

**ANNOTATED DIRECTORY OF NUTRITION PROGRAMS
IN
DEVELOPING COUNTRIES
1978**

Prepared by the Harvard Institute for Development Studies
for the United Nations 40th Anniversary Conference

Annotated Directory of Nutrition Programs
in
Developing Countries

Prepared by:

James E. Austin
Melanie Mahin
David Pyle
Marian Zeitlin

June 1978

Harvard Institute for International Development
1737 Cambridge St.
Cambridge, Mass. 02138

Guide to the Directory

This Directory has two basic purposes: first, to facilitate communication among nutrition program personnel in different countries, and, second, to provide a reference source for those interested in descriptive data concerning nutrition programming in developing countries.

The Directory includes only a modest portion of the actual number of nutrition programs in operation. The program descriptions were gathered through a mail survey* form sent to private and government organizations operating nutrition projects designed to improve the nutritional status of preschool children. The Directory was able to list only those programs which had returned questionnaires as of the date of publication. The 201 respondents from 66 countries tended to be mostly private, voluntary organizations running relatively small projects. Larger scale, government run programs are underrepresented. Data presented are those submitted by the field projects. No accuracy verification took place.

These limitations notwithstanding, The Directory provides an informative look at a piece of the larger nutrition programming scene. Some of the highlights emerging from a consolidated view of the projects reported in the Directory are:

-95% use health services, the most common form of which was child feeding (66% of 201). Health centers were the most common site (47%), and community health workers the most common type of health personnel used; physicians were the least commonly used.

-91% used nutrition education, the most common form of which was demonstrated (72%); weaning was the most common topic (70%).

-79% used supplementary foods, most commonly from local sources (60%),

* Conducted mainly as part of an HIID research project funded by The United States Agency for International Development (contract TA-C-1314).

- and given to the preschool child (60%).
- 35% used weaning foods.
- 23% used fortified foods.
- 35% used agricultural programs, most commonly (tech.).
- national governments were the most common sources of support (53%).
- 57% indicated the availability of at least some type of evaluation data, most predominantly on nutritional status of target groups (64%); 29% of the sample had program cost data.

A more complete survey of statistics is presented in Appendix I.

The Directory is organized by region (Africa, Asia, Latin America, Middle East) and then alphabetically by country within each region (see Table of Contents). Where multiple projects are reported in a single country, they are arranged alphabetically by project title. To further facilitate the use of the Directory, we have prepared an index of projects according to types of nutrition interventions. This index provides a convenient means for locating projects which utilize particular interventions as well as giving an overview of the type of information which is available. For instance, it indicates those projects in which evaluation data have been collected, and sources of funding. Responses were recorded on them in accordance with a set of abbreviations which are explained in the Glossary.

Transcriptions of information from the questionnaires make up the body of the Directory. We present these transcriptions according to five formulas which were designed to accommodate the varying types of interventions found in the projects surveyed. Information recorded was taken in most cases verbatim from the questionnaires.

This Directory would not have been possible without the collaboration of the contributing projects. We thank participants for working within the necessarily simple format used in the questionnaire. Their willingness to share their experience reflects a commitment to cooperation within the international nutrition community. It is hoped that this Directory will further foster that cooperative spirit.

GLOSSARY

<u>Original Word or Phrase</u>	<u>Abbreviation</u>
Not reported	N.R.
Scope of program:	
pilot -	pilot
research -	resrch.
demonstration -	demon.
action-oriented -	action
intended for expansion -	expand.
intended for duplication -	dup.
Location:	
urban -	urban
rural -	rural
country-wide -	country
states -	states
provinces -	prov.
districts -	dist.
villages -	vil.
Health services provided:	
education -	ed.
feeding -	feed
immunization -	immun.
deworming -	deworm.
weight charts -	wt. chrts.
oral rehydration -	oral rehy.
family planning -	fam. plan.
primary care -	prim.
Health services delivered at:	
hospital -	hosp.
health center -	cntr.
subcenter -	subcntr.
health post -	post
dispensary -	dispen.
village clinic -	vil. clin.
MCH center -	MCH cntr.
family planning clinic -	fam. plan.

