4/30/84

Bureau for Near East  
Office of Project Development  
Office of Technical Support

**Project/Program Development  
Approval by Fiscal Year**

**Project Development Report No. 41**

**Date: April 30, 1984**

Bureau for Near East  
Agency for International Development  
International Development Cooperation Agency  
Washington, D. C. 20523

This report covers loans (L) and grants (G) scheduled for authorization in fiscal years 1984 and 1985 in the Middle East, North Africa and Southern Europe that are managed by the Near East Bureau.

Included in the report is the project description indicating requirements for goods and services, and comments concerning contracting activities for projects/programs that are planned for approval during FY 84 and FY 85. The dollar amount, implementing agency and, as appropriate, contractor(s) are also listed for each project activity. It should be noted that procurement of goods and services may not occur for several months after project approval and contractors/suppliers are encouraged to review the Commerce Business Daily for advertisement of upcoming opportunities.

It is hoped that you will find this report useful. In the event that additional information is desired, the Chairperson for each project activity may be contacted on the number listed after each project, preceded by area code (202).

DATE: April 30, 1984

STATUS OF PROJECT/PROGRAM DEVELOPMENT

FISCAL YEARS 1984 and 1985

ABBREVIATIONS

G	- Grant
L	- Loan
OPG	- Operating Program Grant
HG	- Housing Guaranty
FY	- Fiscal Year
PID	- Project Identification Document
PP	- Project Paper
PSC	- Personal Services Contract
RFP	- Request for Proposal
RFTP	- Request for Technical Proposal
RFQ	- Request for Quotation
LOP	- Life of Project
PIO/T	- Project Implementation Order/Technical Services
IQC	- Indefinite Quantity Contract
PASA	- Participating Agency Services Agreement
IFB	- Invitation for Bid

Minerals, Petroleum Groundwater  
Assessment (263-0105)

The purpose of this project is to improve the organization of current data on potential mineral and petroleum resources and groundwater necessary for development, compile reports on newly surveyed areas of potential mineral, petroleum and related groundwater resources, and develop GOE institutional capacity to acquire, analyze and disseminate data on potentially commercial mineral and petroleum resources. Inputs: Technical assistance, equipment, materials, and vehicles.

Contractors: Bendix Field Engineering Corporation; Dr. David Snow (PSC)

Chairperson: M. Sinding  
NE/PD 632-9735

Technical Assistance: A Personal Services Contract with senior geologist, Dr. David Snow, to serve as A.I.D. Project Coordinator through June 9, 1985 has been signed. A contract was signed by Bendix Field Engineering Corporation to provide technical assistance for minerals, groundwater and remote sensing through June 14, 1986.

Equipment/Material: A Project Implementation Order/Commodities (PIO/C) is under preparation for the required equipment and materials.

Anticipated Procurement Activities: Vehicles will be procured through the General Services Administration (GSA).

Evaluation: Mid-term evaluation will be performed by three to four person contract team.

--	------	---	---

To provide financial and technical resources to supply farmers with new technologies and develop support institutions that provide critical factors of production. By the initial year of this new activity there will be a number of deliverable research & technical packages in such areas as rice and other major cereals, legumes, water use and management, mechanization, fish culture, credit and cooperative systems. Each of these is supported by existing discrete undertakings with a variety of ministries and agencies and each includes some delivery components. Inputs: Technical assistance, training, agriculture production commodities, equipment.

Chairperson: G. Bittner  
NE/TECH 632-9262

Anticipated Procurement Activities to Implement the Project: Technical assistance may be required in the areas of training, financial management and institution building.

12)                      1984                      LOP    70.0(G)    Cairo Wastewater II (263-0173)

FY84    70.0

This program will finance follow-on activities to current efforts to expand and improve wastewater systems in Cairo; an emphasis will be placed on collection, and activities are expected to be concentrated in the West Bank, beginning in Giza. In addition, support activities, such as training and institutional development, are anticipated.

Chairperson: M. Sinding  
NE/PD 632-9734

Once the program has been better defined, contracting opportunities are anticipated for design, commodity procurements, construction, and supervision, as well perhaps as construction management.

13) Organiza- tion for the Recon- struction of Egyptian Villages	1984	LOP 525.3(G) FY84 166.0	<u>Decentralization Sector Support (263-0161)</u>	
---	------	----------------------------	---	--

Six Decentralization Project activities are grouped into a single assistance mode in order to establish a functioning national system of decentralized decision and budget processes for local development. This assistance mode is designed to help the GOE achieve its policy objective of economic and administrative decentralization. Each project activity in this decentralization portfolio has a discrete lower case activity purpose consistent with the over-all purpose and program goal of achieving economic and administrative decentralization. Inputs: Technical assistance, training, commodities.

Chairperson: J. Nandy  
NE/TECH 632-4014

Evaluation: USAID completed a detailed Decentralization Sector Assessment which evaluated the past and potential impact of this program. An update of the Sector Assessment will be done in May 1984.

on Basic  
Village  
Services

1984 LOP 220.0(G)  
FY84 80.0

Decentralization Sector Support:  
Basic Village Services (263-0161.2)

Provides in rural villages in 20 governorates for the construction of small infrastructure projects, such as potable water systems, feeder roads, groundwater and sanitary drainage, abattoirs, and the lining of canals. The primary intent of the project is to strengthen the network of administrative/management processes and skills at village, district, and governorate levels in all participating governorates. Particular emphasis is placed on the involvement of the elected village councils. By the end of the project the choice and implementation of all sub-projects should be done at the village council level. This activity is funded from both ESF grant assistance and PL 480 Food for Peace Title III programs.

