FAX (703) 243-4669

**USAID FUNDING FOR HEALTH RELATED
WATER SUPPLY AND SANITATION ACTIVITIES**

The Water Database is a subset of the Health Projects Database (HPD), and tracks all the USAID funded projects that have a Water Supply and Sanitation (WSS) component related to human use. Projects entered into this database are identified through the annual Health and Child Survival Questionnaires, Annual Budget Submissions (ABS), and the Congressional Presentation (CP). Projects funded with local currency (PL480) are not included in this database.

This table summarizes USAID funding for water supply and sanitation activities from FY 1985 to FY 1991 as recorded in the Water Database. The funding data are presented by region, and by funding account. Project specific listings with annual funding for WSS are included in this report.

The funding amounts reported here are calculated amounts, based on fiscal year (FY) obligations reported in the CP and on percentage attributions for water reported in the annual Health and Child Survival Questionnaires and in the USAID Activity Code/Special Interest (AC/SI) System. Specifically, final obligations for FY85 through FY89 are from the 1987-1991 CPs respectively, and projected obligations for FY90 and FY91 are from the 1991 CP. WSS percentages are reported from the 1986 questionnaire for FY85 and FY86, from the 1987 questionnaire for FY87, from the 1988 questionnaire for FY88, and from the 1989 questionnaire and the AC/SI system for FY89, FY90 and FY91.

Child survival grants to Private Voluntary Organizations (PVOs) funded by the Bureau for Food for Peace and Voluntary Assistance (FVA) are included in the figures for FY85 through FY89, but are not included in projected obligations in FY90 and FY91 because country specific allocations are not available until after the grants are awarded.
