# Directory of Former Peace Corps Employees

---

Now Working for the  
Agency for International Development

---

December 1, 1981  
Washington, D.C. 20523

At a time of budget stringency, which confronts all Federal agencies, it is particularly important that we assure complementarity in programs between AID and Peace Corps--the two Federal agencies charged most directly with assisting Third World countries in identifying and addressing their development needs. This register is one of several steps being taken to enhance the collaboration at the field level between AID and the Peace Corps. It will be a mechanism by which AID offices not familiar with Peace Corps can access individuals with direct knowledge of the Peace Corps system.

In May 1981 a cable went out to all AID Missions requesting information on projects where PCVs were involved either informally or formally. Responses were encouraging and it was gratifying to learn that in some 30 countries PCVs routinely, but informally, participate in a large percentage of the projects.

In September of this year Peace Corps Director, Loret Kuppe and AID Administrator, Peter McPherson signed a new interagency agreement for participation in the Peace Corps Fellows program, thus renewing our resolve to maximize joint efforts and creatively respond to doing "more with less."

It is in this spirit of promoting cooperation and cognizance of AID/PC compatibility that we have compiled this directory. We hope it will be of interest and value.

NOTES

Mission addressees may be reached at: USAID/(Mission Location)  
Department of State  
Washington, D.C. 20523

Additions, deletions, or corrections may be made to: Nancy Greaves, PPC/PB/CPA  
Room 3749  
New State
