## PREPARATION OF THE BIBLIOGRAPHY

This bibliography was compiled to assist Peace Corps Volunteers in the Philippines and Papua New Guinea, who trained at the University of Rhode Island, Summer 1981, in locating information relevant to their work in Marine Fisheries. The selected sources emphasize practical mission-oriented information in the major subject areas important to successful fisheries development. The entries are arranged alphabetically by author within these subject categories.

Most of the publications included in this paper are found either in the ICMRD Library collection, or in the general and special collections of the University of Rhode Island Libraries. The following indices were searched for additional related materials:

AID Research and Development Abstracts - 1977-July 1981.

Aquatic Sciences and Fisheries Abstracts - 1976; 1978-1980.

Development Index - 1975-1981.

NTIS Published Searches:

Fisheries Economics: General Studies, 1970 to Feb. 1981.

Fisheries Economics: Marketing, 1964 to Feb. 1981.

Oceanics Abstracts - 1980-Sept. 1981.

The total number of pages of each publication is noted at the end of the entry, when that information is known.
