Overview of A.I.D. Population Assistance

Overall - FY 1988
Office of Population - FY 1988 - FY 1989

Office of Population
Agency for International Development
August 1989

**A.I.D. Population Assistance
FY 1988**

In FY 1988, the Agency for International Development spent \$247 million for its worldwide population and family planning assistance activities.

Of this total, \$210 million was spent to provide population assistance in 100 developing countries in the three A.I.D. regions: Africa, Asia and the Near East, and Latin America and the Caribbean. Another \$24 million financed research, demographic surveys, policy development, and other interregional and worldwide population work. The remaining \$13 million represents centrally-funded purchases of contraceptive commodities.

The funding for this worldwide population assistance comes from a variety of A.I.D. accounts, and the projects themselves are administered by various parts of the Agency -- approximately half by the central Office of Population (S&T/POP), and the remainder by the USAID Missions and Regional Bureaus. This report attempts to bring together data from all these sources, giving a country-by-country picture of A.I.D.'s overall population assistance.

In FY 1988 A.I.D.'s population account provided most of the funding for population activities, with substantial amounts also coming from the Development Fund for Africa and the Economic Support Fund. The remaining FY 1988 population expenditures were financed by the Sahel Development Fund and, in a few instances, by A.I.D.'s Health and Child Survival accounts.

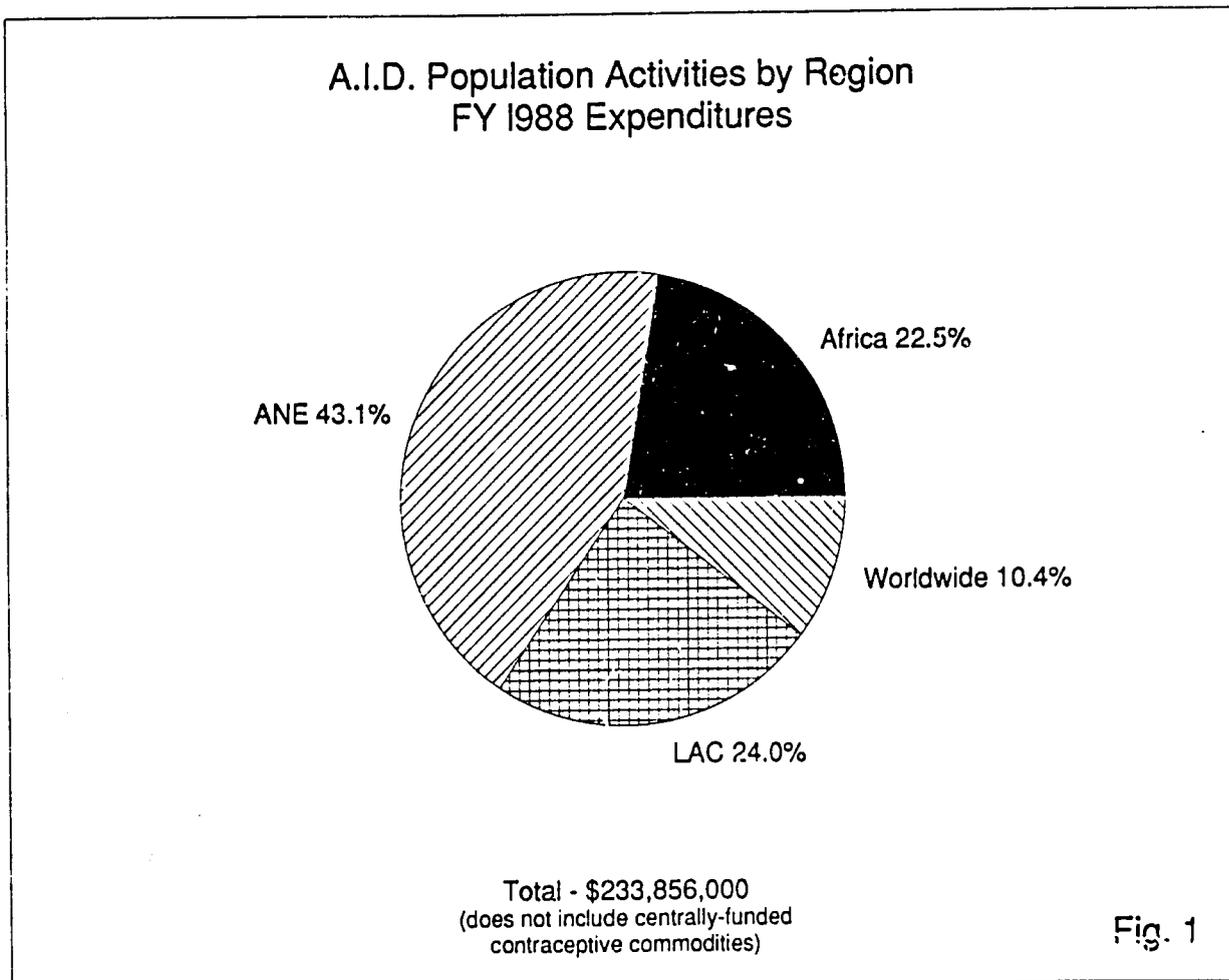

The A.I.D. Missions and Regional Bureaus supplied 51 percent of the Agency's total population expenditures in FY 1988 (see Table 1). The central Office of Population provided the remaining 49 percent.