mothercraft center -	mothercft.
under-five clinic -	under-5
young child clinic -	yng. ch.
nutrition rehabilitation clinic -	rehab.
school -	school
mobile team -	mobile
home visits -	home
Staff info:	
medical -	med.
paramedical -	paramed.
community worker -	c.h.w.
average -	avg.
years -	yrs.
education -	ed.
Recipient info:	
worker -	wrkr.
families -	fam.
population -	pop.
kilometers -	km.
Nutrition education by:	
radio -	radio
television -	TV
group classes -	group
demonstrations -	demon.
individually -	indiv.
Target group:	
mothers -	mo.
fathers -	fa.
school children -	school
other relatives -	rela.
influentials -	influ.
entire community -	commun.
Topics:	
weaning foods -	weaning
diet during illness -	ill.
hygiene/sanitation -	hyg./san.
balanced diet -	bal. diet
diet in pregnancy -	preg.
diet in lactation -	lac.
kitchen gardens -	kit. grdns.
food preparation -	prep.
food storage -	storage
weight chart interpretation -	wt. chrt.

Delivery site:	
health facility -	hlth. facil.
village -	vil.
home -	home
Supplementary food recipients-	
pregnant women -	preg.
lactating women -	lac.
entire family -	fam.
preschoolers -	presch.
Food beneficiaries selection criterion-	
socioeconomic class -	class
"at risk" -	at risk
nutritional status -	nut. stat.
Weaning foods preparation method:	
requires cooking -	cooking
ready-to-eat -	r-t-e
dry -	dry
mixed with water -	mix. w/water
mixed in soup or other food -	mix. w/other
Nutritional information:	
contains -	con.
calories -	cal.
grams -	gm.
protein -	prot.
dry weight -	dry wt.
Cost:	
packages -	pack.
grams -	gm.
kilograms -	kg.
Marketing method -	
subsidized rate -	subsidy.
at institutions -	inst.
commercial market -	market
Fortified food:	
enriched with -	enr. w/
fortificant -	fortif.
Marketing method -	
(same as for weaning foods)	
Agricultural programs -	
hybrid seed -	hybd.
irrigation -	irrig.

improved techniques -	tech.
changing cropping pattern -	crop. ptrn.
high protein cereal -	cereal
poultry raising -	poultry
fish ponds -	fish
Implementers:	
extension workers -	exten.
research group -	resrch.
community -	commun.
Source of support:	
national government -	natl.
state/provincial government -	st./prov.
UN agency -	UN
bilateral agency -	bilat.
voluntary agency -	vol.
missionary group -	mission.
private donors -	priv.
community -	commun.
fees -	fees
Evaluation data:	
participation -	partic.
knowledge/awareness -	knowl./awr.
attitude change -	attit.
behavioral change -	behav.
nutritional status -	nut. stat.
morbidity/mortality -	morbd./mortl.
cost -	cost

HARVARD UNIVERSITY

PRESCHOOL CHILD NUTRITION PROGRAM DIRECTORY CHECKLIST

TEL. (617) 495-3754
 CABLE ADDRESS: IHID
 TWX No.: 7103200315

Respondent's name and address: _____ Date: _____

Note: Please fill in a separate form for each nutrition program and check or fill in all of the items that describe the program or project. While not all questions will be applicable to your program, some will require multiple checks. If more space is required, feel free to use an additional sheet. We plan to publish the directory by the end of the year; therefore, we hope to receive your answer within the next month.

