TAICH COUNTRY REPORT
DEVELOPMENT ASSISTANCE PROGRAMS FOR
SWAZILAND

February 1982

This report describes the programs of 25 private, non-profit U.S. organizations which provide the people of Swaziland with development assistance and material aid. An index of the specific programs appears in chart form at the end of the report. Of the 25 U.S. organizations included in the report, 10 were able to provide TAICH with financial data indicating program expenditures in 1981 totaling \$351,728. These figures should be viewed more as indicators than as exact sums; differences in fiscal year, methods of financial reporting and methods of estimating dollar values of commodities, equipment and materiel shipped make correlation and absolute accuracy impossible.

This is one of a series of periodically revised reports which describe by country the development assistance activities of the U.S. non-profit sector. Additional and new information on the programs of the organizations appearing in this report is gathered regularly and is available from TAICH. Readers are requested to advise TAICH of any changes or new programs of U.S. private, non-profit organizations in Swaziland. Besides country reports, TAICH publishes directories, bibliographies, a quarterly newsletter and a series of category reports in which descriptions of assistance programs are compiled by functions of development assistance. A publications list is available from TAICH.

The information given on each organization is based on the data supplied to TAICH by the organization. Publication of this information does not guarantee accuracy of content or endorsement by the American Council or TAICH of any organization.

AMERICAN COUNCIL OF VOLUNTARY AGENCIES FOR FOREIGN SERVICE, INC.
TECHNICAL ASSISTANCE INFORMATION CLEARING HOUSE (TAICH)
200 Park Avenue South, New York, New York 10003

THE AMERICAN COUNCIL OF VOLUNTARY AGENCIES FOR FOREIGN SERVICE, INC. was founded in 1943 for the purpose of providing a forum for cooperation, joint planning and the exchange of ideas and information in order to avoid duplication of effort and assure the maximum effectiveness of relief, rehabilitation and development programs of American voluntary agencies. Through the mechanism of the Council, member agencies have established relationships not only among themselves but with non-member agencies and governmental, intergovernmental and international organizations. The Technical Assistance Information Clearing House (TAICH) has been operated by the Council since 1955 with support from the U.S. Government, currently a grant from the Agency for International Development. All agencies that are Council members are noted by a +.

THE TECHNICAL ASSISTANCE INFORMATION CLEARING HOUSE serves as a center of information on the socio-economic development programs abroad of U.S. non-profit organizations, including voluntary agencies, church missions and foundations. It makes available to organizations, governments, researchers and others, source materials from its files for study and research. Through publications and the maintenance of an everyday inquiry service TAICH responds to the need for current information about development assistance with particular reference to the resources and concerns of the private, non-profit sector.

THE AGENCY FOR INTERNATIONAL DEVELOPMENT (A.I.D.), maintains in its Bureau for Food for Peace and Voluntary Assistance a registry of U.S. private and voluntary organizations active in the fields of relief, rehabilitation and development overseas. Registered organizations are eligible to apply for A.I.D. resources, including grants and participation in the U.S. Government overseas freight reimbursement, Food for Peace and Government-owned excess property programs. For a current list of registered organizations write to the Agency for International Development, Office of Private and Voluntary Cooperation, Washington, D.C. 20523. Registered organizations are noted by an *.

Church World Service supports the program of the Council of Swaziland Churches described below.

MEDICINE & PUBLIC HEALTH: The Rural Water Supply (RWS), a quasi governmental agency responsible for water development, has limited its activities to urbanized areas due to limited resources; as a consequence, groups in rural areas are not served. In response to a RWS request, the Council of Swaziland Churches has established a micro system water unit to evaluate requests for assistance with micro water systems; help to mobilize community participation; provide materials and construction assistance; and provide followup assistance for maintenance. Projects include spring protection, shallow hand-dug wells, rain pumps, boreholes and the laying of water pipes. The goals of the unit are to improve the level of health; provide water sources nearer homesteads to help alleviate the burdens of overworked women; promote the development of community cooperation; and encourage the raising of vegetables for improving diets in communities where sufficient water has not previously been available for gardens.