Table 1
A.I.D. Population Assistance by Region
FY 1988 Expenditures (in \$000s)

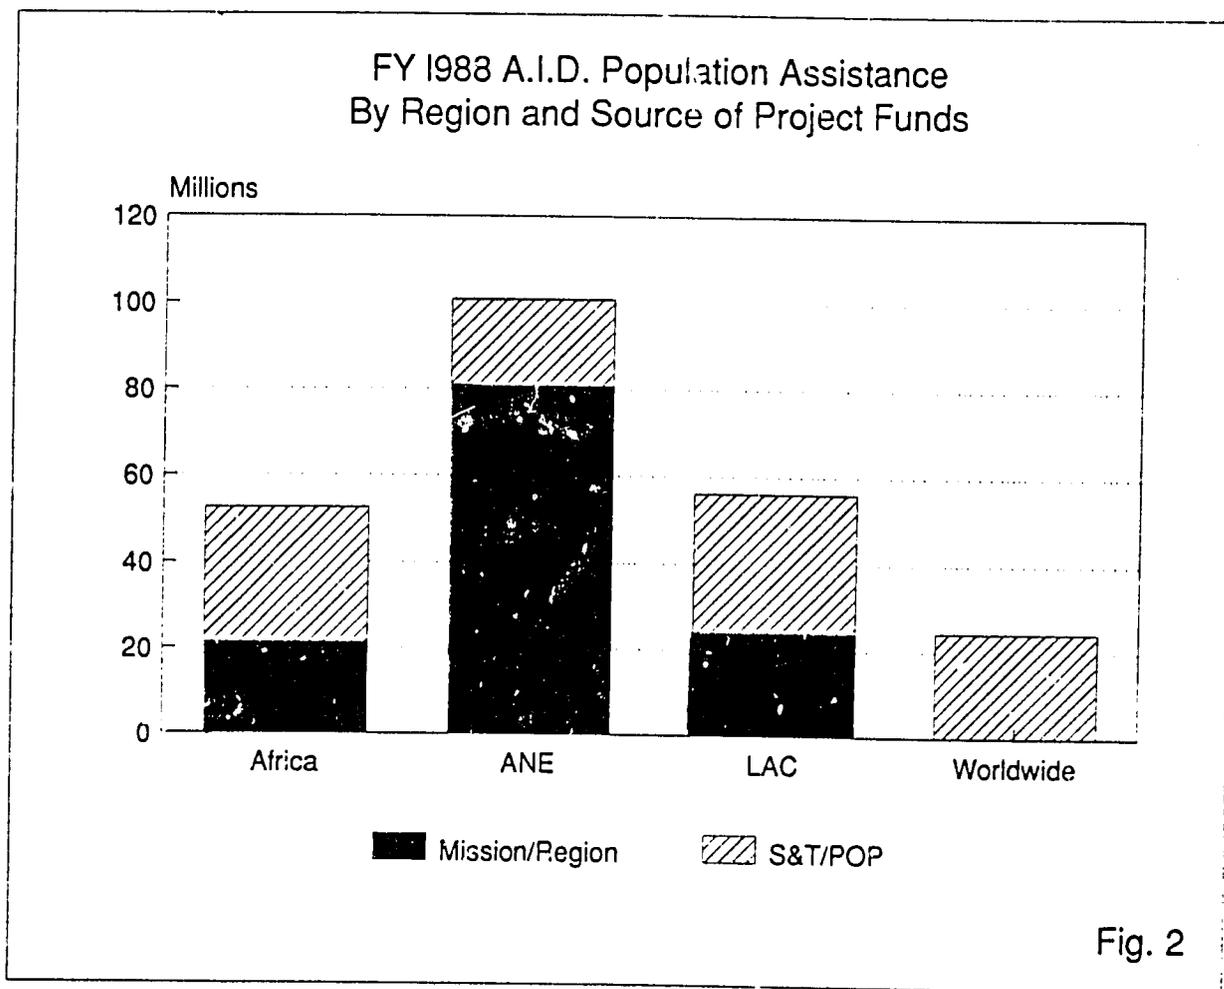

<u>Region</u>	<u>Mission/Region</u>	<u>S&T/POP</u>	<u>Total</u>

Project Total	<u>\$126,212</u>	<u>\$107,644</u>	<u>\$233,856</u>
Other*	--	13,205 *	13,205 *
Total	<u>\$126,212</u>	<u>\$120,849</u>	<u>\$247,061</u>

* Expenditures for contraceptive commodities that are centrally funded by the Office of Population and that cannot be attributed by country

Asia, with its very large population, received 43 percent of the total project expenditures in FY 1988 (see Figure 1). Approximately 24 percent went to the Latin America/Caribbean region, and nearly 23 percent to Africa. The remaining 10 percent supported research and other activities of worldwide significance.

The source of population project funding within A.I.D. -- Mission/Region versus Office of Population -- varies significantly by region. In FY 1988, for example, S&T/POP funds represented only 20 percent of the project expenditures in Asia (see Figure 2), but financed 100 percent of the worldwide projects. In Africa and Latin America, expenditures are divided more evenly, with S&T/POP providing 59 percent of the funding in Africa and 57 percent in Latin America.

Africa

In FY 1988, A.I.D. provided population assistance to 45 countries in Africa (see Table 2), with expenditures of \$52.6 million.

Of this total, \$21.3 million came from Mission/Region projects and \$31.2 million from S&T/POP projects. The S&T/POP expenditures included \$9.8 million for in-country subproject activity, \$9 million for technical assistance, and \$12.4 million for other direct and indirect costs incurred by S&T/POP Cooperating Agencies.

