TAICH COUNTRY REPORT
DEVELOPMENT ASSISTANCE PROGRAMS FOR
ZIMBABWE

February 1981

This report describes the programs of 23 private, non-profit U.S. organizations which provide the people of Zimbabwe with development assistance and material aid. An index of the specific programs appears in chart form at the end of the report. Of the 23 U.S. organizations included in the report, 15 were able to provide TAICH with financial data indicating program expenditures in 1980 totaling \$1,516,057. These figures should be viewed more as indicators than as exact sums; differences in fiscal year, methods of financial reporting and methods of estimating dollar values of commodities, equipment and material shipped make correlation and absolute accuracy impossible.

This is one of a series of periodically revised reports which describe by country the development assistance activities of the U.S. non-profit sector. Additional and new information on the programs of the organizations appearing in this report is gathered regularly and is available from TAICH. Readers are requested to advise TAICH of any changes or new programs of U.S. private, non-profit organizations in Zimbabwe. Besides country reports, TAICH publishes directories, bibliographies, a quarterly newsletter and a series of category reports in which descriptions of assistance programs are compiled by functions of development assistance. A publications list is available from TAICH.

The information given on each organization is based on the data supplied to TAICH by the organization. Publication of this information does not guarantee accuracy of content or endorsement by the American Council or TAICH of any organization.

AMERICAN COUNCIL OF VOLUNTARY AGENCIES FOR FOREIGN SERVICE, INC.
TECHNICAL ASSISTANCE INFORMATION CLEARING HOUSE (TAICH)
200 Park Avenue South, New York, New York 10003

THE AMERICAN COUNCIL OF VOLUNTARY AGENCIES FOR FOREIGN SERVICE, INC. was founded in 1943 for the purpose of providing a forum for cooperation, joint planning and the exchange of ideas and information in order to avoid duplication of effort and assure the maximum effectiveness of the relief, rehabilitation and development programs of American voluntary agencies. Through the mechanism of the Council, member agencies have established relationships not only among themselves but with non-member agencies and governmental, intergovernmental and international organizations. The Technical Assistance Information Clearing House (TAICH) has been operated by the Council since 1955 with support from the U.S. Government, currently a grant from the Agency for International Development. All agencies that are Council members are noted by a +.

THE TECHNICAL ASSISTANCE INFORMATION CLEARING HOUSE serves as a center of information on the socio-economic development programs abroad of U.S. non-profit organizations, including voluntary agencies, church missions and foundations. It makes available to organizations, government, researchers and others, source materials from its files for study and research. Through publications and the maintenance of an everyday inquiry service TAICH responds to the need for current information about development assistance with particular reference to the resources and concerns of the private, non-profit sector.

THE AGENCY FOR INTERNATIONAL DEVELOPMENT (A.I.D.), part of the United States International Development Cooperation Agency, maintains in its Bureau for Private and Development Cooperation a registry of U.S. private and voluntary organizations active in the fields of relief, rehabilitation and development overseas. Registered organizations are eligible to apply for A.I.D. resources, including grants and participation in the U.S. Government overseas freight reimbursement, Food for Peace and Government-owned excess property programs. For a current list of registered organizations write to the Agency for International Development, Office of Private and Voluntary Cooperation, Washington, D.C. 20523. Registered organizations are noted by an *.

Provides support to the Adult Literacy Organization (ALO) whose programs are described below.

EDUCATION: Supports a program of adult functional literacy involving the application of literacy skills to everyday life. Literacy teachers are trained and supervised by the ALO. Forty-three teachers were trained in the first full year of activity; 81 literacy centers are now operating. The program emphasizes literacy in the vernacular with instruction in English given only after skills in the vernacular are acquired. In addition, ALO conducts a demonstration project in eight pilot rural areas using literacy to introduce subsistence farmers to methods of local development including collective savings groups and agricultural extension. In a refugee camp near Salisbury literacy classes resulted in initiating a dressmaking cooperative for women and training men to make cheap roofing sheets from cement and sisal. Nutrition education and vegetable growing projects are also part of the literacy program. In an urban nutrition project an experimental garden has been established on one of the plots combining a deep litter system (using rabbits and poultry) with intensive rotational vegetable growing and a compost heap. Publishes primers in Shona, Ndebele and English, and booklets relating to the community development projects.
