Note: Based on U.S. Overseas Loans and Grants and Assistance from International Organizations.

[a]Each Country is counted only once if it receives funding from one or more appropriations.

[b]Each country is counted only once if it receives one or more kinds of assistance. Included in the total count but not shown separately are such programs as Inter-American Foundation, International Narcotics Control.

REPORTING CONCEPTS

The current issue of this report continues to summarize and group the individual countries by geographic region, without distinction between "developed" and "developing" countries.

The U.S. programs included in "Economic Assistance" for all countries in this book are equivalent to those included in the U.S. reports to the Development Assistance Committee (DAC) of the Organization for Economic Cooperation and Development in compiling its statistics on "Official Development Assistance" (ODA).

On each page, following Section III, Total Economic and Military Assistance, an unnumbered section sets forth Other U.S. Government Loans. This category includes Export-Import Bank loans and other loans, principally short-term credits under the Commodity Credit Corporation Charter Act, Overseas Private Investment Corporation (OPIC) direct loans, and private trade agreements under Title I of PL 480.

Prior to FY 1955 data represent net obligations. From FY 1955 to the present, data represent gross obligations, that is, total new obligations entered into during a given year. Cumulative totals shown for FY 1962-1987 are gross. The FY 1946-1987 cumulative totals, however, are on a net basis reflecting total obligations for the entire period less all deobligations during that period.

I. ECONOMIC ASSISTANCE

a. Agency for International Development

Data cover commitments for economic assistance made by A.I.D. and its predecessor agencies. Commitments include loan authorizations and obligations and grant obligations. (The data for commitments on the interregional page include State and D.O.E. contributions to international organizations and programs and miscellaneous State operating expenses financed by A.I.D Foreign Assistance Act.) The data include obligations for grants and loans from the Economic Support Fund, Peacekeeping Operations, and Security Supporting Assistance appropriations (excluding funds used for Population Programs FY 1968-1973), as well as obligations from appropriations for Contingency, Special Assistance, Defense Support, Direct Forces Support, Joint Control Area, International Organizations, Indochina Postwar Reconstruction, Middle East Special Requirements Fund, and Assistance to Portuguese Colonies in Africa. The loan total also includes "capitalized interest", which represents interest on loans that rather than being paid when due, is added for accounting purposes to the face amount of the loan, and is thereafter treated as principal to be repaid with interest. The loans made from the Social Progress Trust Fund by the Inter-American Development Bank are not included in the A.I.D. figures, but are included under "Other Economic Assistance". A separate memorandum line item has been included for Security Supporting Assistance/Economic Support Fund obligations.

b. Food for Peace: PL 480 - Agricultural Trade Development and Assistance Act of 1954 and Amendments Thereto.

Title I - Sales Agreements

Repayable in U.S. Dollars. Sales on credit terms repayable in U.S. dollars are shown in total as loans, excluding any initial down payments in dollars which have been specified in some sales agreements. The data exclude any private trade agreements financed under the Act. Any shortfalls or cancellations through FY 1973 are reflected in the year the agreement was originally signed. Beginning in FY 1974, such reductions are reflected only in the cumulative total, with no adjustments in annual agreements.

Payable in Foreign Currency. The portion of each agreement which is "planned for country use" is included in the country totals in the year the sales agreement was signed. A few agreements are more than a year's requirement. Adjustments have been made for actual shortfall of deliveries from annual agreements. Initial downpayments are excluded from the data. Legislative authority for sales payable in foreign curreny has expired.

Title II - Donations

Emergency Relief and Economic Development. This part of Title II authorizes funds for the transfer of agricultural commodities by the Commodity Credit Corporation, to help friendly countries and needy people to meet famine or other urgent or extraordinary relief requirements, or to promote economic development. Transfers to the World Food Program are included in this part of the PL 480 figures. The data represent commodities authorized, plus ocean freight distributed by country. Beginning in FY 1973 through FY 1980, the data are shipment levels plus ocean freight. Starting in FY 1980 annual data are final obligations. From FY 1981 onward, cost of ocean freight is not distributed by country, but is included in the interregional table on page 182. Commodity values through FY 1969 are at CCC cost; subsequent years are at export values.

Voluntary Relief Agencies The data included under this part of Title II cover only the cost of agricultural commodities donated to voluntary relief agencies such as CARE, National Catholic Welfare Conference, Lutheran World Relief, etc., for distribution to needy people abroad. The figures represent authorizations for voluntary relief agency donations valued at CCC costs through FY 1969, with shipment levels for subsequent years at export values. For years prior to FY 1955, the data represents transfers authorized under Sections 416 of the Agricultural Act of 1949 (Public Law 81-439). Cost of ocean freight is not distributed by country, but is included in the interregional activities table on page 182.

c. Other Economic Assistance

Loans. Included in this category are loans authorized by the Inter-American Development Bank from the Social Progress Trust Fund (SPTF), which the IDB administers for the United States; and minor amounts of technical assistance grants from the Trust Fund. Excluded are SPTF participations in IDB loans.

Peace Corps. Data include obligations incurred for the operation of the overseas volunteer program of Action.

Narcotics Data include grants for International Narcotics Control.