Technical assistance, accounting for 17 percent of the total, is relatively high in Africa because many of the countries in this region are still in the early stages of their population and family planning efforts (see Figure 3).

and the Africa Bureau; S&T/POP Subprojects-- Population Projects
Database (June 1989); S&T/POP TA and Other Costs--CA Cost Report
(February 1989)

Four of the African countries -- Kenya, Senegal, Nigeria, and Zimbabwe -- accounted for 44 percent of the region's population expenditures in FY 1988 (see Figure 4).

For more detailed project listings for Africa, please see the In-Country Project Activities Report, published by the Office of Population in August 1989.

Asia/Near East

In Asia and the Near East, A.I.D. financed population projects in 30 countries in FY 1988, with expenditures of \$100.8 million (see Table 3).

The bulk of this total, nearly \$81 million, was spent for Mission/Region projects. Just over \$20 million came from S&T/POP projects -- \$7.1 million for subprojects, \$4.9 million for technical assistance, and slightly over \$8 million for other direct and indirect costs.

Mission/Region project expenditures are relatively high in this region (see Figure 5) as a result of several large bilateral agreements, particularly in Bangladesh and Pakistan.

and the Asia/Near East Bureau; S&I/POP Subprojects--Population
Projects Database (June 1989); S&I/POP IA and Other Costs--CA
Cost Report (February 1989)

Three countries -- Bangladesh, Pakistan, and Egypt -- accounted for half the FY 1988 expenditures in Asia and the Near East (see Figure 6). Other major recipients of population assistance included Indonesia, Morocco, the Philippines, and India.

For detailed project listings for Asia and the Near East, please see the In-Country Project Activities Report, published by the Office of Population in August 1989.

9

Latin America/Caribbean

A.I.D.-funded population activities were carried out in FY 1988 in 25 countries in Latin America and the Caribbean (see Table 4), with total expenditures of \$56.1 million.

Of this total, \$24.1 million was expended through Mission/Region projects and \$32 million from S&T/POP projects (see Figure 7). The S&T/POP expenditures included \$15.9 million for subprojects, \$6.1 million for technical assistance, and nearly \$10 million for other costs.

and the Latin America/Caribbean Bureau; S&I/POP
Subprojects--Population Projects Database (June 1989); S&I/POP IA
and Other Costs--CA Cost Report (February 1989)

Eight countries in this region received over three-quarters of the assistance in FY 1988 (see Figure 8). Four of these -- El Salvador, Guatemala, Honduras, and Ecuador -- received most of their funding from the Missions and the LAC Bureau. Three of them -- Mexico, Brazil and Colombia -- were financed primarily by S&T/POP. Population expenditures in Peru were divided almost evenly between the Mission/LAC Bureau and S&T/POP.

For detailed project listings for the Latin America/Caribbean region, please see the In-Country Project Activities Report, published by the Office of Population in August 1989.

Worldwide and Interregional

A.I.D. expenditures for interregional population assistance and activities of worldwide significance totaled \$24.3 million in FY 1988 (see Table 5), all for S&T/POP projects.

Of the total, \$5.7 million was used for subprojects, \$5.4 million for technical assistance, and \$13.3 million for other costs.

Most of the projects in this category involve contraceptive research. Operations research, worldwide training, IE&C, and policy development activities are also represented in the interregional and USA-based activities.

For detailed project listings, please see the In-Country Project Activities Report, published by the Office of Population in August 1989.

Office of Population Assistance, FY 1988 - FY 1989

In FY 1988, the Office of Population spent nearly \$121 million for population and family planning activities, financing the following activities:

Subprojects	\$38,508,000
Technical Assistance	25,437,000
Contraceptives	13,205,000
Non-contraceptive commodities and other costs	43,699,000
	<hr/>
Total - FY 1988	\$120,849,000

These expenditures in 1988 supported population activities in 99 developing countries of Africa, Asia, the Near East, Latin America, and the Caribbean, as well as other worldwide and interregional projects.

The following pages give further information on the S&T/POP in-country subproject activities, and note some changing trends in subproject activity between FY 1988 and FY 1989.