Contractors: Chemonics Int'l.,  
Certainteed Corporation

Chairperson: J. Grayzel  
NE/TECH 632-0488

Technical Assistance: A.I.D. contract provides technical and management assistance in monitoring and training.

Equipment/Material: Award for the procurement of water pipes was made to Certainteed Corporation.

Evaluation: Evaluation was conducted in February/March by a mixed team of PSC, AID/W and local PSCs as part of overall decentralization sector assessment.

18) Ministry of Health (MOH)	1985	LOF 102.6 FY85 10.0	Population/Family Planning II (263-0144)	
------------------------------------	------	------------------------	---	--

To assist the GOE in strengthening family planning services nationwide thereby increasing the number of couples actively practicing family planning. Since 1977 (under Family Planning I), this project has provided population program assistance in the areas of contraceptive supply, administrative support, information, education and communication, training and family planning service delivery programs in urban and rural areas. Sub-activities showing the most promising results are being expanded and improved in FYs 83 and 84. These include the private sector's social marketing program, the Family of the Future and the community based integrated social service and family planning program. FY 84 funds will be used to assist the MOH plan and implement a vigorous rural family planning campaign through its public health facilities, as well as continued support for physician and clinic staff training in family planning. The project is also providing assistance to CAPMAS for demographic data development and support for the 1986 household census. Inputs: Technical assistance, training and commodities.

Chairperson: L. Slobey  
NE/TECH 632-9202

Technical Assistance: Technical assistance will be required for the following: a) The Academy for Educational Development will assist the State Information Service for 24 person-months in the area of information, education and communication; b) The U.S. Census Bureau is assisting CAPMAS plan for the 1986 census; c) Triton Corporation will continue to assist the FOF contraceptive retail sales project for at least one more year; d) Assistance provided to the MOH for design of family planning outreach programs; and e) Operational support grant provided to the American University of Cairo to assist with integrated community social and family planning services delivery projects.

LEBANON

7) Ministry of Posts and Telecommunications (P&T)	1984	LOP 15.0 (G) FY84 15.0	<u>Telecommunications Rehabilitation Phase II (268-0329)</u>
---	------	---------------------------	--

This is a follow-on to Phase I project. This supplementary effort will encompass the rehabilitation and restoration of telecommunications services to areas of Lebanon outside of Beirut serving the residents, commercial and industrial activities and governmental operations at all levels. A portion of the effort will be devoted to strengthening the institutional capability of the P&T in the planning, operational, maintenance and commercial areas.

Chairperson: A. Hotvedt  
NE/PD 632-8262

Construction: It is planned to expand the scope of work of the present outside telephone plant contractor, Federal Electric International, Inc., to permit completion of the rehabilitation effort of telephone exchange areas which the survey revealed had greater damage than was initially estimated.

Other Construction: A detailed survey is planned of the exchange areas of Sidon and Tyre, and possibly Nabatiyeh. Following assessment of the survey findings, a rehabilitation contract will be let to restore services.

Equipment/Materials: The contractor will supplement the resources of the P&T and procure materials needed to accomplish the task.

Consulting Services: A contract will be awarded to a U.S. firm to provide technical and management assistance to the Ministry in its planned transition to an autonomous government corporation.

NOTE: Action on this effort temporarily suspended due to security situation.

5) Ministry of Agriculture and Fisheries (MAF)	1984	LOP 14.4(G) FY84 1.8 FY85 1.7	Agriculture Development Support: Horticulture Improvement and Training (279-0052.4):	
--	------	-------------------------------------	--	--

To institutionalize within the MAF expanded and improved capacity to support increased fruit production through extension, plant protection, and delivery of disease-free plant stock for improved fruit varieties to selected parts of the fruit subsector which comprises large numbers of small farmers.

Contractor: Consortium for International Development (CID) (Lead University: California State Polytechnic University)

Chairperson: A. Hogan  
NE/TECH 632-8609

Technical Assistance: Provided by CID with California State Polytechnic University as the Lead University. A number of positions remain to be filled.

Construction: The project will construct two horticulture improvement and training stations - Jarouba and Al Irra. The station at Jarouba will be developed at an existing horticulture facility, and will consist of renovating the existing facilities where called for and the construction of other facilities as appropriate. The Al Irra station is a new facility. Construction at Al Irra began in August and is nearing completion. The irrigation system is virtually complete. Construction at Jarouba was slated to begin October/November 1983 and is slightly behind schedule. YARG has recently completed construction of a road which links Jarouba to the main Hodeidah/Taiz Artery. This road is 12 kilometers in length and provides year round access to the station.

5) Government of Egypt (GOE) and Government of Israel (GOI)	1984	LOP 5.0 (G) FY84 1.0	<u>Arid Lands Research (298-0170)</u>
---	------	-------------------------	---------------------------------------

The project will support U.S. efforts to foster regional cooperation and development between Egypt and Israel through the involvement and interaction of their scientists conducting agricultural research on the use and management of saline water for crop production, fodder development and utilization, and arid land plant species as a source of industrial raw materials. Inputs: Technical assistance, commodities and training.

Prime Contractor: San Diego State University Foundation (SDSUF)

Chairperson: G. Bittner  
NE/TECH 632-9262

Contracting Activities

Technical Assistance: Procurement of technical assistance consultants and specialists services performed directly by SDSUF as scheduled in the project proposal. No subcontracting.

Equipment/Materials: U.S. procurement of commodities and equipment handled directly by SDSUF. Local procurement of these items in Israel and Egypt handled by host country entities under subrecipient agreements.

Evaluation: Internal evaluations incorporated into original project proposal to be performed by SDSUF and host country project personnel. External mid-term and final evaluation to be performed by AID direct hire or contract consultants.