Title of Nutrition Program or Project _____

Program Director _____ Address _____

Other persons to contact for information _____

1. Program began 19__, and ended 19__, is planned to continue until 19__, indefinitely ().
2. Stage of development is limited operational (), fully implemented ().
3. Total target population is _____; approximate number reached or participating is _____
4. Type of program:
 - pilot ()
 - research ()
 - demonstration ()
 - action-oriented ()
 - intended for expansion ()
 - intended for duplication ()
 - part of broader program in:
 - health services ()
 - family planning ()
 - agricultural extension ()
 - subsidized food ()
 - commercial food products ()
 - other _____
5. Location:
 - urban ()
 - rural ()
 - country-wide ()
 - in _____ states
 - in _____ provinces
 - in _____ districts
 - in _____ villages
- 6a. Health services provided:
 - education ()
 - feeding ()
 - immunization ()
 - deworming ()
 - weight charts ()
 - oral rehydration ()
 - family planning ()
 - primary care ()
 - other _____
- 6b. Health services delivered at:
 - hospital ()
 - health center ()
 - subcenter ()
 - health post ()
 - dispensary ()
 - village clinic ()
 - MCH center ()
 - family planning clinic ()
 - mothercraft center ()
 - under five clinic ()
 - young child clinic ()
 - nutrition rehab. clinic ()
 - school ()
 - mobile team ()
 - home visits ()
 - other _____
- 6c. Most numerous group delivering services at lowest level are:
 - medical ()
 - paramedical ()
 - community worker ()
- 6d. Each worker checked in #6c serves _____ families _____ population who live within _____ km. This level worker has:
 - no education ()
 - 1 - 3 years ()
 - 4 - 6 years ()
 - 7 - 12 years ()
 - more than 12 ()
- 7a. Nutrition education by:
 - radio ()
 - television ()
 - group classes ()
 - demonstrations ()
 - individually ()
 - Directed mainly to:
 - mothers ()
 - fathers ()
 - school children ()
 - other relatives ()
 - influentials ()
 - entire community ()
- 7b. Topics include:
 - weaning foods ()
 - diets during illness ()
 - hygiene/sanitation ()
 - balanced diet ()
 - diet in pregnancy ()
 - diet in lactation ()
 - kitchen gardens ()
 - food preparation ()
 - food storage ()
 - weight chart interpretation ()
- 7c. Nutrition education delivered at:
 - health facility ()
 - village ()
 - home ()
 - other _____
- 7d. Usual schedule is:
 - monthly ()
 - weekly ()
 - daily ()
 - during health visits ()
- 8a. Supplementary food is:
 - local ()
 - imported ()
 - PL 480 ()
 - Foods used are: _____
- 8b. Foods are distributed:
 - on-site ()
 - take-home ()

PLEASE TURN OVER

221

- 8c. Food is given to:
 pregnant women ()
 lactating women ()
 entire family ()
 preschoolers - ()
 age _____ to _____
- 8d. Food beneficiaries are selected by:
 socioeconomic class ()
 "at risk" ()
 nutritional status () below what standard _____

9. Name of new or commercial weaning food is _____. Its main ingredients are _____. It requires cooking (), or is ready to eat (), dry (), mixed with water (), mixed in soup or other food (). It contains _____ calories and _____ gm protein per 100 gms dry weight, and is sold in packages of _____ gms or _____ kgs at a cost of \$(U.S.) _____ per package. The traditional weaning food is _____ for which the average low income family spends approximately \$(U.S.) _____ per day to feed a 12-month old infant. Low income population's staple food is _____, costing \$(U.S.) _____ per kg. Weaning food is distributed at subsidized rate (), at institutions (), commercial market ().

10. Fortified food is _____, enriched with _____. The fortificant is indigenous (), or imported (), adds _____% to the cost of the food, and is distributed at a subsidized rate (), through institutions (), commercial market ().