Number of Subprojects by Region

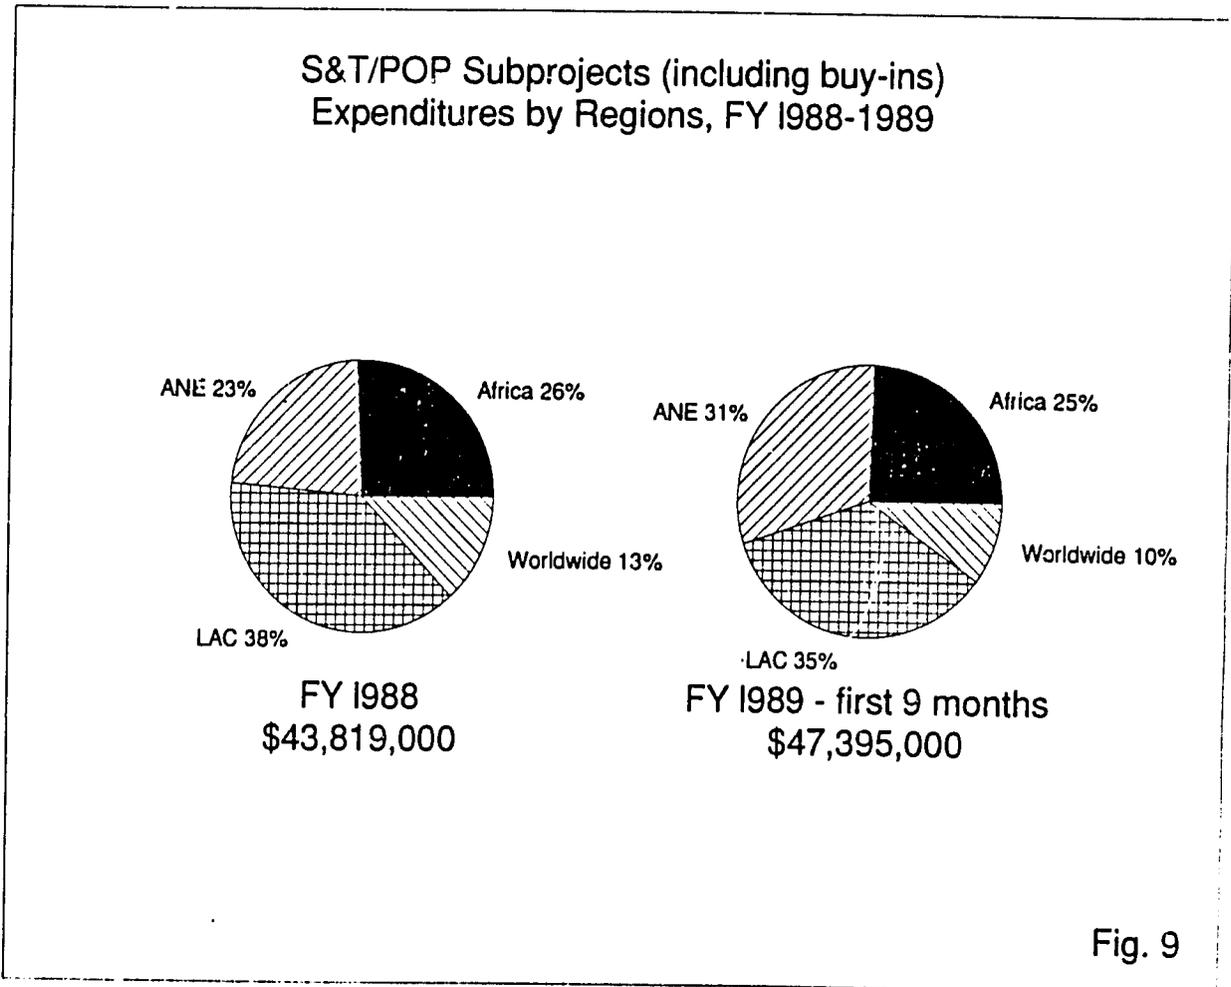

In FY 1988, S&T/POP projects (and buy-ins to those projects) financed 1,359 subprojects -- 413 in Africa, 346 in ANE, 477 in LAC, and 123 worldwide.

Through the first 9 months of FY 1989, there were 1,038 subprojects -- 285 in Africa, 285 in ANE, 374 in LAC, and 94 worldwide.

