GENERAL POLICIES FOR INTERNATIONAL MAIL

Where authorized, mail from the U.S. to foreign destinations will be sent through the USAID Mission (pouch mail). This generally is the fastest and least expensive method.

At those missions where host country staff are not authorized to receive pouch mail, items will be sent via the U.S. Research Associate's USAID address. Therefore, Research Associates may from time to time receive envelopes with their own mail, and mail for host country staff. Mail for other staff will be clearly marked as such.

Items up to 2 lbs. only may be sent pouch mail. A (C) should be added after the addressee's name on all pouch mail.

Packages up to two pounds will almost always be sent pouch mail due to the great cost savings. Letters will be sent international mail to home or site addresses where that service is faster. Important or urgent items may be sent both places.

Items of particular importance or urgency sent pouch mail will be marked "DATED MATERIAL ENCLOSED" in the hopes that mission staff will expedite where possible.

EGYPT

Bart Green only is authorized to receive pouch mail.

Letters will be sent international airmail to either the home or site address, as this seems the faster route. However, checks should be sent via courier (such as Federal Express), as this seems to be the only method that guarantees their timely arrival.

HONDURAS

David Teichert-Coddington only is authorized to receive pouch mail.

Letters will be sent international airmail to either the home or site address, as this seems the faster route.

RWANDA

Rwanda project personnel request that all mail be sent directly to the addresses noted, rather than using the mission pouch service.

THAILAND

Thailand project personnel request that all mail be sent directly to AIT, rather than using the mission pouch service.