- | | | |
|---|--|--|
| <p>11a. Agricultural program increases yields by:
 hybrid seed ()
 irrigation ()
 improved techniques ()
 improves diet quality by:
 changing cropping pattern ()
 high protein cereal ()
 poultry raising ()
 fish ponds ()</p> | <p>11b. Farmers consume part of increment in production ().</p> <p>11c. Project run by:
 extension workers ()
 research group ()
 community ()</p> | <p>12a. Approximate cost per recipient per year of goods and services is closest to:
 \$(U.S.) 50 ()
 25 ()
 10 ()
 5 ()
 2 ()
 1 ()</p> |
|---|--|--|

- | <p>12b. Source of support:
 national government _____%
 state/provincial govt. _____%
 UN agency _____%
 bilateral agency _____%
 voluntary agency _____%
 missionary group _____%
 private donors _____%
 community _____%
 fees _____%
 other _____%</p> | <p>13. Evaluation data measure impact of project against control (), baseline (). Present status of data: (match 1st and 2nd columns)</p> <table border="0"> <thead> <tr> <th style="text-align: left;"><u>data concerning</u></th> <th style="text-align: left;"><u>status</u></th> </tr> </thead> <tbody> <tr> <td>a) participation</td> <td>_____ does not exist</td> </tr> <tr> <td>b) knowledge/awareness</td> <td>_____ has been analyzed</td> </tr> <tr> <td>c) attitude change</td> <td>_____ exists but not analyzed</td> </tr> <tr> <td>d) behavioral change</td> <td>_____ will be analyzed within year</td> </tr> <tr> <td>e) nutritional status</td> <td>_____ could be collected with-</td> </tr> <tr> <td>f) morbidity/mortality</td> <td>_____ out great difficulty or cost</td> </tr> <tr> <td>g) cost</td> <td></td> </tr> </tbody> </table> | <u>data concerning</u> | <u>status</u> | a) participation | _____ does not exist | b) knowledge/awareness | _____ has been analyzed | c) attitude change | _____ exists but not analyzed | d) behavioral change | _____ will be analyzed within year | e) nutritional status | _____ could be collected with- | f) morbidity/mortality | _____ out great difficulty or cost | g) cost | |
|--|--|------------------------|---------------|------------------|----------------------|------------------------|-------------------------|--------------------|-------------------------------|----------------------|------------------------------------|-----------------------|--------------------------------|------------------------|------------------------------------|---------|--|
| <u>data concerning</u> | <u>status</u> | | | | | | | | | | | | | | | | |
| a) participation | _____ does not exist | | | | | | | | | | | | | | | | |
| b) knowledge/awareness | _____ has been analyzed | | | | | | | | | | | | | | | | |
| c) attitude change | _____ exists but not analyzed | | | | | | | | | | | | | | | | |
| d) behavioral change | _____ will be analyzed within year | | | | | | | | | | | | | | | | |
| e) nutritional status | _____ could be collected with- | | | | | | | | | | | | | | | | |
| f) morbidity/mortality | _____ out great difficulty or cost | | | | | | | | | | | | | | | | |
| g) cost | | | | | | | | | | | | | | | | | |

14. The community is actively involved () in the following manner: _____

15. Particularly successful features of this program are: _____

16. Ways this program could be improved: _____

17. For the purposes of preparing a manual on preschool child nutrition programs, we would like to arrange to receive additional operational and impact data from those projects which have such data available. Would this project be interested in exploring the possibility of providing additional information for appropriate remuneration? Yes (), No (). Since much of this additional data may be already published or of a general and public nature, outside authorization for its release probably will not be required. In cases where such authorization is required, however, we should not delay in applying to the proper channels. Additional authorization for release of data would not be required (). Authorization would be required (), and the agency, person to contact and address is as follows: _____

18. Please list any other projects which, in your opinion, should be included in the directory:

<u>Project</u>	<u>Person to Contact</u>	<u>Address</u>
_____	_____	_____
_____	_____	_____

19. We would very much appreciate any reports or published material on the project covered in this checklist. All mailing costs will be reimbursed.

Thank you.