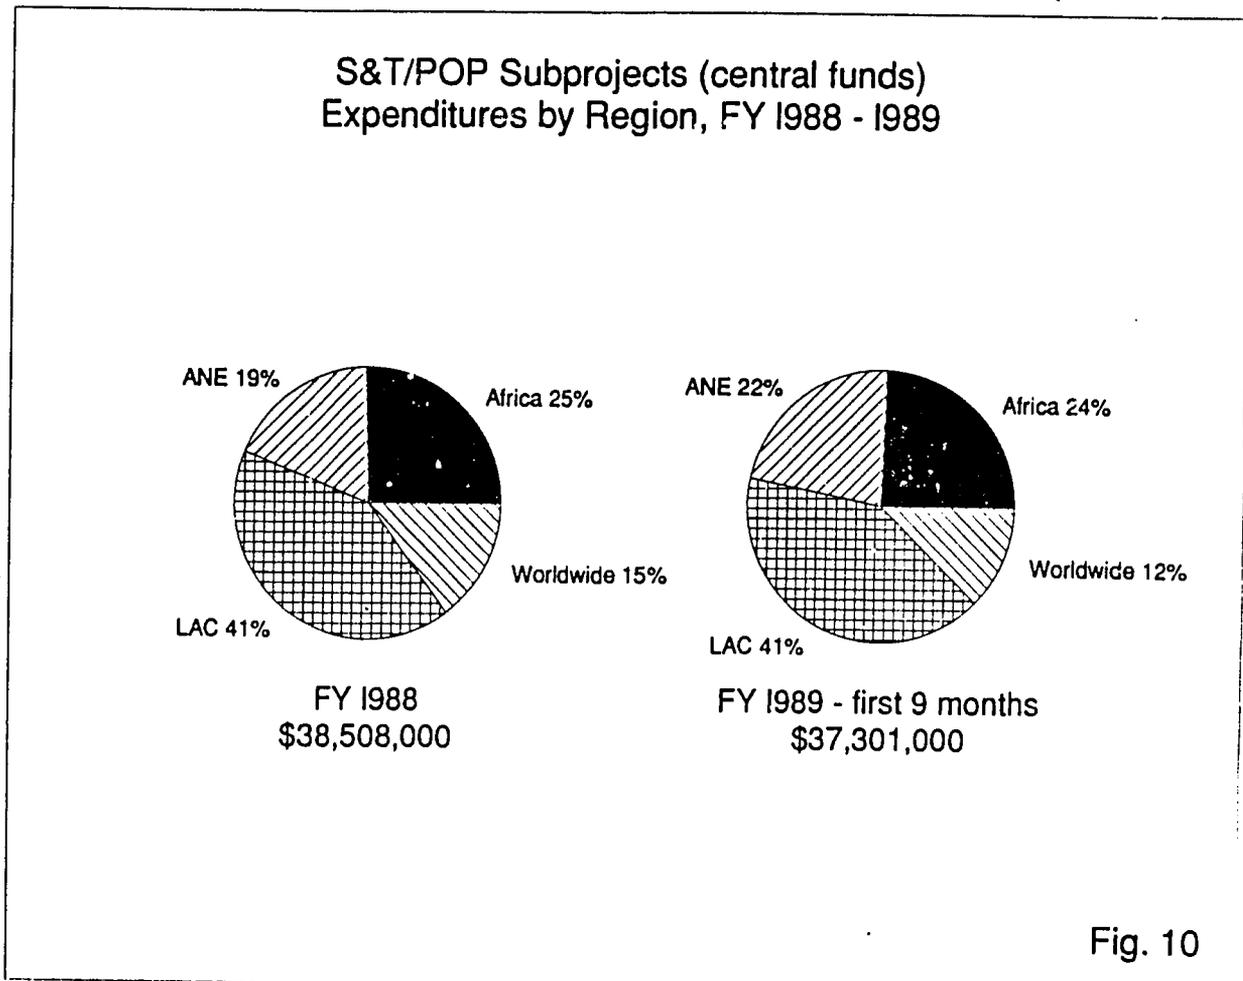

Subproject Expenditures by Region

Buy-ins are financing a larger percentage of the subprojects in the current fiscal year than in FY 1988. Subproject expenditures for FY 1988 totaled \$43,819,000, of which 12 percent came from buy-ins. The subprojects active in the first 9 months of FY 1989 are expected to spend \$47,395,000 for the year, with 21 percent coming from buy-ins.

Subproject expenditures are also showing a shift by region, with ANE moving from 23 percent of the total in FY 1988 to almost 31 percent for the subprojects started in the first 9 months of FY 1989 (see Figure 9).

