SUMMARY OF USAID FUNDING FOR CHILD SURVIVAL

The Health Projects Database (HPD) is a comprehensive inventory of health related projects that have been funded by the U.S. Agency for International Development (USAID) since 1975. Supported by USAID's Office of Health, Bureau for Science and Technology, the HPD tracks bilateral, regional and centrally-funded projects and sub-projects with a health component, including child survival, AIDS, nutrition, water supply and sanitation, and other health related activities. Projects are identified for the HPD through the annual Health and Child Survival Questionnaire, Annual Budget Submissions (ABS), and the Congressional Presentation (CP).

Certain limitations apply to the HPD: Project Development and Support (PD&S) activities are included in the HPD only when funded with Health Account or Child Survival Fund monies. Health and Child Survival Activities funded with Population Account monies are not included for FY89, FY90 or FY91. Health and Child Survival Activities funded with local currency (PL 480) are included in the HPD only when identified on the questionnaire but are not reported in the CIHI standard reports. Nutrition activities funded with local currency are included in a separate nutrition projects database (currently in development). Large urban water supply and sanitation projects are maintained in a separate database and are not included in the HPD.

This report includes two tables and two pages of graphs summarizing USAID funding for all child survival activities and funding accounts as recorded in the HPD. The tables and graphs show trends in funding from FY 1985 to FY 1991 and provide breakdowns by region, by funding account and by type of intervention.

The funding amounts reported here are based on fiscal year (FY) obligations reported in the CP, and on attributions to child survival interventions reported in the annual Health and Child Survival Questionnaires and in the USAID Activity Code/Special Interest (AC/SI) System. Specifically, final obligations for FY85 through FY89 are from the 1987-1991 CPs respectively, projected obligations for FY90 and FY91 are from the 1991 CP, child survival attributions for FY85 and FY86 are from the 1986 questionnaire, for FY87 from the 1987 questionnaire, for FY88 from the 1988 questionnaire, and for FY89, FY90 and FY91 from the 1989 questionnaire and the AC/SI system. Child survival attributions for FY88 for activities funded by the Development Fund for Africa (DFA) are based on information from AFR/DP as revised on May 2, 1989. Special funding for Nicaragua's "Children's Survival Assistance" is not included in any of the figures in this report. The projected FY91 child survival obligation for the Development Policy Reform Program is also not included in this report.

Child survival grants to Private Voluntary Organizations (PVOs) funded by the Bureau for Food for Peace and Voluntary Assistance (FVA) are allocated to the regions in which each PVO is working in FY85 through FY89, and are under "global" in FY90 and FY91.

Project listings supporting all summary figures in this report are available in the Center for International Health Information (CIHI) standard reports 15-85/Final, 15-86/Final, 15-87/Final, 15-88/Final, 15-89/Final, 15-90/91CP and 15-91/91CP.
