-1183.												(124)
(f) Grant to Research Institute for the Study of Man for a research program on behavior among Mayan Women in Yucatan in relation to demographic change. Grant pha-G-1184.												(125)
(g) Grant to Research Triangle Institute for a research program on determinants/consequences of fertility within the less developed countries utilizing the 1971 Korean household fertility survey data. Grant pha-G-1185.												(120)
(h) Grant to Center for Policy Research for a research program on female employment and fertility in the Dominican Republic. Grant pha-G-1201.												(95)
(i) Grant to East-West Center for Population Institute for a research program on determinants/consequences of fertility involving latest data collected in Indonesia and the Philippines. Grant pha-G-1202.												(88)
(j) Contract with Research Institute for the Study of Man for a research program on determinants/consequents of fertility in Jamaica. Contract pha-C-1171.												(121)
(k) Contract with Cornell University for a research program to explain the variance in levels of fertility decline in Costa Rica. Contract pha-C-1174.												(120)
(l) Grant to Rajshahi University, Bangladesh, for a research program on world view and belief systems in relation to population in Bangladesh. Grant 932-0616-0001. Contract with Dr. Clarence Maloney to serve as study director and principal investigator of research. Contract 388-D-10.												(11)
(m) Grant to the Government of Paraguay for a survey on the socio-economic status of rural women in Paraguay. PROAG. 7.												(4)

OFFICE OF POPULATION--Goal 2--Cont'd.												
Population Policy Analysis. Contracts with University of California, Berkeley, and Battelle Memorial Institute to identify and examine in key developing countries (1) policy and social barriers restricting availability of contraceptives and surgical means of family planning and (2) factors impinging upon status of women, age at marriage and first conception, and other determinants of fertility. Project 932-11-570-635; pha-C-1154; pha-C-1169.											400	1,400
Resources for Awareness of Population Impact of Development. Contract with Futures Group to develop, install and place into operation an interactive computer based filing system for the input and retrieval of existing demographic and socio-economic data on developing countries in order to promote an awareness and common understanding of the relationships between population growth and socio-economic development. Project 932-0637; pha-C-1195.												400
Goal 3: Development of Adequate Means of Fertility Control												
Research on Family Planning--Pathfinder Fund. Contract to carry out collaborative international field studies of IUD performance patterns in 40 countries and to carry out research to develop and study other means of fertility control. Project 932-17-580-478; csd-1573.	194		1,289									
Research for Development of a Once-a-Month Birth Control Pill. Research contract with Worcester Foundation for Experimental Biology to study uterine luteolytic substances and factors which control corpus luteum function. Project 932-17-580-493; csd-2169.		109			99							
Contraceptive Development: A Method to Prevent Pregnancy by Direct or Indirect Antiprogestational Activity. Research contract with Population Council for research in order to develop "a nontoxic and completely effective substance or method that when self-administered on a single occasion would ensure the nonpregnant state at completion of one monthly cycle." Project 932-17-580-512; csd-2491.			3,000

Research into the Corpus Luteum Function. Research ^{PASA} with Center for Population Research, National Institute of Child Health and Human Development, Department of Health, Education, and Welfare, to study ways of controlling the function of the corpus luteum leading towards the development of an effective and safe once-a-month contraceptive. Five major areas of study are being covered in 28 separate activities. These areas include such factors as (1) development of methods, (2) the role of female sex hormones in the initiation and maintenance of early pregnancy, (3) specific areas of control of corpus luteum function, (4) target effects of products of the corpus luteum, and (5) the quantitative description of the menstrual cycle. Project 932-17-580-509; RA(HA)8-69.			51,540	53								
Operation Research for Family Planning Programs. Contract with Columbia University to develop a framework for family planning program evaluation, methods, and indices for components of family planning programs, for application by evaluation units to be established within host country programs upon their request. Project 932-11-580-855; csd-2479; pha-C-1107.			88	182	1,381		241		264	650	150	650
Research on Reversible Sterilization. Research contract with University of North Carolina to explore simpler and more reversible sterilization procedures by (1) undertaking studies on the biologic effects of vasectomy, (2) developing vasoocclusion devices and evaluating them preclinically, and (3) conducting preclinical studies in female tubal occlusion. Project 932-17-580-498; csd-2504.			79		135							
6th World Congress of Gynecology and Obstetrics. Grant in partial support of the 6th World Congress of Gynecology and Obstetrics held in New York in April 1970. Project 932-11-580-870; csd-2577.				94 Completed								
Development of Releasing Factor Inhibitors as Contraceptive Agents. Research contract with Saik Institute to develop a new contraceptive based on the characterization of gonadotrophin-releasing factors and development of substances which interfere with their function. Project 932-17-570-518; csd-2785.				2,255			2,150					
⁵ Includes \$30,000 deobligated in FY 1970.