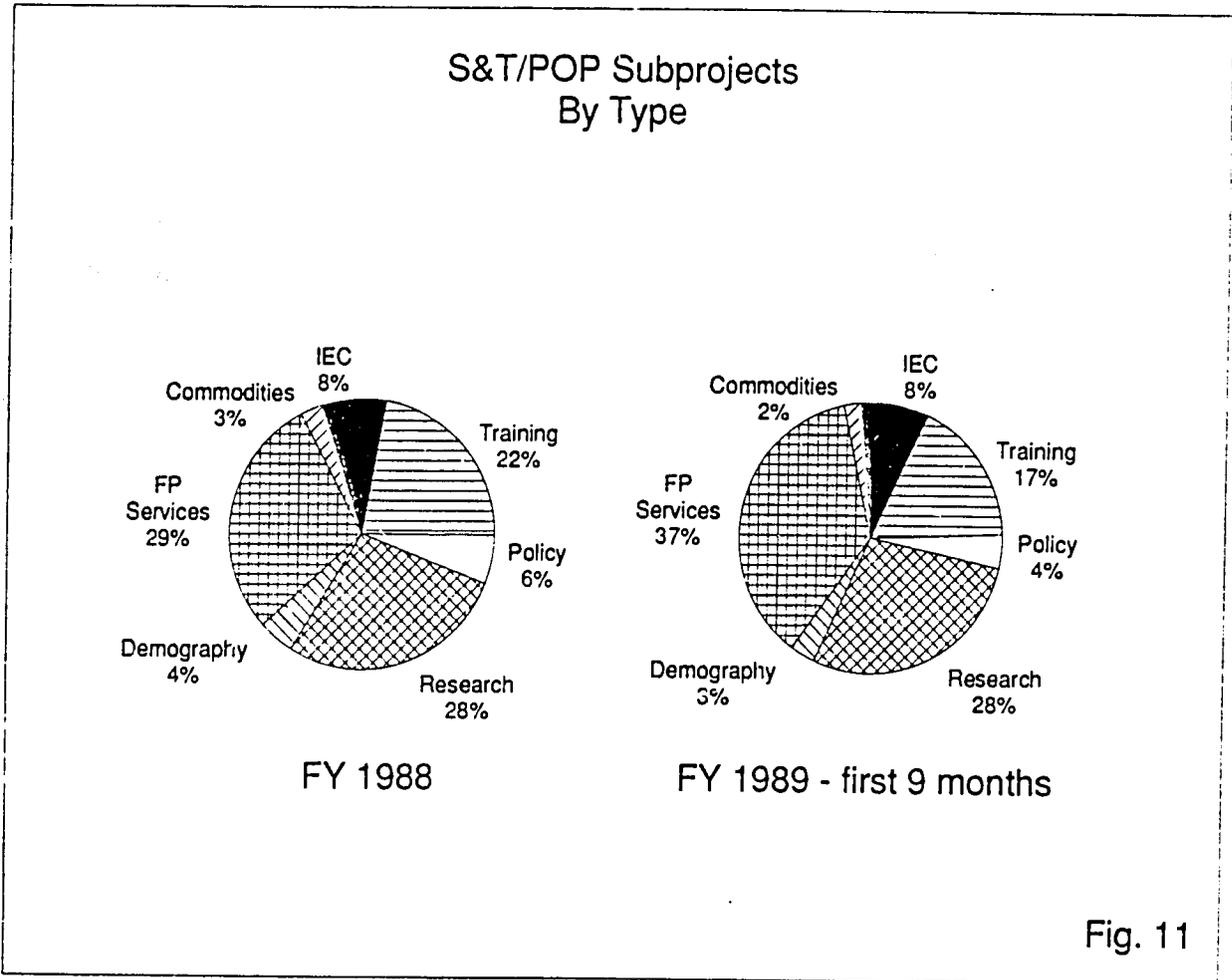

This increase in subproject expenditures in ANE is due largely to buy-ins, although a smaller shift is noticeable in central funds as well (see Figure 10).

16

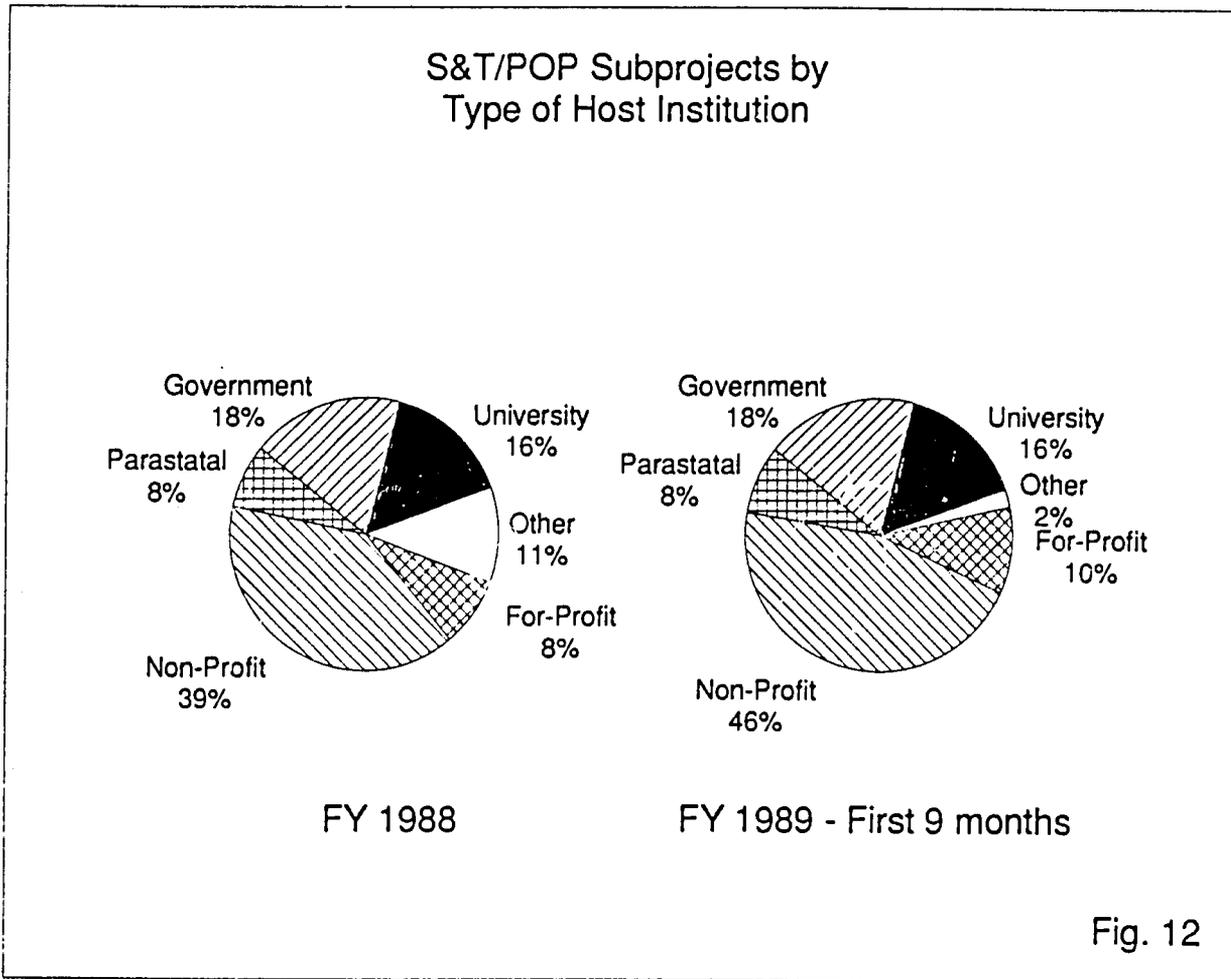

Primary Program Goal

In the first 9 months of FY 1989 there has been a marked increase in the percentage of service delivery subprojects as compared to FY 1988 (see Figure 11). Service delivery subprojects, which numbered 393 in all of 1988, are already at 300 for the first three quarters of FY 1989.

Type of Host Institution

FY 1989 subproject activities are showing an increase in the percentage of non-profit organizations as host country institutions (see Figure 12).

13

Non-profits, which made up 39 percent of the host institutions in FY 1988, account for 46 percent of the total thus far in FY 1989. For-profit institutions are also showing an increase, rising from 8 percent in FY 1988 to 10 percent in FY 1989.