Other. Most of the other programs included here were prior to FY 1953. The major programs included are "UNRRA", "Civilian Supplies (including Government and Relief to Occupied Areas)," "Surplus Property Credits", "Civilian Relief in Korea", "Greek-Turkish Aid", "British Loans", and "Philippines Rehabilitation". Currently, the principal programs in this category are paid-in capital subscriptions and contributions to international lending organizations (such as the Inter-American Development Bank and the International Development Association), and grants by the Inter-American Foundation. Beginning in FY 1985, trade and development grants are included in this category.

II. MILITARY ASSISTANCE

Annual data for both grants and credits beginning with FY 1964 onward are on a "program" basis, as are the cumulative totals.

a. Military Assistance Program (MAP) Grants

The data represent primarily grants of military equipment, supplies and services other than international military education and training purchased with appropriated funds. They also include the cost of repair and rehabilitation of excess stocks furnished with cost to the Military Assistance Program, and the cost of packing, crating, handling and transportation of equipment and supplies. During the period of FY 1966 - FY 1975, the data include grant aid funded in support of activities in countries in Southeast Asia, i.e., Korea, Laos, Philippines, Thailand and Vietnam. Also included in this category are transfers of material under P.L. 91-652, P.L. 95-384, and P.L. 96-92.

b. Foreign Military Credit Financing

The "Credit" data through FY 1968 represent credit financing to recipient countries of military equipment and supplies initially credit-financed with MAP funds, including any credits sold to the Export-Import Bank with Department of Defense guarantees. Data exclude direct cash sales of military equipment. Credit data for FY 1969-1987 represent government credits pursuant to the Arms Export Control Act. The cumulative totals represent total governmental credit sales under the Foreign Assistance Act (FAA) and the Arms Export Control Act.

c. International Military Education and Training (IMET) Program

Grant aid training of foreign military personnel, which was formerly provided under MAP and Military Assistance Service Funded (MASF) Grants, was separated out and incorporated in an independent International Military Education and Training (IMET) Program. The data represent grants of instruction and training services to military and related civilian personnel of friendly countries.

d. Transfers from Excess Stocks

Data in this report reflect original acquisition value of equipment and supplies excess to the requirements of the U.S. military departments granted to countries without charge to MAP appropriated funds. Previously, the amount used was the legislated value of excess defense articles representing 33-1/3 percent of the original acquisition value.

e. Other Grants

Included here are the military portion of "Greek-Turkish Aid", "China Naval Aid", "PL 454 Philippines Aid" and "Vessel Loans". Since the latter are essentially transfers on an indeterminate basis, generally requiring only the return of the vessel, if available, they are treated here as grants. For these "Vessel Loans", the data represent the estimated value of the vessels; the activation cost is included in MAP data. Also included in this category are foreign military sales and grants for relocation of facilities for which payment was waived.

OTHER U.S. GOVERNMENT LOANS

a. Export-Import Bank Loans

The Export-Import Bank facilitates U.S. exports, primarily capital equipment, with loans to foreign buyers as well as with credit insurance and guarantees against certain commercial and political risks of loans extended by others. While some of these Eximbank-assisted exports may have a developmental effect in the country of the buyer (most transactions are with foreign private sector entities), terms and conditions preclude classification as Official Development Assistance.

Data reflect credits authorized in favor of foreign buyers; data for years prior to FY 1969 include only those having maturities of five years or more. Because this document reports only loans, data reflecting Eximbank authorizations of export credit insurance and guarantees are not included; such information is contained in Eximbank's Annual Report to the Congress.

Cancellations and terminations are deducted from loans authorized. Until FY 1973 fiscal year data have been constructed so that if a loan made in one year is increased in a later year, the increase is included in the year it occurred; but if the loan is cancelled, decreased or sold to a non-U.S. government purchaser in a later year, the loan has been decreased in the year originally authorized. Starting in FY 1973, however, such reductions are reflected in the cumulative total, with no adjustment in the annual data. Starting in FY 1980 such increases are reflected in cumulative totals only with no adjustment in the annual data.

b. All Other

These include short-term credits by the U.S. Department of Agriculture under the Commodity Credit Corporation Charter Act, Overseas Private Investment Corporation (OPIC) direct loans and Private Trade agreements under PL 480 Title I.

TIME PERIODS

The commitments data for all economic and military programs are shown by U.S. fiscal years arranged in four broad groupings; Post-War Relief Period (1946-1948); Marshall Plan Period (1949-1952); Mutual Security Act Period (1953-1961); and Foreign Assistance Act Period (1962-1987). The Agency for International Development has been in existence only during this last period.

PRINCIPLE REPAYMENTS

The "Principle Repayments" column shows the cumulative principal repaid on loans made during the period 1946-1987 and payments on capitalized interest for that period. It includes repayments in dollars and in foreign currencies; the latter, of course, are expressed in dollar equivalents.

OUTSTANDING LOAN BALANCES

The "Outstanding Loan Balances" column shows the cumulative amount of loan principal yet to be repaid on loans made during the period 1946-1987 and on capitalized interest for that period.

---

NOTE: Details may not add to totals due to rounding.
*Denotes less than $50,000 where applicable.

The data represent assistance from all sources available to the various organizations, including contributions, subscriptions, bond issues, etc. The data do NOT represent the United States contributions TO these organizations; such contributions are included in the first portion of this report.

Data are based on United States fiscal years except for "UNDP" and "Other UN" programs. These are calendar year figures, shown in the fiscal year in which the calendar year ends. As of FY 1982 UNDP data is based on United States fiscal years.

Recipient countries have been grouped by region to conform with the arrangement of countries in the first part of this report.