OFFICE OF POPULATION—Goal 3—Cont'd.												
Development of a Combined Agent for Disease Prophylaxis and Contraception. Research contract with University of Pittsburgh to develop an intravaginal agent, or combination of agents, which will be effective as a contraceptive as well as a prophylactic against infectious diseases. Project 932-17-570-526; csd-2822.				581			138					
Prostaglandin and Other Contraceptive Development Research. Research contract with Worcester Foundation for Experimental Biology to develop prostaglandins as contraceptives; to study the effects of progestins and antiestrogens on fertility, and the development of agents which inhibit the corpus luteum function. Project 932-17-580-520; csd-2837.				2,980								
Research on the Safety of Contraceptive Steroids. Research contract with Southwest Foundation for Research and Education to test the safety in long-term use of contraceptive steroid hormones in a variety of populations. Project 932-17-570-521; csd-2821.				913								
Development of IUD and Controlled-Release Contraceptives. Research contract with Pacific Northwest Laboratories, Battelle Memorial Institute, to develop an improved intrauterine device which is effective and will not cause bleeding, pain, or other side effects. Project 932-17-570-527; csd-2819.				150	495		873					
Third International Conference on Prostaglandins. Grant to New York Academy of Sciences in support of an international conference on prostaglandins held in New York City, Sept. 17-19, 1970. Project 931-11-570-898; csd-2867.					60 Completed							
Studies on the Synthesis of Prostaglandins. Research contract with University of Wisconsin to develop a simplified synthesis of prostaglandins using microorganisms to simplify and reduce the cost of prostaglandin synthesis. Project 932-17-570-532; csd-2965.					227							
International Fertility Research Program. Research contracts with University of North Carolina and International Fertility Research Program to establish an international network of field trial centers to evaluate new methods of fertility control on a comparative basis in a spectrum of countries and cultures. Project 932-17-580-537; csd-2979; pha-C-1172; pha-G-1198.					3,106	1,800		1,500	2,695	3,000		4,245

A Study on Side Effects and Mechanism of Action of Prostaglandins. Research contract with Washington University of St. Louis, Mo., to carry out controled clinical trials on human subjects using prostaglandins as a means of fertility control and to study mechanisms of action of prostaglandins. Project 932-17-570-541; csd-3160; pha-C-1193.					293			128	186	261	50	200
Surgical and Engineering Research on Means of Fertility Control. Research contract with Pacific Northwest Laboratories, Battelle Memorial Institute, to develop simplified techniques for male and female sterilization and improved and simplified techniques and equipment for other means of fertility control. Project 932-17-570-538; csd-3152.					830	198		392	291	266	70	272
Research on Prostaglandins in Relation to Human Reproduction. Research contract with Makerere University, Kampala, Uganda, to further test and develop prostaglandins as a means of fertility control. Project 932-17-570-540; csd-3300.					821		Terminated April 1973					
Program for Applied Research on Fertility Regulation. Research contracts with University of Minnesota and Northwestern University to develop and administer a small grants program for new and improved means of applied fertility research to be carried out by subcontracts in U.S. and overseas institutions. Project 932-17-570-546; csd-3608.						3,350				500	250	1,175
Simplified Techniques of Fertility Control. Research contract with Johns Hopkins Hospital and School of Medicine, Johns Hopkins University, to establish a research program for development and evaluation of simplified fertility control techniques suitable for use in LDC's. Project 932-17-580-548; csd-3627. (See also Goal 6.)						2,674	158			235	68	350
Rapid Diffusion of Population Research Findings. Contract with George Washington University to provide a service of analysis of population information and rapid diffusion of population research findings to individuals working in population programs, particularly in LDC's.