Number of Active Subprojects

The number of subprojects active on any one date seems to be showing a downward trend:

Subprojects Active on:

October 1, 1988	857
January 1, 1989	787
April 1, 1989	761
June 1, 1989	694

Summary of FY 1989 Subproject Trends

At this point, three quarters of the way through FY 1989, the Office of Population is expected to fund at least as many subprojects in FY 1989 as in FY 1988. If current trends continue, there will be slightly more subprojects active in FY 1989 than the 1,359 that were active in FY 1988.

A larger percentage of the 1989 subprojects are in Asia and the Near East than in 1988, and a significantly larger percentage of them are financed by buy-ins.

Service delivery subprojects, especially those carried out by non-governmental host country institutions, are growing in importance this fiscal year.

In-Country Project Activities Report

This report is one in a series of four which look at various aspects of the worldwide population activities of the U.S. Agency for International Development. These reports include:

- o Overview of A.I.D. Population Assistance (August 1989)
- o In-Country Project Activities Report (August 1989)
- o Subproject Activities Report (August 1989)
- o CA Cost Report (February 1989)

The above reports on program activities and expenditures are supplemented by the contraceptive procurement data contained in Overview of A.I.D. Assistance in Commodities and Program Support (March 1989).

"Project" Activities

Each year Congress appropriates funds to A.I.D. for specific purposes and specific countries. When these funds are obligated, they are earmarked for projects. Project funds are administered by A.I.D. Regional Bureaus and Missions as well as by various central offices such as the Office of Population (S&T/POP).

Explanation of Format

The following pages list 156 A.I.D. population projects by country, showing projects and expenditures for fiscal years 1987, 1988, 1989 (projected), and 1990 (projected).

At the country level, the report distinguishes between the projects funded by A.I.D. Missions and Regional Bureaus, and those funded by A.I.D.'s central Office of Population.

Proper Use of the Data

This report was created to provide data on total A.I.D. population assistance in each country, including activities funded by the Regional Bureaus, Missions, and the Office of Population. The report is intended to give a picture of the extent of A.I.D.'s activities within each country, but the data must be used with care.

It is important to note that expenditures listed for the Mission/Region projects include expenditures for all population activities. They may include expenditures by host governments under bilateral agreements, as well as expenditures under contracts and grants for commodities and services.

In contrast, the S&T/POP project expenditures reflect only in-country expenditures. They do not include S&T/POP expenditures for contraceptives, technical assistance and training by foreign consultants, and other population assistance costs. (In FY 1988, S&T/POP expenditures for contraceptives, technical assistance, and other population assistance costs amounted to \$82.3 million.)

It should also be noted that S&T/POP expenditure estimates for FY 1989 and FY 1990 are understated because they project expenditures only for currently active in-country activities. They do not include projected expenditures for subproject activities which have not yet started.

Source of Data

The data in this report were assembled from the Population Projects Database (PPD), a computer-based information system maintained for the Agency for International Development by John Snow, Inc. in Boston, Massachusetts.

For the Mission/Region category, the report includes all projects funded from the Population Account and all other population projects which can be identified from other funding accounts. Expenditure data for these projects were taken from A.I.D.'s FY 1989 and 1990 Congressional Presentations. Data for country-specific expenditures of regional projects such as Family Health Initiatives and Intercountry Technology Transfer were provided by the A.I.D. Regional Bureaus.

The in-country S&T/POP project expenditure data for this report were compiled from the country-specific subproject expenditures supplied to the PPD by A.I.D. Cooperating Agencies. (For subproject information, please see the companion Subproject Activities Report.)

Summary Data

For summary data on project level expenditures, please see Overview of A.I.D. Population Assistance, another companion report.

Subproject Activities Report

This report is one in a series of four which look at various aspects of the worldwide population activities of the U.S. Agency for International Development. These reports include:

- o Overview of A.I.D. Population Assistance (August 1989)
- o In-Country Project Activities Report (August 1989)
- o Subproject Activities Report (August 1989)
- o CA Cost Report (February 1989)

The above reports on program activities and expenditures are supplemented by the contraceptive procurement data contained in Overview of A.I.D. Assistance in Commodities and Program Support (March 1989).

"Subproject" Activities

The "subprojects" listed in this report are discrete in-country activities funded by A.I.D. and carried out by host country institutions under subproject agreements with U.S.-based contractors and grantees.

Explanation of Format

The following pages list 1,775 A.I.D. population subprojects that were active in FY 1988 and/or FY 1989, showing, for each country, the subprojects and their expenditures for fiscal years 1988 and 1989. Actual expenditures are given for fiscal year 1988, and projected expenditures are shown for FY 1989.

For each country, the report identifies subprojects by funding source: A.I.D.'s central Office of Population (S&T/POP); buy-ins from Missions and Regional Bureaus to S&T/POP contracts and cooperative agreements; and Mission/Region contracts.

Proper Use of the Data

It should be noted that this report covers only in-country subproject activities. It does not include contraceptives provided as commodities, most technical assistance and training, or other direct or indirect costs associated with A.I.D.'s population assistance program.

For more information on contraceptive shipments and expenditures, please see the Overview of A.I.D. Assistance in Commodities and Program Support, published by the Office of Population in March 1989. For more information on technical assistance and other expenditures under S&T/POP contracts and cooperative agreements, please see the Worldwide Report on A.I.D. Centrally Funded Assistance, published by the Office of Population in February 1989.

FY 1988 and FY 1989 Subproject Level Activity

In FY 1988, A.I.D. financed nearly 1,600 subprojects in 88 countries. Of these, 1,359 were funded under S&T/POP agreements (and buy-ins to those agreements), and the remainder were funded under Mission/Region agreements.

Expenditures for the 1,600 subprojects totaled \$57.6 million -- \$38.5 million from S&T/POP, \$5.3 million from buy-ins, and \$13.8 million directly from the Missions and Regional bureaus (see Table 1).

	<u>FY 1988</u>	<u>FY 1989</u>
S&T/POP	\$38,508,000 (67%)	\$37,301,000 (63%)
Buy-ins	5,311,000 (9%)	10,094,000 (17%)
Mis/Reg	13,769,000 (24%)	11,777,000 (20%)
Total	\$57,588,000	\$59,172,000

During the first three quarters of FY 1989, A.I.D. was financing over 1,200 subprojects in 86 countries. Of this total, 1,038 were funded under S&T/POP agreements and buy-ins, and the remainder were funded under Mission/Region agreements.

As of June 30, the FY 1989 expenditures for these 1,200 subprojects were projected to reach \$59.2 million, including \$37.3 million from S&T/POP, \$10.1 million from buy-ins, and \$11.8 million directly from Missions and Regional Bureaus. This amount, which does not include projected expenditures for subprojects which will begin in the final three months of the fiscal year, is already higher than total FY 1988 subproject expenditures.

Source of Data

The data in this report were assembled from the Population Projects Database (PPD), a computer-based information system maintained for the Agency for International Development by John Snow, Inc. in Boston, Massachusetts. Subproject data are collected continuously from A.I.D. Cooperating Agencies, with major updates every six months. The PPD contains up-to-date information on all in-country subproject population activities funded by A.I.D. since 1983. Both descriptive information and annual cost data related to these activities are included in the database.

Summary Data

For summary data on Office of Population subproject level activities, please see Overview of A.I.D. Population Assistance, which accompanies this report.

AGENCY FOR INTERNATIONAL DEVELOPMENT
WASHINGTON, D.C. 20523

18 AUG 1989

Dear Colleague:

I am pleased to send you the enclosed semiannual Population Projects Database (PPD) update, a report to which many of you have contributed data.

The three reports included in this update of the PPD replace the single report we have sent you in the past. These new reports are the result of a major effort to reformat and expand the data available to you and to us on A.I.D.'s population assistance.

There are two major improvements I would particularly like to point out. First, we show A.I.D.'s overall population assistance by country, including both centrally-funded and Mission/Region-funded projects. And, second, the subproject listings are broken out by their source of funding, i.e., S&T/POP, buy-ins, and Mission/Region contracts.

Specifically, the three reports are:

* an Overview of A.I.D. Population Assistance, which provides a country-by-country summary of overall A.I.D. population assistance for FY 1988, as well as a closer look at Office of Population activity in FY 1988 and the first three quarters of FY 1989.

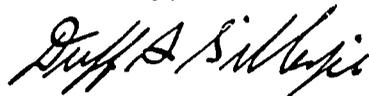

* an In-Country Project Activities Report, which lists 156 A.I.D. population projects by country, showing projects and their expenditures for fiscal years 1987, 1988, 1989, and 1990. At the country level, the report distinguishes between the projects funded by A.I.D. Missions and Regional Bureaus, and those funded by the Office of Population.

* a Subproject Activities Report, which lists the 1,775 A.I.D. population subprojects (by country) that were active in FY 1988 and/or FY 1989. For each country, the report identifies subprojects according to the way in which they are funded: S&T/POP, buy-ins, or Mission/Region contracts.

I hope that these expanded reports will be useful to you in your work. As always, we invite your comments, requests, and/or corrections to the data.

Thank you again for helping to make these reports possible.

Sincerely,

Duff G. Gillespie
Agency Director for Population

MEMORANDUM

TO: Members of the International Population/Family Planning Community
FROM: Susan F. Klein, PPD Database Manager
DATE: August 18, 1989
RE: The Population Projects Database (PPD) of the Office of Population, U.S.A.I.D.

In the past, the "Worldwide Report on A.I.D. and IPPF Funded Population Activities" has been published twice each year in February and August. This report focused on subproject activities by country, but included information on bilateral and regional projects as well. In a continuing effort to make PPD publications more useful to the population community, this report has now been split into two reports--a project level report and a subproject level report--each with a greater level of detail than in the past. In addition, an analytic report entitled "Overview of A.I.D. Population Assistance" has been added, drawing data from the PPD, the "CA Cost Report" (published annually in February), and other sources.

Please update your white binder Worldwide Report on A.I.D. Population Programs as follows:

1. **New first section.** Insert the enclosed tab "Overview" and the spiral bound report entitled "Overview of A.I.D. Population Assistance" as the new first section.
2. **New second section.** Insert the enclosed tab "In-Country Project Activities Report" and the shrink-wrapped report of the same title as the second section of the binder.
3. **Third section.** The third section will be the updated version of the report currently in your binder entitled "Subproject Activities Report." The shrink-wrapped report of the same title should be inserted here as follows:

"Subproject Activities Report" tab -- Insert the two-page narrative behind this tab.

"Africa" sub-tab -- Pages 1-47

"Asia/Near East" sub-tab -- Pages 48-87

"Latin America/Caribbean" sub-tab -- Pages 88-128

"Other" sub-tab -- Pages 129-142
